APPENDIX B PATENT RULES

1. SCOPE OF RULES

1-1. Title.

These are the Rules of Practice for Patent Cases before the Eastern District of Texas. They should be cited as “P. R. ___.”

1-2. Scope and Construction.

These rules apply to all civil actions filed in or transferred to this Court which allege infringement of a utility patent in a complaint, counterclaim, cross-claim or third party claim, or which seek a declaratory judgment that a utility patent is not infringed, is invalid or is unenforceable. The Court may accelerate, extend, eliminate, or modify the obligations or deadlines set forth in these Patent Rules based on the circumstances of any particular case, including, without limitation, the complexity of the case or the number of patents, claims, products, or parties involved. If any motion filed prior to the Claim Construction Hearing provided for in P. R. 4-6 raises claim construction issues, the Court may, for good cause shown, defer the motion until after completion of the disclosures, filings, or ruling following the Claim Construction Hearing. The Civil Local Rules of this Court shall also apply to these actions, except to the extent that they are inconsistent with these Patent Rules. The deadlines set forth in these rules may be modified by Docket Control Order issued in specific cases.

1-3. Effective Date.

These Patent Rules shall take effect on February 22, 2005 and shall apply to any case filed thereafter and to any pending case in which more than 9 days remain before the Initial Disclosure of Asserted Claims is made. The parties to any other pending civil action shall meet and confer promptly after February 22, 2005, for the purpose of determining whether any

provision in these Patent Rules should be made applicable to that case. No later than 7 days after the parties meet and confer, the parties shall file a stipulation setting forth a proposed order that relates to the application of these Patent Rules. Unless and until an order is entered applying these Patent Local Rules to any pending case, the Rules previously applicable to pending patent cases shall govern.

2. GENERAL PROVISIONS

2-1. Governing Procedure.

(a) Initial Case Management Conference. Prior to the Initial Case Management Conference with the Court, when the parties confer with each other pursuant to Fed.R.Civ.P. 26(f), in addition to the matters covered by Fed.R.Civ.P. 26, the parties must discuss and address in the Case Management Statement filed pursuant to Fed.R.Civ.P. 26(f), the following topics:

- (1)** Proposed modification of the deadlines provided for in the Patent Rules, and the effect of any such modification on the date and time of the Claim Construction Hearing, if any;
- (2)** Whether the Court will hear live testimony at the Claim Construction Hearing;
- (3)** The need for and any specific limits on discovery relating to claim construction, including depositions of witnesses, including expert witnesses;
- (4)** The order of presentation at the Claim Construction Hearing; and
- (5)** The scheduling of a Claim Construction Prehearing Conference to be held after the Joint Claim Construction and Prehearing Statement provided for in P. R. 4-3 has been filed.

(6) Whether the court should authorize the filing under seal of any documents containing confidential information.

(b) Further Case Management Conferences. To the extent that some or all of the matters provided for in P. R. 2-1 (a)(1)-(5) are not resolved or decided at the Initial Case Management Conference, the parties shall propose dates for further Case Management Conferences at which such matters shall be decided.

(c) Electronic Filings. All patents attached as exhibits to any filing submitted electronically shall be in searchable PDF format. Any other documents attached as exhibits to any filing submitted electronically should be in searchable PDF format whenever possible.

2-2. Confidentiality.

If any document or information produced under these Patent Local Rules is deemed confidential by the producing party and if the Court has not entered a protective order, until a protective order is issued by the Court, the document shall be marked “confidential” or with some other confidential designation (such as “Confidential – Outside Attorneys Eyes Only”) by the disclosing party and disclosure of the confidential document or information shall be limited to each party’s outside attorney(s) of record and the employees of such outside attorney(s).

If a party is not represented by an outside attorney, disclosure of the confidential document or information shall be limited to one designated “in house” attorney, whose identity and job functions shall be disclosed to the producing party 5 days prior to any such disclosure, in order to permit any motion for protective order or other relief regarding such disclosure. The person(s) to whom disclosure of a confidential document or information is made under this local rule shall keep it confidential and use it only for purposes of litigating the case.

2-3. Certification of Initial Disclosures.

All statements, disclosures, or charts filed or served in accordance with these Patent Rules must be dated and signed by counsel of record. Counsel's signature shall constitute a certification that to the best of his or her knowledge, information, and belief, formed after an inquiry that is reasonable under the circumstances, the information contained in the statement, disclosure, or chart is complete and correct at the time it is made.

2-4. Admissibility of Disclosures.

Statements, disclosures, or charts governed by these Patent Rules are admissible to the extent permitted by the Federal Rules of Evidence or Procedure. However, the statements or disclosures provided for in P. R. 4-1 and 4-2 are not admissible for any purpose other than in connection with motions seeking an extension or modification of the time periods within which actions contemplated by these Patent Rules must be taken.

2-5. Relationship to Federal Rules of Civil Procedure.

Except as provided in this paragraph or as otherwise ordered, it shall not be a legitimate ground for objecting to an opposing party's discovery request (e.g., interrogatory, document request, request for admission, deposition question) or declining to provide information otherwise required to be disclosed pursuant to Fed.R.Civ.P. 26(a)(1) that the discovery request or disclosure requirement is premature in light of, or otherwise conflicts with, these Patent Rules. A party may object, however, to responding to the following categories of discovery requests (or decline to provide information in its initial disclosures under Fed.R.Civ.P. 26(a)(1)) on the ground that they are premature in light of the timetable provided in the Patent Rules:

(a) Requests seeking to elicit a party's claim construction position;

(b) Requests seeking to elicit from the patent claimant a comparison of the asserted claims and the accused apparatus, product, device, process, method, act, or other instrumentality;

(c) Requests seeking to elicit from an accused infringer a comparison of the asserted claims and the prior art; and

(d) Requests seeking to elicit from an accused infringer the identification of any opinions of counsel, and related documents, that it intends to rely upon as a defense to an allegation of willful infringement.

Where a party properly objects to a discovery request (or declines to provide information in its initial disclosures under Fed.R.Civ.P. 26(a)(1)) as set forth above, that party shall provide the requested information on the date on which it is required to provide the requested information to an opposing party under these Patent Rules, unless there exists another legitimate ground for objection.

2-6. Assignment of Related Cases. Separately filed cases related to the same patent shall be assigned to the same judge, i.e., the judge assigned to the first related case.

3. PATENT INITIAL DISCLOSURES

3-1. Disclosure of Asserted Claims and Infringement Contentions.

Not later than 10 days before the Initial Case Management Conference with the Court, a party claiming patent infringement must serve on all parties a “Disclosure of Asserted Claims and Infringement Contentions.” Separately for each opposing party, the “Disclosure of Asserted Claims and Infringement Contentions” shall contain the following information:

(a) Each claim of each patent in suit that is allegedly infringed by each opposing party;
