ote :

All Units in USD millions  
 (F) In Year header notifies forecast data  
 Sales are not indication-specific where drugs are approved or in development for multiple indications. Please refer to GlobalData's Disease Analysis reports for indication-specific sales forecasts.  
 Sales Regions provided are sourced from company reported financials. Sales Region is shown as N/A where Global sales are not broken out into geographic region.  
 Key Therapeutic Area is a unique field in Sales Analytics placing products into a single therapeutic area based on corporate positioning and/or marketing of action.  
 Enhanced views such as Key Target, Key Route of Administration and Key ATC Classification have been specifically added to Sales Analytics to support benchmarking of product-specific attributes  
 'Other Pharma and Licensing Revenue' segments forecast data is calculated based on 'Weighted Average Method' so these segments may not have 'AC' data  
 Values displayed in blue in the 2016 column represent forecast data  
 Values displayed in blue in the CAGR and Difference columns represent calculations based on 2015 actual sales

xtracted Date: 05-Apr-2017
