Where to Buy this Product

Don't be bound by cabling restrictions any longer! The Instant Wireless Network Access Point from Linksys delivers the freedom to configure your network your way. Utilization of "state-of-the- art" wireless technology gives you the ability to set up workstations in ways you never though possible; no cables to install means less expense and less hassle.

The Instant Wireless Access Point's high-powered antenna offers a range of operation of up to 800 feet, providing seamless roaming throughout your wireless LAN infrastructure; an advanced user authentication feature ensures a high level of network security. The Instant Wireless Access Point is easy to install (Just plug it in and you're ready to go!) and easy to use--Windows-based diagnostics and statistic tools ensure that you'll always be in control.

When all these features come together in one compact, lightweight, and power-efficient unit, you have the ultimate in flexible networking--the Linksys Instant Wireless Access Point.
