

DECLARATION OF ÜMIT ÖZGÜNER

I, Ümit Özgüner, am over twenty-one (21) years of age. I am fully competent to make this declaration. I declare the following information to be true to the best of my knowledge, information, and belief:

1. I have been a Professor of Electrical and Computer Engineering at Ohio State University from 1981 to 2015 and a Professor Emeritus from 2015 to the present. I earned a PhD in Electrical Engineering from the University of Illinois in 1975.
2. In 1997, I was the Technical Program Chair for the IEEE Conference on Intelligent Transportation Systems, held at the Boston Park Plaza Hotel in Boston Massachusetts on November 9–12, 1997. The Proceedings (excerpts from which are attached as Exhibit A) from the conference correctly note that I was Technical Program Chair on page v, and my statement is printed on page 2.
3. I attended the conference. At the conference, all of the Technical Papers listed on Pages 44–46 in Exhibit A were distributed to registered conference attendees as part of the Proceedings when they picked up their badges at the registration desk during the conference from November 9–12, 1997. Approximately 100 to 500 people attended the conference and received copies of the articles.
4. Attached to this declaration is Exhibit A, which is a document that contains true and correct excerpts of the Proceedings given to the conference attendees. It also shows the correct date and location of the conference on the first page (Boston Park Plaza Hotel, Boston, Massachusetts, November 9–12, 1997). On the lower right of page 314, there appears to be a stamp that seems to have been added to a later printing after the conference because it has a later date.

5. Under penalty of perjury, I declare that the foregoing is based on my personal knowledge and is true and correct to the best of my knowledge and belief.

Executed on March 28, 2017 at Columbus, Ohio.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
