Tabulation and Analysis of
 Amino Acid and Nucleic Acid Sequences of
 Precursors, V-Regions, C-Regions, J-Chain,
 T-Cell Receptor for Antigen, T-Cell Surface Antigens,
 β_2 -Microglobulins, Major Histocompatibility Antigens,
 Thy-1, Complement, C-Reactive Protein, Thymopoietin,
 Post-gamma Globulin, and α_2 -Macroglobulin

1987

*Elvin A. Kabat**, *Tai Te Wu*[†], *Margaret Reid-Miller*[‡],
Harold M. Perry[‡], and *Kay S. Gottesman*[‡]

* Depts. of Microbiology, Genetics and Development, and Neurology, Cancer Center/
 Institute of Cancer Research, College of Physicians and Surgeons, Columbia University, New
 York, NY 10032 and the National Institute of Allergy and Infectious Diseases, Bethesda, MD
 20892.

† Depts. of Biochemistry, Molecular Biology, and Cell Biology, and Engineering Sciences and
 Applied Mathematics and Biomedical Engineering, Northwestern University, Evanston, IL 60201
 and the Cancer Center, Northwestern University Medical School, Chicago, IL 60611

‡ Bolt Beranek and Newman Inc., Cambridge, MA 02238

The collection and maintenance of this data base is sponsored through Contract N01-RR-8-2158
 by the following components of the National Institutes of Health, Bethesda, MD 20892:

Division of Research Resources
 National Cancer Institute
 National Institute of Allergy and Infectious Diseases
 National Institute of Arthritis, Diabetes, Digestive and Kidney Diseases
 National Institute of General Medical Sciences

U.S. DEPARTMENT OF HEALTH
 AND HUMAN SERVICES

Public Health Service
 National Institutes of Health

(1987)

Our listing of sequences will be kept up to date. Investigators are invited to send additional sequence data when accepted for publication. Send two copies of the manuscript together with a letter of acceptance from a journal to:

Dr. E.A. Kabat
National Institutes of Health
Building 8, Room 126
9000 Rockville Pike
Bethesda, Maryland 20892

It would be extremely helpful if you can send us your sequence data on magnetic tapes or floppy diskettes or a clean copy of the sequences. The file formats should be such that they can be read by a generic word processor.

When published, three reprints should be provided.

If any published sequences have been overlooked or if any errors are found, please bring them to our attention.

SIGNAL PEPTIDES OF T-CELL SURFACE ANTIGENS	36
SIGNAL PEPTIDES OF OTHER PROTEINS	38

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
