

Exhibit 2001

**IN THE UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF TEXAS
DALLAS DIVISION**

**CONVERGENT MEDIA SOLUTIONS
LLC,**

Plaintiff,

v.

**AT&T, INC. and AT&T SERVICES,
INC.,**

Defendants.

Civil Action No. 3:15-cv-02156-M

JURY TRIAL DEMANDED

FIRST AMENDED COMPLAINT FOR PATENT INFRINGEMENT

Plaintiff Convergent Media Solutions LLC (“Convergent” or “Plaintiff”) files this First Amended Complaint against AT&T, Inc. and AT&T Services, Inc. (“Defendants”) for infringement of U.S. Patent No. 8,850,507 (“the ’507 patent”), U.S. Patent No. 8,914,840 (“the ’840 patent”), and U.S. Patent No. 8,640,183 (“the ’183 patent”).

THE PARTIES

1. Convergent is a limited liability company organized and existing under the laws of the State of New York, having a principal place of business in Dallas, Texas.
2. Defendant AT&T, Inc. is a Delaware corporation, having a principal place of business in Dallas, Texas. This Defendant has been served with process and has appeared.
3. Defendant AT&T Services, Inc. is a Delaware corporation, having a principal place of business in Dallas, Texas. Counsel for Defendant AT&T Services, Inc., who are also counsel for Defendant AT&T, Inc., have agreed to accept service of the First Amended Original Complaint for Patent Infringement via the Court’s CM/ECF system.

JURISDICTION AND VENUE

4. Convergent brings this action for patent infringement under the patent laws of the United States, namely 35 U.S.C. §§ 271, 281, and 284-285, among others.

5. This Court has subject matter jurisdiction over the claims in this action pursuant to 28 U.S.C. §§ 1331 and 1338(a).

6. Venue is proper in this judicial district pursuant to 28 U.S.C. §§ 1391(b) and (c), and 1400(b). On information and belief, Defendants are deemed to reside in this judicial district, have committed acts of infringement in this judicial district, have purposely transacted business in this judicial district, and/or have regular and established places of business in this judicial district.

7. Defendants are subject to this Court's specific and general personal jurisdiction pursuant to due process and/or the Texas Long Arm Statute, due at least to their substantial and pervasive business in this State and judicial district, including: (A) at least part of their infringing activities alleged herein; and (B) regularly doing or soliciting business and, accordingly, deriving substantial revenue from goods and services provided to Texas residents.

8. More specifically, Defendants' substantial contacts with the forum include, but are not limited to, marketing, sale, distribution, and use of services and applications (e.g., the AT&T U-Verse applications) to consumers in the Northern District of Texas and/or the provision of technical and customer support for such services and applications.

COUNT I

(INFRINGEMENT OF U.S. PATENT NO. 8,850,507)

9. Convergent incorporates paragraphs 1 through 8 herein by reference.

10. Convergent is the assignee of the '507 patent, entitled "Method and Apparatus for Browsing Using Alternative Linkbases," with ownership of all substantial rights in the '507 patent, including the right exclude others and to enforce, sue and recover damages for past and future infringement. A true and correct copy of the '507 patent is attached as Exhibit B-1 to Exhibit 1.

11. The '507 patent is valid, enforceable, and was duly issued in full compliance with Title 35 of the United States Code.

12. Defendants have infringed, and continue to infringe, claims of the '507 patent by importing, making, using, selling, and/or offering for sale or use products and/or services that embody the claimed inventions, including (for example) at least claims 1, 3, 12, and 14 by importing, making, using, selling and/or offering for sale, in the United States, products and/or services (e.g., the AT&T U-Verse applications) that enable control of video playback on a first device (e.g., smart television, television coupled to a media streaming device) by a second device (e.g., smartphone, tablet).

13. Defendants have been, and now are, inducing direct infringement of claims of the '507 patent, including (for example) at least claims 1, 3, 12, and 14, by consumers of Defendants' products and services (e.g., the AT&T U-Verse applications) that are distributed or otherwise provided by Defendants to such consumers, which products and services enable a consumer to control video playback of content on a first device (e.g., smart television, television coupled to a media streaming device) using a second device (e.g., smartphone, tablet).

14. Defendants have been aware of the '507 patent since (at least) May 2015 based on a May 19, 2015 letter (the "May 19 Letter"), attached hereto as Exhibit 1 and incorporated herein by reference, that Convergent sent Defendants, which invited Defendants to enter into licensing

discussions. The May 19 Letter identified the '507 patent as relevant to Defendants' systems and services and included a copy of the '507 patent.

15. Defendants have knowledge that consumer use of their products and services (e.g., the AT&T U-Verse applications) that enable a consumer to control video playback of content on a first device (e.g., smart television, television coupled to a media streaming device) using a second device (e.g., smartphone, tablet) infringes claims of the '507 patent based at least on Convergent's May 19 Letter, which identifies how the '507 patent is infringed through the use of Defendants' products and services.

16. Despite having knowledge that consumer use of their products and services (e.g., the AT&T U-Verse applications) that enable a consumer to control video playback of content on a first device (e.g., smart television, television coupled to a media streaming device) using a second device (e.g., smartphone, tablet) infringes claims of the '507 patent, based at least on the May 19 Letter, Defendants have specifically intended for consumers to acquire and use such products and services in a manner that infringes the '507 patent, including at least claims 1, 3, 12, and 14, and Defendants knew or should have known that their actions were inducing infringement. Since Convergent sent the May 19 Letter, Defendants have continued to distribute or otherwise provide materials that provide consumers with instructions for using their products and services (e.g., the AT&T U-Verse applications) to control video playback of content on a first device (e.g., smart television, television coupled to a media streaming device) using a second device (e.g., smartphone, tablet), thereby encouraging consumers to use such products and services in a manner that infringes claims of the '507 patent. *See, e.g.*, AT&T U-verse App iOS FAQs, available at <http://www.att.com/media/att/2015/support/pdf/U-verse+App+for+iOS+4+0+3+user+guide.pdf>; Introduction to U-verse Easy Remote, available at

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
