Subject Index

Supplement III, Volume 110, No 17, October 26, 2004

Ablation, radiofrequency

- A Comparison of Microbubble Formation during Radiofrequency Ablation at the Orifice of Pulmonary Veins using an 8-mm versus a Closed-Loop, Cooled-Tip Catheter, 2532
- A New Radiofrequency Balloon Catheter System for Uniformly Heating the Cardiac Tissue, 2705
- A Worldwide Survey on the Methods, Efficacy, and Safety of Catheter Ablation of Atrial Fibrillation, 2524
- Ablation within Coronary Sinus is Required to Eliminate Retrograde Slow Pathway Conduction in Uncommon Type Atrioventricular Nodal Reentrant Tachycardia with Eccentric Coronary Sinus Activation, 1868
- Age and Catheter Ablation for Atrial Fibrillation, 1664
- Amplification of Discrepancies Between Catheter-Tip and Tissue Heating in Pulmonary Vein Ablation: Impact of AF and PV blood flow, 2533
- An Analysis of Catheter-tip and Actual Tissue Temperatures Achieved during Radiofrequency Ablation at the Orifice of Pulmonary Veins using an 8-mm-Tip Catheter, 1975
- Anatomic Relationship between the Right Phrenic Nerve and the Pulmonary Vein-Atrium Junction: Implications Using Newer Catheter Ablation Tools in Patients with Atrial Fibrillation, 1866
- Atrial Fibrillation Ablation in Patients with Mechanical Mitral Valves: Safety, Feasibility and Outcome, 2160
- Benefits and Risks of Circumferential Left Atrial Ablation Compared to Ostial Isolation for Treatment of Paroxysmal and Persistent Atrial Fibrillation, 2530
- Catheter-Mediated Radiofrequency Atrioventricular Node Ablation in the Mouse, 466
- Comparison of Mapping Criteria for Hemodynamically Tolerated Ventricular Tachycardia in Postinfarction Patients, 2711
- Computed Tomographic Angiography Can Define Three-Dimensional Relationships Between Coronary Veins and Coronary Arteries Relevant to Coronary Venous Procedures, 3247
- Computing the Cycle Length of Atrial Fibrillation from the ECG Using Spectral and Spatial Analyses, 2688
- Correlation of Symptoms to ECG Diagnosis in the Follow-Up after Atrial Fibrillation Ablation, 1668
- Difference between Symptom-Free and Recurrence-Free Survival after Either Circumferential or Segmental Pulmonary Vein Ablation of Atrial Fibrillation, 2166
- Distribution and Co-localization of Sympathetic and Parasympathetic Nerves in Human Pulmonary Veins, 1972
- Does Maintaining Sinus Rhythm in High Risk Atrial Fibrillation Population Reduce the Risk of Stroke? The Results of Substrate Ablation and Non-Pharmacological Strategy for Treatment of Atrial Fibrillation (SANS-AFIB) Study, 2704
- Early Exacerbation in Regional Myocardial Remodeling Following Radiofrequency Ablative Injury in Mice Deficient in Matrix Metalloproteinase-3, 2333
- Echocardiographic Assessments of Murine Heart Failure Model Induced by High-Intensity Focused Ultrasound Ablation, 3299
- Efficacy Of The Maze Procedure Using Cooled-Tip Radiofrequency Ablation In Patients With Permanent Atrial Fibrillation And Rheumatic Mitral Valve Disease, 2723
- Electrophysiological Effects Of Cryothermal Ablation On The Human Atrioventricular Node, 2168
- Electrophysiological Pulmonary Vein Antrum Ablation with a Multielectrode Basket Catheter is Feasible and Effective for Curing Atrial Fibrillation; Efficacy of Minimally Extensive Pulmonary Vein Isolation, 1659
- Endoscopic Fiberoptic Assessment of Balloon Occlusion of the Pulmonary Vein Ostium: Comparison with Phased-Array Intracardiac Echocardiography, 1669
- Evaluation of an Electrophysiologic End Point for Left Atrial Circumferential Ablation of Paroxysmal Atrial Fibrillation: A Randomized Study, 2525
- Evolution of the Wide Area Circumferential Ablation for AF: Impact of the Learning Curve on Procedure and Radiation Times in Acute and Chronic Success, 2529
- Extensive Ablation During Pulmonary Vein Antrum Isolation Has No Adverse Impact on Left Atrial Function: An Echocardiographic Analysis, 2712
- First Accessory Pathway Ablation Using Complete Remote Control Magnetic Catheter Navigation In Humans, 2167
- Initial Canadian Experiences with Open and Endoscopic Microwave Energy Ablation of Atrial Fibrillation using the AFx Flex™ System, 2159
- Interim Outcome of Wide Area Circumferential Left Atrial Ablation, 2528
- Intra-Atrial Reentrant Tachycardias After Catheter Ablation For Atrial Fibrillation: Are There Differences Between Circumferential And Segmental Pulmonary Vein Ablation?, 1864
- Intramural Temperature-Guided Radiofrequency Ablation with a Novel Infusion Needle Electrode Catheter, 1867
- Intraoperative Radiofrequency Ablation to Treat Permanent Atrial Fibrillation in Patients Undergoing Open Heart Surgery, 2710
- Is Catheter Ablation for Triggering Mechanism of Idiopathic Ventricular Fibrillation Curative for Patients with Pleomorphic Ectopies from Right Ventricular Outflow Tract?, 1873
- Left Atrial and Ventricular Remodeling after Circumferential Pulmonary Vein Ablation. Outcomes from a Randomized Study of Ablation vs Amiodarone for Chronic Atrial Fibrillation, 2760
- Left Atrium Volume Predicts Recurrence Of Atrial Fibrillation in Patient Undergoing Pulmonary Vein Antrum Isolation , 1889
- Mechanical Provocation of Atrial Fibrillation in the Pulmonary Veins Identifies Procedure Responders After Ablation, 1974
- MRI Identifies Significant Variability in the Anatomic Relationship between the Esophagus and Left Atrium in Patients Undergoing Catheter Ablation for Atrial Fibrillation, 1971
- Multicenter Trial of Irrigated RF Ablation with Electroanatomic Mapping for Ventricular Tachycardia after Myocardial Infarction, 1869
- Myocardial Crossing Fibers between the Venous Orifice of the Pulmonary Veins: Relevance for Catheter Ablation in Atrial Fibrillation, 2164
- Non-contact Mapping Provides Novel Insights Into The Mechanisms of Inappropriate Sinus Tachycardia, 3104
- Noncontact Endocardial Mapping to Guide Ablation of Hemodynamically Unstable or Difficult-to-Induce Ventricular Tachycardia , 1660
- Novel Findings of the Pulmonary Vein Morphology After Segmental Isolation of the Pulmonary Veins, 1779
- Prevalence and Characteristics of Mitral Annular Ventricular Tachycardia: A New Distinct Subgroup of Idiopathic Ventricular Tachycardia, 2352
- Prevalence, Mechanisms, and Clinical Significance of Atrial Tachycardia Following Circumferential Pulmonary Vein Ablation, 1976
- Pulmonary Vein Isolation by Radiofrequency Ablation During Mitral Valve Surgery Reduces Chronic Atrial Fibrillation - A Randomized Prospective Trial, 3201
- Pulmonary Vein Isolation Without Reversal of Warfarin Therapy: Is it Safe?, 1673
- Randomized Comparison of Left Atrial Ablation to Encircle the Pulmonary Veins vs Left Atrial Linear Ablation Guided By Local Electrograms for Chronic Atrial Fibrillation , 2526
- Reentrant Circuit of Verapamil-Sensitive Idiopathic Left Ventricular Tachycardia as Revealed by Electroanatomic Mapping During the Tachycardia, 2354
- Relation between Transverse Conduction Capability and the Anatomy of the Crista Terminalis in Patients with and without Atrial Flutter: The Presence of Posteromedial Functional Block and Double Potentials, 2709
- Relevance of Esophageal Anatomy for Ablation of Atrial Fibrillation, 1969
- Right Ventricular Apical Pacing after Atrioventricular Nodal Ablation for Atrial Fibrillation Does not Compromise Ejection Fraction in the Short Term or Long Term, 2087
- Right Ventricular Pacing To Confirm Cavo-Tricuspid Isthmus Block During Radiofrequency Ablation Of Typical Atrial Flutter: A New Technique?, 1656
- Short -and Long-Term Success of Substrate-Based Mapping and Ablation of Ventricular Tachycardia in Arrhythmogenic Right Ventricular Dysplasia, 1871
- Strategy for Prevention of Esophagus Perforation Using Circumferential Plus Linear Ablation in Patients with Atrial Fibrillation, 1666
- Substantial Efficacy of Pulmonary Vein Isolation in Patients with Hypertrophic Cardiomyopathy, 2163
- Substrate Modification in Ischemic Cardiomyopathy to Treat Ventricular Tachycardia Using Electroanatomic Scar Mapping, 2165
- Substrate-Based Ablation Of Unmappable Ventricular Tachycardias: Value Of Transmural Definition Of Scars, 1870

III-893

Temperature Mapping of Right Ventricular Outflow Tract Tachycardia - First Clinical Experience, 1872

The Importance of Tissue Geometry and Refractory Period in Sustaining Atrial Fibrillation: Testing the Critical Mass Hypothesis, 3203

The Relationship of the Esophagus and Aorta to the Left Atrium and Pulmonary Veins: Implications for Catheter Ablation of Atrial Fibrillation, 1970

Therapeutic Implications of Myocardial Fiber Orientation at the Superior Vena Cava-right Atrial Junction, 1658

Timecourse and Significance of Atrial Fibrillation Recurrences after Pulmonary Vein Isolation and Extended Left Atrial Catheter Ablation: Data from Tele-ECG Follow-Up, 2708

Transcranial Doppler Detection of Microembolic Signals During Pulmonary Vein Antrum Isolation: Correlation with Microbubble Formation on Intracardiac Echocardiography, 2703

Two-Daily Tele-ECG after AF Catheter Ablation: Relevance of Asymptomatic Recurrences, 1667

Unique Electrophysiological Characteristics of Atrioventricular Nodal Reentrant Tachycardia with Ventriculoatrial Dissociation and Effects of Slow Pathway Ablation, 1663

Use of Catheter Cryoablation in Pediatrics: Success Determined by Time to Effect, 2334

Accessory connections

Different Response Of Retrograde VA Conduction To Ventricular Extrastimulus Between AV Nodal Reentrant And AV Reciprocating Tachycardias: Proposal Of A Simple Criterion For The Diagnosis Of AV Nodal Reentrant Tachycardia, 2689

ACE inhibitor

ACE Inhibitors Improve Survival in Heart Failure Patients with Systolic Dysfunction and Chronic Kidney Disease: A Propensity Score Analysis, 3465

Renin-Angiotensin-System Blockade Modulates the Deleterious Effects of Being Overweight/Obese in Patients Following Acute Myocardial Infarction, 3796

Ac-SDKP Mediates the Antifibrotic Effect of Angiotensin-Converting Enzyme Inhibitor in Hypertension, 479

ACE Inhibitors and Angiotensin Receptor Blockers in Patients with Renal Insufficiency and Congestive Heart Failure: An Interesting Paradox, 3464

Additive Beneficial Effects of Ramipril Combined with Simvastatin in the Treatment of Type II Diabetic Patients, 3744

Aldosterone Blocker Spironolactone Prevents Postinfarction Left Ventricular Late Remodeling in Patients with First Anterior Acute Myocardial Infarction, 2117

Angiotensin Converting Enzyme Inhibitors Enhance COX-2 Expression and Prostacyclin Production in Endothelial Cells via ACE-Dependent Outside-in Signalling, 885

Angiotensin-Converting Enzyme Inhibitor Improves Coronary Flow Reserve with a Decrease in Serum Asymmetric Dimethylarginine in Type 2 Diabetes Mellitus: Relevance to Oxidative Stress, 1998

B₁ Kinin Receptor Does Not Mediate Vasodilatation or Endothelial t-PA Release in Patients with Heart Failure Treated with Angiotensin-converting Enzyme Inhibition, 2410

B₂ Receptor BE1 Insertion/deletion Polymorphism Influences the Vasodilatory Response to Exogenous Bradykinin, 2015

Beneficial Renal Effects of Vasopeptidase Inhibition in Experimental Type 2 Diabetes, 1110

Both Ramipril and Telmisartan Reverse Left Ventricular Diastolic Dysfunction in Patients With Type II Diabetes, 3643

Clinical Outcomes in Participants with Cardiovascular Dysmetabolic Syndrome in the Antihypertensive and Lipid-Lowering Treatment to Prevent Heart Attack Trial, 3681

Do Angiotensin Receptor Blockers Reduce Mortality in Patients With Heart Failure? A Systematic Review Of Randomized Clinical Trials, 2594

Early Enalapril Therapy Reduced Cardiovascular Morbidity and Mortality in Patients with Left Ventricular Systolic Dysfunction: Results at 15 Years in SOLVD, 1752

Endothelium-Derived Hydrogen Peroxide Accounts for the Enhanced EDHF-Mediated Relaxation by Long-Term Treatment with an Angiotensin-Converting Enzyme Inhibitor in Mice, 362

Functional Mineralocorticoid Receptors in Human Vascular Smooth Muscle Cells, 909

Genetic Analyses for Carboxylesterase 1 Gene Variants in Hypertensive Patients In Relation to Responsiveness to Angiotensin Converting Enzyme Inhibitor, 2041

Genetic Predictors and Reverse Remodeling of Dilated Cardiomyopathy in Muscular Dystrophy, 1744

Inhibition of the Renin-Angiotensin System Causes Regression of Complex Pre-Existing Atherosclerotic Lesions in Elderly LDLR^{-/-} Mice, 191

Initiation of Carvedilol before ACE-Inhibitor Therapy for the Treatment of Heart Failure: Impact on Plasma NT-proBNP, 2262

Insulin Sensitivity and Endothelial Function in Hypertension: A Comparison between ACE inhibitors and Angiotensin II Blockers, 2817

Long-Term Therapy with Ranolazine Prevents Progressive Left Ventricular Dysfunction and Remodeling in Dogs with Chronic Heart Failure, 3147

Losartan Stimulates Phosphorylation Of Akt And Endothelial Nitric Oxide Synthase In Endothelial Cells Independently Of Angiotensin Type 1 Receptor Blockade, 1224

Outcome Benefits of BP Control in Older CAD Patients with Hypertension: The International Verapamil SR-Trandolapril Study (INVEST), 3384

Persistent Failure to Close the Age and Gender Gap in the Use of Evidence-Based Therapies in Acute Coronary Syndromes: Temporal Trends (1999-2003) in the Global Registry of Acute Coronary Events, 3689

Pressure-induced Phenotypic Changes Underlie the Activation of Arterial Renin-Angiotensin System and PKC-NAD(P)H Oxidase Axis, 1236

Prevention of Atrial Fibrillation with Angiotensin-Converting Enzyme Inhibitors and Angiotensin Receptor Blockers: A Meta-Analysis, 2176

Prevention Of Cardiovascular Events By Perindopril in Patients With Stable Coronary Disease Does Not Depend On Blood Pressure And Its Reduction - Results From The EUROPA Study, 2919

Risk Assessment and Risk Reduction by Perindopril in Patients with Stable Coronary Artery Disease, 2540

Selective Aldosterone Blockade is More Effective than ACE-Inhibition in Suppressing Inducibility of Sustained Atrial Tachyarrhythmias in the Canine Rapid Ventricular Pacing-Induced Heart Failure Model, 3431

The Angiotensin Converting Enzyme (ACE) is Functionally Associated with the Endothelial Cell Cytoskeleton: Influence of AC inhibitors on Nonmuscle Myosin Phosphorylation, 884

Tissue Angiotensin I-II Conversion is Mediated Exclusively by the ACE C-Domain, 255

Withdrawing Chronic Quinapril Treatment Causes Rebound Volume Overload and Endothelial Dysfunction in Rats with Myocardial Infarction, 1420

Acetylcholine

Acetylcholinesterase Inhibition Decreases Orthostatic Tachycardia in the Postural Tachycardia Syndrome, 2169

Adenoviral nNOS Gene Transfer Into the Cardiac Vagus Increases Protein Expression within 9 Hours and Enhances Vagal Responsiveness in The Pig, 957

Cardiomyocyte-Restricted Overexpression of Endothelial Nitric Oxide Synthase (NOS3) Potentiates Postsynaptic Vagal Inhibition of Cardiac Contraction In Vivo and In Vitro, 523

Constitutive Acetylcholine-dependent Current: A Novel Ionic Target for Atrial Fibrillation, 1530

Coronary Endothelial Dysfunction in Cardiac Transplant Recipients is Related to Elevated Levels of ADMA, 338

Hyperpolarization-Activated K⁺ Current: A Novel Potential Contributor to Dynamic Regulation of Atrial Repolarization by G Proteins and Cardiac Remodeling, 775

Impaired Sympathetic Nerve Function May Play an Important Role in Enhancing Coronary Vasoconstriction in Patients with Hypertrophic Cardiomyopathy, 2796

Long-Term Treatment With Thiazolidinedione Improves Vasomotion of Resistance Coronary Arteries Independent of Improvements in Clinical Insulin-Resistant Status, 860

Myocardial Virus Persistence is Associated with Muscarinic Receptor-Mediated Endothelial Dysfunction of Epicardial Arteries in Humans, 341

Plasma Adiponectin Concentrations are Reduced in Patients with Variant Angina and Acute Coronary Syndrome Compared with Those With Normal Coronary Artery, 1689

RGS3 Redirects the G-coupled M₂ Muscarinic Receptor via Gβγ-dimers from Rac1 to RhoA Activation, 913

Vagal Nerve Stimulation and Acetylcholine Protect Cardiomyocytes from Acute Ischemia and Hypoxia through Non-Hypoxic Induction of Hypoxia-Inducible Factor-1α, 961

Water-leachable Components of Ambient Particulate Matter Alters Regulation of Cardiac Electrical Activity by Adrenergic and Cholinergic Agonists, 1914

Acid-base imbalance

Acidification Limits Mitochondrial Calcium Uptake in Rat Cardiac Mitochondria, 1132

Acquired immunodeficiency syndrome

Increased Arterial Stiffness in Children with Human Immunodeficiency Virus: Impact of Disease and Antiretroviral Therapy, 1059

Acute Coronary Syndromes

Increasing Gene Expression Levels of Class A Macrophage Scavenger Receptors in the Peripheral Circulating Mononuclear Cells Is an Early Indicator of Acute Coronary Syndrome, 2198

A New Definition of Myocardial Infarction: What Difference Does It Make?, 3717

A Novel von Willebrand Factor Antagonist is a Reversible, Single Bolus Therapy that Prevents Occlusive Thrombus Formation in Preclinical Models of Unstable Angina, 709

A Simple Predictor of Left Main or Three-vessel Disease in Patients With Non-ST-segment Elevation Acute Coronary Syndrome, 1617

- Aborted Myocardial Infarction: Absence of a Significant Enzyme Rise After Fibrinolysis as a Predictor of Future Infarction And a Warrant for early Intervention, 2517
- Activated Factor XII Predicts Troponin-T Positive Cardiac Events at 30 Days Follow-Up after Hospitalization with Acute Chest Pain, 2123
- Activation of Natural Killer T Cells Accelerates Human Coronary Atherosclerosis: A Novel Etiological Link Among Hyperlipidemia, Oxidative Stress, and Inflammation, 1613
- Acute Coronary Syndrome is Associated with Poorer Outcomes in Women Undergoing Percutaneous Coronary Intervention than in Men: Observations from the NHLBI Dynamic Registry, 1936
- An Elevated Blood Urea Nitrogen Level is Associated with Increased Mortality Independent of Serum Creatinine Among Patients with Unstable Coronary Syndromes, 3233
- Anaerobic Periodontal Infection, Coronary Heart Disease, and the Acute Coronary Syndrome, 1686
- Analysis of N-terminal pro-Brain Natriuretic Peptide and C-reactive Protein Improves Risk Stratification in Stable and Unstable Coronary Artery Disease, 2128
- Angioscopically Evaluated Extent of Atherosclerosis Is Associated With the Risk of Acute Coronary Syndrome, 1805
- Angiotensin-(1-7) Potentiates the Antiaggregatory Effects of Nitric Oxide, 1033
- Are Improvements in Cardiovascular Care Associated with the American Heart Association's Get With The Guidelines Program Sustained Over Time?, 3618
- Associating Changes in Hospital Non-ST-Segment Elevation Acute Coronary Syndromes Guidelines Adherence with Changes in Patient Outcomes: Results from CRUSADE, 3621
- Association of Intensive Lipid Lowering with Reductions in Target Vessel Revascularization (Clinical Restenosis) and Non-Target Vessel Revascularization (Lesion Progression): A PROVE IT TIMI 22 Substudy, 3222
- Baseline High-Sensitivity C-Reactive Protein Offers Prognostic Value in Addition to Contemporary Risk Stratification in Non-ST-segment Elevation Acute Coronary Syndrome: Results from the CURE Inflammatory Marker Substudy, 2343
- Bleeding Among Patients with Acute Coronary Syndromes Is Associated with Higher Risk of Short- and Long-term Death, 2668
- Blockade of CC Chemokine Receptor 2 Attenuates Myocardial Ischemia-Reperfusion Injury In Mice, 305

- Activation of Natural Killer T Cells Accelerates Human Coronary Atherosclerosis: A Novel Etiological Link Among Hyperlipidemia,

Oxidative Stress, and Inflammation, 1613
 Analysis of N-terminal pro-Brain Natriuretic Peptide and C-reactive Protein Improves Risk Stratification in Stable and Unstable Coronary Artery Disease, 2128
 Are Patient Gestures Such as the Levine Sign Useful in Determining the Etiology of Chest Pain?, 1946
 Cardiac Rehabilitation as a Treatment for Psychological Morbidity, Symptom Severity, and Cardiovascular Risk Factors in Women with Cardiac Syndrome X, 3829
 Coronary Spasm Reflects Inputs From the Surrounding Esophageal System, 1944
 Determinants of 1-Year Mortality in Patients with Stable Angina and First Angiographic Diagnosis of CAD: Results of the STAR Registry, 2916
 Do Typical Symptoms Predict the Presence of Angiographic Coronary Artery Disease in Women Compared With Men Undergoing Coronary Angiography?, 2215
 Effect of Diuretic Therapy on Exercise Capacity in Patients with Chronic Angina and Preserved Left Ventricular Function, 2541
 Effects of Metformin on Endothelial Function, Aortic Stiffness, and Exercise Tolerance in Diabetic Patients With Stable Angina, 2542
 Effects of Valsartan on Endothelial Function and Nitrate Tolerance in Type 2 Diabetics with Stable Angina, 2537
 Extracorporeal Cardiac Shock Wave Therapy Ameliorates Myocardial Ischemia in Patients with Severe Coronary Artery Disease, 2190
 Hyperdynamic Response to β -adrenergic Stimulation in Patients with Angina-Like Chest Pain and Normal Coronary Arteries, 2402
 Immediate and Long-Term Clinical Outcome After Spinal Cord Stimulation for Refractory Stable Angina Pectoris, 2693
 Improved Long-Term Coronary Bypass Results With A New "No Touch" Vein Graft Preparation Technique: Preliminary Results From An Angiographic And IVUS Follow-Up Study, 2929
 Long-Term Benefits And Limitations Of Combined Antianginal Drug Therapy In Elderly Patients With Chronic Angina, 2191
 Multislice CT Coronary Angiography Prior to Percutaneous Treatment of Chronic Total Occlusions for the Prediction of Procedural Failure, 2618
 N-Terminal Pro Brain Natriuretic Peptide Predicts Long-Term Mortality In Stable Coronary Heart Disease, 1950
 Prevention of Slow and No Flow during Rotational Atherectomy by Continuous Intracoronary Infusion of K⁺ Channel Opener Nicorandil: Prospective Randomized Trial Comparing Nicorandil with Verapamil, 2315
 Sequential Coronary Flow Velocity Measurement by Incremental Intracoronary Injection of Acetylcholine (ACh) Followed by Intravenous Adenosine Triphosphate (ATP) Infusion has a Significant Diagnostic Value for Patients with Rest Angina and Normal Coronary Angiograms, 2195
 Severe Depression May Trigger Silent Ischemia in Women With New-Onset Angina, 3029
 Sex and Ethnic Differences in the Prevalence of Significant and Severe Coronary Artery Disease in the ACC - National Cardiovascular Data Registry, 3697
 Tako-Tsubo-Like Transient Left Ventricular Dysfunction: Prevalence and Clinical Findings in a Western Population, 3225
 Thiazolidinedione Reverses Endothelial and Exercise Disorders in Patients with Effort-Induced Angina Pectoris and Type 2 Diabetes Mellitus, 2535

Angiocardiology
 Late Regression of Left Internal Thoracic Artery Graft Stenosis at the Anastomotic Site without Intervention Therapy, 1691
 Left Ventricular Dyssynchrony Assessed with Radionuclide Angiography Predicts Left Ventricular Reverse Remodelling after Cardiac Resynchronization Therapy in Patients with Ischemic Cardiomyopathy, 3046
 Risk Assessed by Framingham and Myocardial Perfusion Measured by MRI Selects Patients for Coronary Artery Angiography: The NHLBI-Sponsored Women's Ischemia Syndrome Evaluation (WISE) Study, 2536
 Tako-Tsubo-Like Transient Left Ventricular Dysfunction: Prevalence and Clinical Findings in a Western Population, 3225

Angiogenesis
 11 β HSD1 ^{-/-} Mice Have Enhanced Angiogenic Response And Improved Myocardial Function Following Coronary Artery Ligation, 1275
 A Cell Autonomous Defect In Response To Chemokine Sdf-1 Is Responsible For Failure Of Ischemic Endothelial Progenitor Cell Mobilization And Differentiation In Diabetes, 3846
 A Central Role for Nicotinic Cholinergic Receptor-Dependent Pathways in Regulation of Endothelial Cell Migration - Novel Insights into Angiogenesis, 1048
 A Combined Cellular Cardiomyoplasty with Autologous Myoblast and Bone Marrow Cells Provides Alliance of Myogenesis and Angiogenesis for Ischemic Cardiomyopathy, 1557
 A New Method of Preventing Catheter-Related MRSA Infection by Angiogenesis Effects of Control-Released bFGF, 2770
 A Phase II Multicenter, Randomized, Double-Blind, Placebo-Controlled Trial of Plasmid Del-1 (Developmentally regulated Endothelial Locus 1) in Subjects with Intermittent Claudication Secondary to Peripheral Arterial Disease: DELTA1-PAD, 2439
 Activation of Small G-protein RhoA Is Essential for Branching Morphogenesis in Endothelial Cell through Rho-kinase Independent Pathway, 1232
 Adenovirus-Mediated Delivery of Early Growth Response Factor 1 Gene Increases Tissue Perfusion in a Murine Model of Hindlimb Ischemia, 1454
 Adremedullin Augments Collateral Development and Mobilization of Endothelial Progenitor Cells in Response to Acute Ischemia, 1297
 Agonism at Endothelial β 3 Adrenoceptors Mediates the NO-Dependent Proangiogenic and Vasodilatory Effect of the Third-Generation β -Blocker Nebivolol, 670
 Akt1 is Essential for Postnatal Ischemic Angiogenesis, 821
 Angiogenesis but not Arteriogenesis Supports Regional Contractility in Chronic Myocardial Ischemia, 1292
 Angiogenic Gene Therapy Using Urokinase Gene Stimulates Angiogenesis in Infarcted Rat Hearts, 48
 Angiogenic Synergy Between Vascular Endothelial Growth Factor and Angiopoietin-1 Together with Myoblast Therapy for the Treatment of Ischemically Damaged Hind Limb, 1298
 Angiopoietin-1 Added To VEGF Therapy Does Not Improve In Vivo Neoangiogenesis Or Ventricular Remodeling Compared To VEGF Alone In Post-MI Rats, 527
 Anti-Tumor Necrosis Factor- α Treatment Attenuates Adaptive Arteriogenesis, 1070
 Apoptosis Signal-regulating Kinase 1 Plays a Critical Role in Ischemia-Induced Angiogenesis, 531
 ARF6 Regulates VEGF Receptor (KDR/Flk1) Trafficking Through Caveolae/Lipid Rafts: Role in Endothelial Migration, 1072
 Arteriogenesis is Hampered in the Absence of CD4(+) T Lymphocytes after CD4 Depletion or in MHC Class II^{-/-} Mice, 332
 Autologous Stem-Cell Transplantation for Therapeutic Angiogenesis in Patients with Chronic Critical Lower-Limb Ischemia, 3326
 Autologous Transplantation of Bone Marrow Mononuclear Cells Improved Ischemic Peripheral Neuropathy in Humans, 2440
 Big Mitogen-Activated Protein (MAP) Kinase 1 (BMK1) is a Novel Regulator of Hypoxia-Inducible Factor 1 α , 1462
 Blockade of α 4 Integrin Mobilizes Bone Marrow EPCs and Improves Vascularization, 8
 Bone Marrow Cells Recruited to the Sites of Adult Neoangiogenesis are not Directly Incorporated into the Newly Formed Vessels, but their Presence Correlates with Vessel Maturation, 1076
 Bone-Marrow Stem Cell Mobilization Induced by Granulocyte-Colony Stimulating Factor in Patients with a PCI-treated Acute ST-Elevation Myocardial Infarction is Safe: Results from a Double-blind Randomized Study, the Stem Cells in Myocardial Infarction (STEMMI) Trial, 1139
 Bst1, a Novel Member of the SPARC Family, Potentiates Growth Factor Activity and Angiogenesis, 1039
 Cardiac Expression of an Oxygen Stable Mutant of Hypoxia Inducible Factor 1 α Causes Cardiomyopathy and Vascular Remodeling, 1290
 Cardiac-Specific and Hypoxia-Inducible VEGF Expression in Ischemic Heart Delivered by AAV Vectors Induces Neovascularization, Reduces Infarct Size, and Improves Cardiac Function, 1293
 CD8⁺ T cells Regulate the Arteriogenic Response to Ischemia by Infiltrating the Site of Collateral Vessel Development and Recruiting CD4⁺ Mononuclear Cells through the Expression of IL-16, 331
 Cell-Mediated EPAS1 Gene Transfer is Superior to Cell Therapy Alone for Improving Arteriogenesis and Cardiac Function in Infarcted Heart, 1342
 Cell-Mediated Gene Transfer of Master Regulator EPAS1 induces Arteriogenesis In Vivo, 530
 Combined Cell and Gene Therapy for Therapeutic Angiogenesis: VEGF-2 Attenuates EPC Apoptosis and Augments Therapeutic Efficacy, 2186
 Comparison of Angiogenic Property Between Bone Marrow- and Peripheral Blood-derived Mononuclear Cells in Ischemia-Reperfusion Infarct Model: Evaluation by Myocardial SPECT and Echocardiography Compared with Histological Study, 2845
 Controlled Local Release of Estrogen from PLGA Polymers Augments Mobilization of Bone Marrow-Derived Endothelial Progenitor Cells into sites of Neovascularization after Hindlimb Ischemia without Systemic Effects, 2184
 Development of Novel Cell Delivery System for Therapeutic Angiogenesis-Targeted Delivery of Bone Marrow Cells by Ultrasound Destruction of Microbubbles, 671
 Differential Gene Expression Between Mouse Strains to Identify Potential Novel Targets for Therapeutic Arteriogenesis, 1289
 Differentiation of Arteriogenesis from Capillary Perfusion with Contrast Ultrasound During Therapeutic Angiogenesis, 2388
 Direct Injection Of A Synthetic Prostaglandin I₂ Agonist (ONO-1301MS) Stimulates Secretion Of Endogenous Growth Factors And Prevents Cardiac Rupture And Left Ventricular Dysfunction After Myocardial Infarction, 1271
 Disruption of Synectin Gene Expression Stimulates Endothelial Cell Adhesion While Inhibiting FGF2-dependent Cell Growth, Migration, and Tube Branching, 1044

- Heme Oxygenase Protects against β -Adrenergic Receptor-Stimulated Apoptosis in Cardiac Myocytes, 12
- High-Dose Vitamin E Supplementation May Increase All-Cause Mortality: A Dose Response Meta-Analysis of Randomized Trials, 3833
- Menkes Protein is a Novel Modulator for Extracellular Superoxide Dismutase, 425
- Methionine Sulfoxide Reductase-A and Sulindac Protect Cardiac Myocytes Against Programmed Death Caused by Hypoxia/Reoxygenation or H 2 O $_2$, 900
- Mice Genetically Deficient in Antioxidant MnSOD Develop Myocardial Fibrosis and Maintained Elevation of Fibrotic Gene Expression in Response to Pressure Overload, 201
- Mitochondrial Genetic Effects on Variation in Plasma Total Antioxidant Activity in the San Antonio Family Heart Study, 3818
- Neuronal Nitric Oxide Synthase Interacts with Xanthine Oxidase to Regulate Cardiac Excitation-contraction Coupling, 1602
- Normalization of β Cell Function and Restoration of Heme Oxygenase in Nonobese Diabetic Mice by Allogenic Bone Marrow Transplant, 702
- Overexpression of Glutathione Peroxidase Attenuates Myocardial Remodeling and Preserves Diastolic Function in Diabetic Heart, 897
- Overproduction of Nitric Oxide Enhances the Pro-oxidant Activity of Mitochondrial Succinate Cytochrome c Reductase, 1363
- Paradoxical Elevation of Ubiquitin in Subjects with Endothelial Dysfunction and Metabolic Syndrome, 3599
- Pharmacological Prevention of AF Promotion by Atrial Tachycardia-induced Remodeling in Dogs, 779
- Physiologic Cyclic Strain Inhibits Endothelial Cell Apoptosis via the Induction of Heme Oxygenase-1, 880
- Platelet Antioxidant Activity and Nitric Oxide Signaling System in Ischemic Heart Disease, 1038
- The EURIDIS and ADONIS Trials: Dronedarone for Maintaining Sinus Rhythm in Patients with Atrial Fibrillation/Flutter, 3429
- The Melbourne Atherosclerosis Vitamin E Trial (MAVET): A Study of High-Dose Vitamin E in Smokers, 3606
- The Reduction of Vascular Extracellular Superoxide Dismutase is Associated With Coronary Artery Atherosclerosis, 1360
- Thioredoxin Interacts with Ras and GTPase Activity through Reduction of Cysteine Oxidation, 426

Antiplatelet drugs

- Clopidogrel Loading with Eptifibatid to Arrest the Reactivity of PLATELETS: The CLEAR PLATELET Study, 1819
- A Platelet Glycoprotein IIb/IIIa Receptor Blocker (Abciximab: ReoPro[®])-Coated Stent Inhibits In-Stent Intimal Hyperplasia in Human Coronary Arteries, 2630
- A Randomized Double Blind Comparison Of Two Strategies For Managing Patients On Aspirin And Clopidogrel Therapy Requiring Urgent Coronary Revascularization, 1699
- Adjunctive Abciximab Improves Patency and Functional Outcome in Patients Undergoing Endovascular Treatment of Femoropopliteal Occlusions, 3000
- Aprotinin Decreases Postoperative Bleeding and Number of Transfusions in Patients on Clopidogrel undergoing CABG: A Randomized Clinical Trial, 1981
- Baseline High-Sensitivity C-Reactive Protein Offers Prognostic Value in Addition to Contemporary Risk Stratification in Non-ST-segment Elevation Acute Coronary Syndrome: Results from the CURE Inflammatory Marker Substudy, 2343
- Beneficial Effect of Pre-Operative Aspirin Therapy on Post-Operative Outcomes in Patients Undergoing Coronary Artery Bypass Grafting, 2210
- Bleeding Among Patients with Acute Coronary Syndromes is Associated with Higher Risk of Short- and Long-term Death, 2668
- Cilostazol Reduces Restenosis in Diabetic Patients after Coronary Stent Implantation, 2306
- Clopidogrel Administration Prior To CABG: The Cardiologist's Panacea Or The Surgeon's Headache?, 2930
- Clopidogrel Is Associated With Increased Rates of 1-Year Stent Thrombosis and Mortality Compared to Ticlopidine Following Coronary Stent Implantation, 3073
- Differential Regulation of Platelet Activation and Proinflammatory Markers by the Degree of Carotid Stenosis, 2278
- Functional Reconstitution of CD39 into Phospholipid Vesicles, 1030
- Helicobacter pylori* Infection Causes Persistent Platelet Activation in Vivo through Enhanced Lipid Peroxidation, 1353
- Impact of Cyclooxygenase-2 Inhibition on Outcomes in the Setting of Percutaneous Coronary Intervention, 2859
- Integrin Activation and Clustering Mechanisms Elucidated with Echstatin, A Model Multisite Ligand, 347
- Levels of hs-CRP Prior to PCI Predict Long-Term Risk and the Benefit of Clopidogrel Therapy: A CREDO Sub-Study, 1820
- Nitroaspirin Prevents Effort-Induced Endothelial Dysfunction in Intermittent Claudication, 2437
- Pharmacodynamic Interaction of Naproxen with Low-Dose Aspirin in Healthy Subjects, 1031
- Platelet Expression of CD40 and CD40 Ligand during Persistent Atrial Fibrillation, 3432
- Polymorphisms Of The GP IIIa And P2Y12 Receptors And Modulation Of Antiplatelet Effects Of Combined Aspirin And Clopidogrel Treatment, 2013
- Prevention of Experimental Coronary Artery Thrombosis by the Novel Von Willebrand Factor Antagonist GPG-290, 710
- Quercetin-glucuronide (QG) Prevents Microcirculatory Complications Acutely Caused by Simultaneously Activated PMN and Platelets (P) in the Human Heart, 599
- Randomized Trial of Low-, Medium-Dose Aspirin and Clopidogrel on Platelet Aggregation after Cardiac Surgery, 1692
- Sustained ADP Receptor Stimulation Causing Cyclic Increase in Intracellular Calcium Ion Concentration Is Necessary for Stabilizing Platelet Thrombi under Blood Flow Conditions, 346
- The CYP3A5 Polymorphism is Associated with Clopidogrel Resistance and a Predictor of Cardiovascular Event after Stenting, 1821
- The Effect Of Clopidogrel Premedication In Off-Pump Cardiac Surgery: Are We Forfeiting Reduced Hemorrhagic Sequelae?, 2545
- Thromboembolic Events after Mitral Valve Repair: a multicentric prospective survey, 1989
- Time Dependence and Variability of Platelet Inhibition after a Loading Dose of Clopidogrel 600 mg in a Large Unselected Cohort of Patients Scheduled for Percutaneous Coronary Intervention, 3442
- Underutilization of Clopidogrel at Discharge in Patients With Non-ST-Segment Elevation Acute Coronary Syndrome: Overlooking Patients Who Do Not Undergo Percutaneous Coronary Intervention, 2520

Variability in Platelet Responsiveness to Clopidogrel among 544 Individuals, 2521

Aorta

β -Blocker Therapy Does not Alter Aortic Growth Rate in Pediatric Patients with Marfan Syndrome, 1928
 Local Delivery of Osteopontin Attenuates Vascular Remodeling by Altering MMP-2 Activity in a Rabbit Model of Aortic Injury, 1512
 A Decade of Aortic Valve-Sparing Reimplantation: Are We Pushing the Limits Too Far?, 3109
 Absence of Macrophage Toll-like Receptor 4 Does Not Affect Atherosclerosis in an LDLR^{-/-} Mouse, 1317
 Adenoviral Delivery of a Cc-Chemokine Inhibitor, "35k," Reduces Macrophage Recruitment and Atherosclerosis in ApoE Knockout Mice, 1209
 An Evaluation of the Ross Operation in Adults, 3117
 Aortic Compliance does not Differ Between Blacks and Whites: MRI Results from the Dallas Heart Study (DHS), 3709
 Aortic Pathology and Disease Severity Determine Success of Endovascular Stent-Grafting in the Descending Aorta, 3114
 Aortic Stenosis in Bicuspid Aortic Valves: Further Validation of a new Biphasic Doppler Parameter in a Pediatric Cohort, 3196
 Atorvastatin Increases Expression of the Pro-apoptosis Proteins Bax and Bak in the Central versus Distal Regions of Abdominal Aortic Aneurysms, 3111
 Cardiac Transplantation Does Not Improve Central Arterial Stiffness in Patients with Severe Heart Failure, 3262
 CD44 Regulates Genes in the Vasculature of apoE-Deficient Mice, 184
 Differential Regulation of Caspase and MAPK Activity Underlies the Rapid Deletion of Aortic Smooth Muscle Cells by Apoptosis and Vascular Remodeling in Spontaneously Hypertensive Rats Treated With Amlodipine, 1322
 Early Diagnosis Of Acute Aortic Dissection: Identification of Clinical Variables Associated with Early Diagnosis and Determination of the Usefulness of Biochemical Diagnosis as Shown by the International Registry of Acute Aortic Dissection (IRAD) Database, 1765
 Elevated Homocysteine Level is Independently Associated with Progression of Aortic Arch Atheroma, 2980
 Familial Thoracic Aneurysms: Phenotypic Features and Mode of Inheritance, 3106
 Genetic Determinism Of Arterial Stiffness: A Twin Study, 3731
 High Pressure in the False Lumen Favors Secondary Dilatation of the Aorta after Acute Type A Aortic Dissection, 3110
 Immediate and Midterm Outcomes of the Endovascular Treatment of Type B Aortic Dissection, 2752
 Impact of Integrated Selective Cerebral Perfusion with Right Axillary Artery Cannulation and a "Stepwise" Distal Anastomosis on the Outcome of Total Arch Replacement with Individual Arch-Vessel Reconstruction, 2746
 Increased Vascular Nox4 and p22phox Expression, Oxidase Activity and Inflammation in db/db Diabetic Mice, 1244
 Injection of Adult Stem Cells from Young vs Old Mice Have Differential Impact on the Transcriptome of Recipient Aortas in ApoE^{-/-} Mice: A Global Gene Expression Profiling Study, 1515
 Levels of Circulating Endothelial Progenitor Cells Inversely Correlate with Inflammatory Atherosclerotic Plaque Activity as Measured by Contrast-Enhanced MRI, 1474
 Matrix Metalloproteinase-3 Promoter Variant Associated with Decreased Aortic Compliance is More Common in African Americans than Whites: From the Dallas Heart Study, 3819
 Matrix Metalloproteinase-9 Gene Deletion Inhibits Formation Of Murine Thoracic Aortic Aneurysms, 3112
 New Treatment for Aortic Aneurysms by Cell Transplantation Therapy, 2751
 Nitric Oxide Induces Vascular Endothelial Cell Migration by Modulating Matrix Metalloproteinase Activities, 571
 Normalization of β Cell Function and Restoration of Heme Oxygenase in Nonobese Diabetic Mice by Allogenic Bone Marrow Transplant, 702
 Obesity Predicts Abnormal Aortic Mechanical Function: A Cardiovascular Magnetic Resonance Imaging Study, 3793
 Osteopontin Expression and Adventitial Angiogenesis Induced by Local VEGF₁₂₅ Reduce Experimental Aortic Calcification, 2748
 Sex Steroids Modulate Expression of Matrix Proteins and Matrix Metalloproteinases and May Contribute to Gender Differences in Large Artery Stiffness, 568
 The Dynamic Nature of Aortic Atherosclerosis, 2226
 The Location Of Aortic Atherosclerosis Is A Better Predictor Of Late Stroke Than Its Extent, 2273
 The Relationship Between Particle Dislodgement from an Aortic Wall Simulator and Fluid Flow Patterns from Various Aortic Perfusion Cannula, 3108
 The Winter Peak in Risk of Acute Aortic Dissection is Independent of the Varying Climatic Conditions at Different Geographical Locations, 3107
 Truncus Arteriosus Associated with Interrupted Aortic Arch in 50 Neonates: A Congenital Heart Surgeon Society Study, 2482

Women with Chest Pain and Normal Coronary Arteries Have Increased Arterial Stiffness by Radial Artery Tonometry: A Report from the Women's Ischemia Syndrome Evaluation (WISE), 2445

Aortic coarctation

Acute Complications Associated with Stent Placement in Native and Postoperative Coarctation of Aorta: A Multi-institutional Study, 2633
 Cerebral Blood Flow is Impaired During Repair of Coarctation of the Aorta in Infants and Children, 2474
 Intermediate Follow-Up of Native and Recurrent Coarctation Stent Repair: Is Integrated Imaging of the Aortic Arch Necessary? A Multi-institutional Study, 2634
 Long-Term Effects of Balloon Angioplasty on Left Ventricular Hypertrophy in Adolescent and Adult Patients with Coarctation of the Aorta: 16-year Follow-Up Results, 2747
 The Use of Covered Stents in the Management of Coarctation of the Aorta, 2635

EGF Receptor Blockade Improves Survival in Rats with Fatal Pulmonary Hypertension, 629
^{99m}Tc-Annexin V Can Evaluate Cardioprotective Effect of Erythropoietin Quantitatively In an Acute Ischemia-Reperfusion Rat Model, 2050
 A Locally Expressed Splice Variant of IGF-I Reduces Ischemic Injury after Myocardial Infarction by Inhibiting Apoptosis, 1365
 A MAP4K4-TRF2 Cycle Amplifies Apoptotic Signals in Mouse Myocardium, 3
 A Novel Gene Identified in the Atherosclerotic Plaques of ApoE-Deficient Mice Induces Apoptosis of Cultured Smooth Muscle Cells, 364
 A Prominent Large High-Density Lipoprotein Enriched in Apolipoprotein C-I Promotes Apoptosis In Vitro And Is a Biochemical Marker In Vivo for a Novel Group of Low Birth Weight Infants, 562
 Absence of p21^{Waf1/Cip1/sai1} Modulates Macrophage Differentiation and Inflammatory Response and Protects Against Atherosclerosis, 1313
 Activation Of ERK5 Inhibits Persistent Downregulation Of Phosphodiesterase 3A1 (PDE3A1) And Prevents Pressure Overload-Induced Cardiac Apoptosis And Dysfunction, 297
 Activation Of STAT1 Increases Necrosis And Apoptosis Following Ischemia/Reperfusion Independent Of STAT3 Activation, 2375
 Additive Effects of β_1 Adrenergic Antagonism and β_2 Stimulation on Myocardial Apoptotic Inhibition and DNA Repair in a Model of Congestive Heart Failure, 14
 Adventitial Mast Cell Degranulation Promotes Intraplaque Hemorrhage in Lesions of ApoE^{-/-} Mice, 1188
 Akt-Mediated Rac1 Phosphorylation Opposes β -Adrenergic Receptor-Stimulated Apoptosis in Adult Rat Ventricular Myocytes, 15
 Annexin A5-Scintigraphy of Forearm Skeletal Muscle as a Novel Tool to Study Ischemia-Reperfusion Injury in Humans in Vivo, 2054
 Anti-HSP60 Autoantibodies Induce Atherosclerosis in ApoE-deficient Mice via Endothelial Damage, 661
 Antiapoptotic Effects of Growth Hormone are Associated with Improvement of Left Ventricular Geometry in Patients with Heart Failure Secondary to Idiopathic Dilated Cardiomyopathy, 2786
 Apoptosis Inhibition Effectively Protects Myocardium During Cardioplegic Arrest by High-Energy Phosphate Preservation, 21
 Apoptosis Resistance with Expression of Mutant p193/Cul7 is Independent of its Binding p53 or Parc, 264
 ARC Inhibits the Death Receptor Pathway Through Novel Death-fold Interactions with Fas and FADD, 262
 Atorvastatin Increases Expression of the Pro-apoptosis Proteins Bax and Bak in the Central versus Distal Regions of Abdominal Aortic Aneurysms, 3111

Autophagy, a Survival Mechanism in Chronically Ischemic Myocardium, 1424
 Biphasic Regulation of Thioredoxin by Reactive Oxygen Species (ROS): Important Role for Cathepsin D in Endothelial Cell Apoptosis, 882
 Blockade of Receptor for AGE (RAGE) Delays Cardiac Allograft Rejection in Murine Model by Suppression of Inflammation and Apoptosis, 657
 BMPR-2 Signaling Promotes Pulmonary Arterial Endothelial Cell Survival: Implications for the Pathogenesis of Primary Pulmonary Hypertension, 625
 Bone Marrow-Derived Progenitor Cells Participate in Remodeling of Advanced Atherosclerotic Plaques, 1016
 Bone Marrow-derived Progenitor Cells Play an Antiapoptotic Role and Differentiate into Cardiomyocytes in Ischemic Myocardium Following Ischemic Preconditioning, 200
 Bradykinin Preconditioning Improves the Profile of Bad Phosphorylation and Caspase-3 Activation after Cardioplegic Arrest, 1708
 Calcitonin Gene-Related Peptide Prevents Vascular Smooth Muscle Cell Apoptosis via a Novel Mechanism Involving the Insulin-Like Growth Factor 1 Receptor/Phosphatidylinositol 3-Kinase/Akt Signaling Pathway, 1216
 Cardiac Apoptosis Inhibition is an Effective New Strategy to Improve Myocardial Protection, 2369
 Cardiac Primitive Cell Activation and Myocyte Regeneration Have a Key Role in the Ventricular Remodeling of the Damaged Myocardium, 794
 Cardiac-Specific Deletion of the β 1-Integrin Gene in the Adult Murine Heart Results in Disruption of Multiple Growth Response Pathways, 736
 Cardiac-Specific Overexpression of Small Heat-Shock Protein Hsp20 Alleviates Ischemia/Reperfusion Injury and Myocardial Dysfunction, 1439
 Caspase-3 Activation in Murine Myocardium Correlates With Arrest Duration, 1637
 CD4 T Cells from Patients with Acute Coronary Syndromes Form Stable Immunological Synapses with Vascular Smooth Muscle Cells and Induce Cell Death, 1187
 Collagen Degradation is Essential for Effective Fibrotic Repair Following Myocardial Infarction, 118
 Combined Cell and Gene Therapy for Therapeutic Angiogenesis: VEGF-2 Attenuates EPC Apoptosis and Augments Therapeutic Efficacy, 2186
 Delayed Ischemic Preconditioning Activates AKT Signaling Pathway, Phosphorylates Bad, and Protects the Heart Against Ischemia-reperfusion Injury, 647
 Differential Regulation of Caspase and MAPK Activity Underlies the Rapid Deletion of Aortic Smooth Muscle Cells by Apoptosis and Vascular Remodeling in Spontaneously Hypertensive Rats Treated With Amlodipine, 1322
 DNA Damage And DNA Base Excision Repair In Human Myocardium With Congestive Heart Failure, 2095
 Dominant-negative Akt Impairs Endothelial Cell Survival by Mimicking the Inhibitory Effect of Electronegative LDL on FGF2 Transcription, 409
 Dysfunction of the Ubiquitin-Proteasome System Is Accompanied by the Accumulation of the Proapoptotic Protein Smac/DIABLO during Left Ventricular Remodeling, 17
 Endogenous Endothelin-1 is Required for Cardiomyocyte Survival in vivo, 605
 EPC Could Predispose Regenerated Endothelium to Oxidized Low-density Lipoprotein via Activation of Bax Conformational Change Leading to Apoptosis, 704
 FKHRL1, a Forkhead Transcription Factor Induces Endothelial Cell Apoptosis through Activation of c-Jun N-Terminal Kinase and Suppression of NF- κ B, 206
 Forkhead Transcriptional Factor FOXO3a Induces Apoptosis in Vascular Smooth Muscle Cells and Reduces Neointima Formation after Balloon Injury in Rats, 883
 G-CSF Improves Regional Blood Flow and Cardiac Function in Chronic Hibernating Swine Myocardium, 501
 GATA4 Expression Level is an Essential Regulator of Cardiac Performance at Baseline and in Pathological Hypertrophy, 1260
 Gene Transfer of Human BCL2 into Embryonic Stem Cells Enhances Cell Survival Following Transplantation into Ischemic Mouse Myocardium, 1445
 H11 has Dose-Dependent and Dual Hypertrophic and Pro-apoptotic Functions in Cardiac Myocytes, 1373
 Heart-Specific Disruption of MAT1, Assembly Factor of Cdk7/cyclin H, Causes Fulminant Heart Failure, 632
 Heme Oxygenase Protects against β -Adrenergic Receptor-Stimulated Apoptosis in Cardiac Myocytes, 12
 Hepatocyte Growth Factor Mobilizes Bone Marrow Stem Cells to Infarcted Area and Improves Cardiac Function in Mice via Akt Pathway, 18
 High-Dose Glucose-Insulin-Potassium Treatment Reduces Myocardial Apoptosis in Patients With Acute Myocardial Infarction, 2920
 Hypoxia-dependent Remodeling of the Embryonic Cardiac OFT and Susceptibility to Environmental Teratogens via Oxidant Stress, 444
 Identification of a Novel Oxidized LDL-Regulated Scavenger Receptor, SREC II, in Vascular Smooth Muscle: Role in Oxidized LDL-Induced Oxidative Stress and Apoptosis, 1350

 Noninvasive Detection of Unstable Plaque Using Labeled Annexin A5, 2052
 Noninvasive Real-time Imaging of Atherosclerosis in Mice Using Ultrasound Biomicroscopy, 1785
 Nonstenotic Echolucent Ultrasound-Assessed Femoral Artery Plaques are Predictive for Future Cardiovascular Events in Clinically Healthy Men, 3648
 Opposing Effects between Short-term Combined Transdermal Estradiol/noretisterone and Oral Raloxifene Treatment upon C-Reactive Protein and Antibodies against oxidized LDL (oxLDL) and heat shock proteins (hsp), 1500
 Oral D-4F Dramatically Synergizes with Oral Pravastatin to Reduce Atherosclerosis in ApoE Null Mice, 173
 Oral Rapamune to Inhibit Restenosis in Patients with Multi De Novo Coronary Lesions Requiring Stenting: The ORBIT Studies, 1817
 Oral Rapamycin Attenuates Atherosclerotic Plaque Progression in ApoE Knockout Mice, 250
 Oral Tolerance to Oxidized LDL Ameliorates Atherosclerosis, 996
 Overexpression of Cu/Zn-Superoxide Dismutase Increases Atherosclerotic Lesions in Apolipoprotein E-Deficient Mice, 1347
 Overexpression of Protein HUR as a Basis of Cyclooxygenase-2-Dependent Atherosclerotic Plaque Instability in Humans, 1501
 Oxidized LDL Modulates Apoptosis of Atherosclerotic Plaque Vascular Smooth Muscle Cells via Regulation of the Insulin-like Growth Factor-1 System, 1185
 Palmitoylation Of ABCA1 Is Required For Its Normal Trafficking To The Plasma Membrane And For Lipid Efflux Activity, 1305
 Paraoxonase 1 Gene Variant Influences Pravastatin Reduction of Coronary Heart Disease, 2010
 Passive Immunization with Monoclonal Antibody (IgM) to Phosphorylcholine, an Oxidized LDL Related Neoantigen, Reduces Accelerated Atherosclerosis in a Vein-Graft Model in ApoE Null Mice , 246
 Patients with Metabolic Syndrome and Endothelial Dysfunction are at Higher Risk of Cardiovascular Events: the Northern Manhattan Study, 3611
 Patients with Non-ST-Elevation Acute Coronary Syndromes Have Negative Coronary Artery Remodeling During Late Follow-Up Detected by Magnetic Resonance Imaging, 1618

PDAY Risk Score Predicts Coronary Artery Calcium in Young Adults: The CARDIA Study, 3655
 Pharmacologic Activation of Liver X Receptor Promotes Reverse Cholesterol Transport from Macrophages to Feces In Vivo, 1586
 PIAS1 Activates the Expression of Smooth Muscle α -actin Gene by Interacting With SRF and Class I Bhlh Proteins, 1522
 Placental Growth Factor Enhances Macrophage Infiltration and Early Atherogenesis, 1310
 Plaque Progression of Nonculprit Plaques in Patients With Acute Coronary Syndrome: A Serial Intravascular Ultrasound Study, 1800
 Plaque Sealing with Stenting is Associated with Marked Reduction of Biologic Markers of Plaque Vulnerability , 1481
 Plasma concentration of Matrix Metalloproteinase 9 and prognosis of patients with atherosclerosis in multiple vascular regions, 3713
 Plasma Levels of the Soluble fms-like Tyrosine Kinase 1 (VEGF receptor 1) Modulate the Prognostic Impact of Placental Growth Factor in Patients Post Myocardial Infarction, 1942
 Plasma Matrix Metalloproteinase-8 Levels are Associated With the Presence and Severity of Coronary Artery Disease, 3258
 Plasma Oxidized Low-Density Lipoprotein: A Predictor For Acute Coronary Events In Apparently Healthy Men From Southern Germany, 3734
 Platelet-derived Growth Factor Activates Tissue Factor expression in Vascular Smooth Muscle Cells by an Egr-1-dependent Signaling Pathway, 548
 Possible Mechanism of Coronary Thrombosis Caused by Focal Vasospasm in Angiographically Nearly Normal Coronary Artery: A Volumetric Intravascular Ultrasound Study, 1698
 Poxviral Cross-Class Proteinase Inhibitors Reduce Plaque Growth and Alter Arterial Apoptotic Responses and Cellular Apoptosis, 881
 Preclinical Atherosclerosis in Systemic Lupus Erythematosus, 1776
 Preoperative Statin Therapy is Associated with Reduced Cardiac Mortality Following Coronary Artery Bypass Graft Surgery, 2366
 Presence of Intraplaque Hemorrhage Affects Progression of Carotid Atherosclerotic Plaques: A High-Resolution Magnetic Resonance Imaging Study, 1774
 Presence of Soft Plaques in Nonculprit Coronary Arteries in Patients with Acute Coronary Syndromes: Evaluation by Multislice Computed Tomography, 1614
 Production of C-reactive Protein in Response to Inflammatory Cytokines by Human Adipocytes, 549
 Prognostic Value of Carotid Plaque Morphology in Cardiology Patients, 2064
 Proinflammatory mRNA Stabilization by Adhesion Receptor Engagement in Macrophages, 990
 Proteomic Discovery of Coronary Artery Disease Proteins Using Industrial Scale Analysis of Pooled Plasma: Results from the Pooled Plasma Proteomics Project, 1011
 Pulse wave velocity and Coronary calcification in Postmenopausal women: The Woman on the Move through Activity and Nutrition (WOMAN) Study, 3660
 Quantitative Trait Loci that Determine Atherosclerosis Susceptibility in Mice: Genomic Convergence in the Study of Atherosclerosis Induced by a High-Fat Diet and Apolipoprotein E Deficiency, 1392
 Regulation Of Inflammatory Responses And Matrix-Degrading Activities By p38 MAPK in Advanced Human Atherosclerotic Plaque, 1158
 Remodeling of Atherosclerotic Coronary Arteries after Simvastatin Therapy Determined by Intravascular Ultrasound, 3436
 Resistin is an Inflammatory Marker of Atherosclerosis in Humans, 3439
 Resistin is Present in Atherosclerotic Lesions and Exerts Proatherosclerotic Effects on the Vessel Wall, 547
 Rising Levels of CRP and PAI-1 After Plaque Disruption Are Associated with Thrombosis, 1486
 Risk Factor Associations for the Presence of a Lipid Core in Carotid Atheroma of Asymptomatic Individuals using High-Resolution Magnetic Resonance Imaging, 3684
 Role of Contrast-Enhanced MRI in the Detection and Quantification of Lipid-Rich Necrotic Core in Carotid Atherosclerotic Plaque, 243
 Role of Increased Expression of Matrix Metalloproteinases (MMPs) Induced by Advanced Glycation End Products for Plaque Instability in Diabetes Mellitus, 3853
 Role of Intermediate Conductance Calcium-activated Potassium Channels in Functional and Morphological Remodeling of Atherosclerosis, 595
 Role of the α -8 Integrin Chain for Media Hypertrophy Following Carotid Artery Ligation in Mice, 1052
 Role of the small GTPase, Ras, and Oxidants in Impaired Endothelial Function Associated with Insulin Resistance in LDL Receptor Deficient Mice, 1068
 ROS-dependent Gene Regulation in Vascular Smooth Muscle Cells (VSMC): Signals that Modulate VSMC and Vascular Function, 1357
 Scintigraphic Myocardial Ischemia and Nonsignificant Coronary Lesions by Angiography: False-Positive Results or Underestimated Atherosclerosis? Insights from Intravascular Ultrasound and Coronary Pressure Measurements, 3165
 Selective Hepatic Expression of ABCA1 in ABCA1-KO Mice Identifies Liver ABCA1 as the Major Source of Plasma HDL-C, 1300

- Recessive Inheritance of a Subclinical SCN5A Mutation and a Rare Polymorphism of Connexin 40 Underlying Congenital Atrial Standstill, 2686
- Selective Aldosterone Blockade is More Effective than ACE-Inhibition in Suppressing Inducibility of Sustained Atrial Tachyarrhythmias in the Canine Rapid Ventricular Pacing-Induced Heart Failure Model, 3431
- Targeted Use of Amiodarone to Reduce Atrial Arrhythmias After Cardiac Surgery: The Prophylactic Amiodarone for the Prevention of Arrhythmias that Begin Early After Revascularization, Valve Repair, or Replacement (PAPABEAR) Trial, 3427
- ### Atrial defibrillation
- Delayed Internal Cardioversion For Atrial Fibrillation Increases Shock Efficacy, 1646
- ### Atrial fibrillation
- "Sudden Onset" Episodes of Paroxysmal Atrial Fibrillation: Incidence and Circadian Variation, 1645
- Acute Reversal of Electrical Remodeling and Cardioversion of Persistent AF by a Novel Atrial-Selective Antiarrhythmic Drug, RSD1235, in the Goat, 778
- A Comparison of Microbubble Formation during Radiofrequency Ablation at the Orifice of Pulmonary Veins using an 8-mm versus a Closed-Loop, Cooled-Tip Catheter, 2532
- A minK Polymorphism Associated with Increased Risk for Atrial Fibrillation has Complex Effects on Delayed Rectifier Current, 1104
- A New Locus For Atrial Fibrillation Maps To Chromosome 20q12-13, 1246
- A New Radiofrequency Balloon Catheter System for Uniformly Heating the Cardiac Tissue, 2705
- A Worldwide Survey on the Methods, Efficacy, and Safety of Catheter Ablation of Atrial Fibrillation, 2524
- Activation of the Calcineurin-Signaling Pathway During Atrial Fibrillation: A Novel In Vitro Pacing Model Using Adult Human Tissue, 776
- Acute Hemodynamic Benefits of Bialtrial Atrioventricular Sequential Pacing with the Optimal Atrioventricular Delay: Comparison with Single Atrial Atrioventricular Sequential Pacing, 3254
- Addition of Selective Ablation of Autonomic Ganglia to Pulmonary Vein Antrum Isolation for Treatment of Paroxysmal and Persistent Atrial Fibrillation, 2531
- ADVACENT, The National Registry to Advance Heart HealthSM; Tall Stature Increases the Risk of Atrial Fibrillation (AF) in Patients with Impaired Left Ventricular Function (LVD), 3099
- Age and Catheter Ablation for Atrial Fibrillation, 1664
- Amplification of Discrepancies Between Catheter-Tip and Tissue Heating in Pulmonary Vein Ablation: Impact of AF and PV blood flow, 2533
- An Abbreviated Anticoagulation Strategy is Safe and Effective in Patients Undergoing Transesophageal Echocardiographic-Guided Direct Current

Cardioversion, 1892
 Anatomic Relationship between the Right Phrenic Nerve and the Pulmonary Vein-Atrium Junction: Implications Using Newer Catheter Ablation Tools in Patients with Atrial Fibrillation, 1866
 Antiarrhythmic Effects of Pilsicainide on the Pulmonary Veins in Patients With Atrial Fibrillation, 3430
 Apelin Levels in Lone Atrial Fibrillation, 2694
 Association of Mutation in Heat Shock Protein 70 Gene with Postoperative Atrial Fibrillation, 3102
 Atrial Fibrillation Ablation in Patients with Mechanical Mitral Valves: Safety, Feasibility and Outcome, 2160
 Atrial Fibrillation in Heart Failure: Results from HFSIS 2003, a Natiowide Survey in Hospitalized Heart Failure Patients in Israel, 3134
 Atrial Fibrillation-Associated Loss of the Background K⁺ Current TASK-1 is Reversed by Phosphatase, 470
 Atrial Ion Channel Expression Changes Associated with Valvular Heart Disease and Atrial Fibrillation in Man, 612
 Atrial Volume and ANP in Persistent Atrial Fibrillation - Before and After Cardioversion, 3178
 Benefits and Risks of Circumferential Left Atrial Ablation Compared to Ostial Isolation for Treatment of Paroxysmal and Persistent Atrial Fibrillation, 2530
 Brugada Type Electrocardiogram in Lone Atrial Fibrillation, 3097
 Circulating Microparticles are Increased in Patients with Atrial Fibrillation and Reduced Left Atrial Appendage Velocity, 1891
 Circulating Platelet but not Endothelial Microparticles are Elevated in Atrial Fibrillation, 1034
 Clinical and Echocardiographic Risk Factors for Congestive Heart Failure in Controlled Hypertensive Patients with Electrocardiographic Left Ventricular Hypertrophy (the LIFE Study), 3160
 Comparison Between Oral Propafenone And Amlodarone To Restore Sinus Rhythm In Patients With Recent-Onset Atrial Fibrillation, 2175
 Complete Restoration of Atrial Contractility by the Atrial K⁺-channel Blocker AVE0118 after Cardioversion of Atrial Fibrillation in the Goat, 459
 Conduction Defect to the Left Atrium is a Normal Variant but Facilitates Manifestation of Atrial Fibrillation in the Presence of Focal Triggers, 2695
 Constitutive Acetylcholine-dependent Current: A Novel Ionic Target for Atrial Fibrillation, 1530
 Contractile Dysfunction in Human Chronic Atrial Fibrillation Is Associated with Hyperphosphorylation of Phospholamban and Phosphatase Inhibitor-1, 64
 Conversion To Sinus Rhythm Does Not Improve Long-Term Survival After Valve Surgery: Insights From A 20-Year Follow-Up Study, 1722
 Correlation of Symptoms to ECG Diagnosis in the Follow-Up after Atrial Fibrillation Ablation, 1868
 Crossregulation between G α 2 and Adenylyl Cyclase in AV Nodes of Swine with Chronic Atrial Fibrillation and Heart Failure, 926
 Cyp2C9 Genotyping Predicts Warfarin Dose and Allows for Quantitative Anticoagulant Dosing Algorithms, 3424
 Decreased Left Atrial Appendage Wall Velocity Identifies Patients at High Risk for Thromboembolism: Comparison of the Tissue Doppler Wall Velocity and Pulse Doppler Flow Velocity of the Appendage Using Transesophageal Echocardiography, 2228
 Defective Cardiac Ryanodine Receptor Regulation During Atrial Fibrillation, 610
 Detection of Triggers Initiating Atrial Fibrillation After Open Heart Surgery: A Prospective Study, 3205
 Difference between Symptom-Free and Recurrence-Free Survival after Either Circumferential or Segmental Pulmonary Vein Ablation of Atrial Fibrillation, 2166
 Direct Effects of Left Atrial Appendage Flow Pattern Alterations and Thrombus Formation on Elevated Serum Fibrin Monomer Levels, 2225
 Distribution and Co-localization of Sympathetic and Parasympathetic Nerves in Human Pulmonary Veins, 1972
 Does Maintaining Sinus Rhythm in High Risk Atrial Fibrillation Population Reduce the Risk of Stroke? The Results of Substrate Ablation and Non-Pharmacological Strategy for Treatment of Atrial Fibrillation (SANS-AFIB) Study, 2704
 Effect of Intensive Statin Treatment on the Occurrence of Atrial Fibrillation after Acute Coronary Syndrome: An Analysis of the MIRACL Trial, 3426
 Effect of Short-Term Exercise Training on AV Conduction and Exercise Capacity in Patients with Chronic Atrial Fibrillation, 3669
 Efficacy Of The Maze Procedure Using Cooled-Tip Radiofrequency Ablation In Patients With Permanent Atrial Fibrillation And Rheumatic Mitral Valve Disease, 2723
 Electropharmacologic Effects of Class I and Class III Antiarrhythmic Drugs on Dispersion of Atrial Repolarization in Patients with Paroxysmal Atrial Fibrillation, 2171
 Electrophysiological Differences At The Spontaneous Onset Of Nonsustained And Sustained Atrial Fibrillation Using A Noncontact Mapping System, 2690
 Electrophysiological Factors to Promote Reentry Formation in Pulmonary Veins, 2684

Electrophysiological Properties of an Atrial Selective Antiarrhythmic Agent, RSD1235, in Humans, 2172
 Electrophysiological Pulmonary Vein Antrum Ablation with a Multielectrode Basket Catheter is Feasible and Effective for Curing Atrial Fibrillation; Efficacy of Minimally Extensive Pulmonary Vein Isolation, 1659
 Electrophysiology and Arrhythmogenic Activity of Cardiomyocytes in Rabbit Pulmonary Veins, 75
 Endocardial Nitric Oxide and Thrombogenesis in Atrial Fibrillation, 1470
 Endoscopic Fiberoptic Assessment of Balloon Occlusion of the Pulmonary Vein Ostium: Comparison with Phased-Array Intracardiac Echocardiography, 1669
 Epicardial CryoMaze in a Chronic Off-Pump Sheep Model: The Future of Surgical Options for Treating Atrial Fibrillation , 3105
 Evaluation of an Electrophysiologic End Point for Left Atrial Circumferential Ablation of Paroxysmal Atrial Fibrillation: A Randomized Study, 2525
 Evolution of the Wide Area Circumferential Ablation for AF: Impact of the Learning Curve on Procedure and Radiation Times in Acute and Chronic Success, 2529
 Expression of Pacemaker Current HCN Subunits in Normal and Failing Canine Hearts, 613
 Extensive Ablation During Pulmonary Vein Antrum Isolation Has No Adverse Impact on Left Atrial Function: An Echocardiographic Analysis, 2712
 Fish Intake and Risk of Incident Atrial Fibrillation, 3766
 Human Atrial Fibrillation is Associated with an Alteration in Calcium Cycling Protein Expression without Change in Contractile Protein Performance, 1431
 Hyperpolarization-Activated K⁺ Current: A Novel Potential Contributor to Dynamic Regulation of Atrial Repolarization by G Proteins and Cardiac Remodeling, 775
 Impact of Atrial Fibrillation on Mortality in Patients with an Implantable Cardioverter Defibrillator, 3255
 Impact of Induced Core Hypothermia on the Electrocardiogram: Observations from the COOL MI Study, 2900
 Impact of Maze Operation Combined with Left-sided Valve Surgery on the Change in Tricuspid Regurgitation over Time, 1716
 Impedance Mapping Differentiates Between Atrial and Venous Tissue Reducing the Risk of Pulmonary Vein Stenosis, 1973
 Increased Risk of Postoperative Atrial Fibrillation Associated with Minimally Invasive Direct Coronary Artery Bypass Surgery, 3239
 Influence of AV-Delay on Incidence of Atrial Rhythm Disturbances, 1654
 Initial Canadian Experiences with Open and Endoscopic Microwave Energy Ablation of Atrial Fibrillation using the AFx Flex™ System, 2159
 Initial Clinical Experience with High Intensity Focused Ultrasound Balloon Catheter for Pulmonary Vein Antrum Isolation in Patients with Atrial Fibrillation, 2162
 Integration of CT/MR imaging with Electroanatomical Mapping to Direct Catheter Ablation of Atrial Fibrillation: A Strategy for Rapid Registration, 1780
 Interim Outcome of Wide Area Circumferential Left Atrial Ablation, 2528
 Intra-Atrial Reentrant Tachycardias After Catheter Ablation For Atrial Fibrillation: Are There Differences Between Circumferential And Segmental Pulmonary Vein Ablation?, 1864
 Intracardiac Ultrasound Imaging of the Left Atrium: Comparative Study of Imaging from Within the Right Atrium versus the Left Atrium, 1784
 Intraoperative Radiofrequency Ablation to Treat Permanent Atrial Fibrillation in Patients Undergoing Open Heart Surgery, 2710
 Irbesartan Prevents Early Atrial Structural Changes and the Upregulation of Atrial Tissue AT-1 Expression in a Canine Model of Pacing-Induced Atrial Remodeling, 1528
 Left Atrial and Ventricular Remodeling after Circumferential Pulmonary Vein Ablation. Outcomes from a Randomized Study of Ablation vs Amlodarone for Chronic Atrial Fibrillation, 2760
 Left Atrial Volume Predicts Atrial Fibrillation After Cardiac Surgery, 1890
 Left Atrium Volume Predicts Recurrence Of Atrial Fibrillation in Patient Undergoing Pulmonary Vein Antrum Isolation , 1889
 Long-Term Risk of Death, Stroke, or TIA and Heart Failure in Patients with Lone Paroxysmal or Persistent Atrial Fibrillation., 3098
 Mode of Positive Inotropic Action of the Novel Atrial K⁺-Channel Blocker AVE0118, 1525
 MRI Identifies Significant Variability in the Anatomic Relationship between the Esophagus and Left Atrium in Patients Undergoing Catheter Ablation for Atrial Fibrillation, 1971
 Myocardial Crossing Fibers between the Venous Orifice of the Pulmonary Veins: Relevance for Catheter Ablation in Atrial Fibrillation, 2164
 Nadroparin versus Unfractionated Heparin for Anticoagulation of Valvular Atrial Fibrillation: A Subanalysis from the NADROPAF Trial, 3120
 National Estimates of Outpatient Cardiovascular Medication Use in Aged Medicare Beneficiaries, 3814
 New Insights into Pericarditis: Transmural Gradient of Connexins 40 and 43 Contributes to Abnormal Conduction and Atrial Arrhythmias, 1395
 Nitric Oxide Regulates Pulmonary Vein Arrhythmogenic Activity, 1671
 Novel Findings of the Pulmonary Vein Morphology After Segmental Isolation of the Pulmonary Veins, 1779

Beta-adrenergic receptor agonists

β -3 Adrenergic Signaling is Impaired in the ob/ob Mouse Model of Obesity, 962
 β -Adrenergic Receptor Signaling is Modulated by Cofilin, a Regulator of Cytoskeletal Dynamics, 1222
 β_2 -Adrenergic receptor gene and elevated blood pressure: The Copenhagen City Heart Study, 88
 β_3 -Adrenergic Receptor Blockade Enhances Cardiac Positive Inotropic and Lusitropic Responses to Dobutamine in Heart Failure: Assessment by Pressure-Volume Analysis, 2035
 Additive Effects of β_1 Adrenergic Antagonism and β_2 Stimulation on Myocardial Apoptotic Inhibition and DNA Repair in a Model of Congestive Heart Failure, 14
 Adenylyl Cyclase Type V Deletion is Associated with Increased Basal Left Ventricular Function, but Decreased Response to β -Adrenergic Receptor Stimulation, 1220
 Akt-Mediated Rac1 Phosphorylation Opposes β -Adrenergic Receptor-Stimulated Apoptosis in Adult Rat Ventricular Myocytes, 15
 Amelioration of Heart Failure-Associated Pathologic Changes in Mitogen-Activated Protein Kinases, Matrix Metalloproteinase, and Inducible Nitric Oxide Synthase with Gene Transfer of Sarcoplasmic Reticulum Ca^{2+} -ATPase (SERCA) and β Adrenergic Receptor Kinase Inhibitor (BARKct), 49
 Both Gain and Loss of Function of the β -adrenergic Receptor Kinase Have Profound Influence on Falling Myocyte Contractile Function, 41
 Cardiac Primitive Cell Activation and Myocyte Regeneration Have a Key Role in the Ventricular Remodeling of the Damaged Myocardium, 794
 Clinical Characteristics and Management in Patients with Brugada Syndrome Associated with Electrical Storm of Ventricular Fibrillation, 2177
 Constitutive Protein Kinase A Activation Generates Rhythmic Ca^{2+} Oscillations in Rabbit Sinoatrial Nodal Cells That Modulate Intrinsic, Spontaneous Beating, 398
 Crossregulation between G_{i2} and Adenylyl Cyclase in AV Nodes of Swine with Chronic Atrial Fibrillation and Heart Failure, 926
 Dissection of β -adrenoceptor Pathways of Ryanodine Receptor (RyR2) Phosphorylation in the Intact Rat Heart, 619
 Does β_2 -agonist Clenbuterol Help Maintain LV's Potential to Recover during Mechanical Unloading?, 2935
 Effects of Urocortin II in Isolated Cardiac Myocytes from the Muscle LIM Protein Knockout Mouse, a Model for Dilated Cardiomyopathy: Bypass of Blunted β -Adrenergic Response in Heart Failure, 2810
 Heme Oxygenase Protects against β -Adrenergic Receptor-Stimulated Apoptosis in Cardiac Myocytes, 12
 Human (N27K) Phospholamban Exacerbates Stress-induced Cardiac Hypertrophy and Ischemic Injury, 56
 I_{Ks} Downregulation in Canine Ventricular Hypertrophy Confers the Loss of β -Adrenergic-Induced Shortening of Repolarization, Favoring Proarrhythmia, 1531
 Impairment of Cholinergic Signaling Reduces Atrial β -adrenergic Responsiveness by Enhancing eNOS Expression, 1406
 In Vivo Calmodulin Kinase II Inhibition Protects against Isoproterenol-Induced Cardiomyopathy, 301
 Increased Phospholamban Phosphorylation with Exercise Training Improves Diastolic Function in Hypertension, 292
 Inhibition of MMP-2 Inhibits β -Adrenergic Receptor (β -AR)-Stimulated Apoptosis in Adult Rat Ventricular Myocytes (ARVMs) via the Stimulation of β_1 -Integrin-Dependent Focal Complex Formation and Inhibition of Mitochondrial Death Pathway, 13
 Intracellular AMP Inhibits PKA to Attenuate β -Adrenergic Signaling: Evidence from Isolated Cardiac Cells and AMP Deaminase 3 Knockout Mice, 106
 Localization Of F-channels to Caveolae Mediates Specific β_2 -AR Modulation of Rate, 289
 Persistent Activation of Calcium-Dependent Signaling Causes Hyperphosphorylation of Phospholamban and Adrenergic Hyporesponsiveness in Pressure-Overload Hypertrophy, 1267
 Phosphorylation State of the β_1 -Adrenergic Receptor Determines Transactivation of the Epidermal Growth Factor Receptor, 1219
 Rapid Induction of Cardiomyopathy in Dystrophic Mice by β -Adrenergic Stimulation, 144
 Remodeling Stimuli Induce the Expression of Extracellular Matrix Metalloproteinase Inducer (EMMPRIN) in Myocardium and Cultured Cardiac Myocytes via Reactive Oxygen Species-Dependent Activation of JNK, 899
 S-Nitroglutathione Does Not Reproduce In Vivo Positive Inotropy Induced by Nitroxy Donors, 142

Sildenafil Attenuates the Inotropic Response to β -1 Stimulation in Humans, 2806
 The Arg389Gly β_1 -adrenoceptor Gene Polymorphism Determines Contractile Response to Catecholamines and Responsiveness to β -blockers in Humans, 953
 The Cardiac Myosin Activator, CK1122534, Increases Contractility in Adult Cardiac Myocytes but Does Not Affect the Calcium Transient or Depend on Second Messenger Signaling, 2256
 The Optimal Adrenergic Agent for Cardiopulmonary Resuscitation, 2492
 The Protective Effect of the β -Adrenergic Receptor is Through PKA-Mediated Switching of Coupling of the Receptor from Gs to Gi, 1442
 Upregulation of Cardiac Gene Expression by β_3 -Adrenoceptor Stimulation is Associated with Activation of Extracellular Signal-Regulated Kinase and Inhibition of c-Jun NH₂-terminal Kinase Pathway, 1225
 Use-Dependent β_2 -Adrenergic Receptor-Gi Coupling Requires RGS and β -ARK/PKA-Mediated Receptor Phosphorylation, 433
 Water-leachable Components of Ambient Particulate Matter Alters Regulation of Cardiac Electrical Activity by Adrenergic and Cholinergic Agonists, 1914

Beta-adrenergic receptor blockers

β -Blocker Therapy Intolerance in Ischemic Cardiomyopathy is Predictive of Higher Cardiac Mortality Rate after Cardiac Resynchronization Therapy, 2264
 β -Blockade in Women with Heart Failure in the Community Setting: Insights from a Large Prospective β -blocker Registry, 2251
 β -Blockade Prevents Arrhythmias By Improving Calcium Handling, Not APD Prolongation, in a Mouse Model of Heart Failure, 923
 β -Blocker Therapy Does not Alter Aortic Growth Rate in Pediatric Patients with Marfan Syndrome, 1928
 β -Blocker Therapy for Heart Failure: Should the Therapeutic Target be Dose or Heart Rate Reduction?, 2029
 β_2 -Adrenergic Receptor Activation Contributes to Exercise Intolerance in Heart Failure, 2034
 β_3 -Adrenergic Receptor Blockade Enhances Cardiac Positive Inotropic and Lusitropic Responses to Dobutamine in Heart Failure: Assessment by Pressure-Volume Analysis, 2035
 A Novel Chimeric Molecule that Exhibits Simultaneous β -Adrenoceptor Blockade and Cardiac Inotropy in the Heart, 965
 Additive Effects of β_1 Adrenergic Antagonism and β_2 Stimulation on Myocardial Apoptotic Inhibition and DNA Repair in a Model of Congestive Heart Failure, 14
 Agonism at Endothelial β_3 Adrenoceptors Mediates the NO-Dependent Proangiogenic and Vasodilatory Effect of the Third-Generation β -Blocker Nebivolol, 670
 Cardiac Output Response to Exercise and Mortality in the β -Blocker Era of Heart Failure Therapy, 2811
 Cardiovascular Hospitalizations and Subsequent Mortality in Chronic Heart Failure: Results from COMET, 2028
 Carvedilol Better Preserves Renal Function in Heart Failure Than Metoprolol: A Potential Link to its Beneficial Effect on Prognosis in COMET?, 2030
 Carvedilol Restores Attenuation of Cardioprotection by Ischemic Preconditioning in the Chronic Ischemic Heart, 505
 Characteristics and Outcomes of Heart Failure Patients in Clinical Practice: How Do They Relate to Age?, 2252
 Chronic β -Blockade Therapy Normalizes mRNA Gene Expression for Hypoxia-Inducible Factor-1 α in Left Ventricular Myocardium of Dogs with Heart Failure, 2257
 Chronic Vagal Stimulation Exerts Its Beneficial Effects on the Failing Heart Independently of Its Anti- β -Adrenergic Mechanism, 396
 Constitutive Protein Kinase A Activation Generates Rhythmic Ca^{2+} Oscillations in Rabbit Sinoatrial Nodal Cells That Modulate Intrinsic, Spontaneous Beating, 398
 Do Elderly Systolic Heart Failure Patients Benefit From β -Blockers To The Same Extent As The Non-Elderly? Meta-Analysis Of >12,000 Patients in Large-Scale Clinical Trials, 2592
 Does Losartan Improve Diastolic Left Ventricular Function Better than Atenolol During More Than Four Years of Antihypertensive Treatment? The LIFE Study, 2961
 Does the Use of Beta-Blocker or Choice of Beta-Blocker Impact the Defibrillation Threshold?, 2907
 Effects of β -Blocker on Myocardial Protein Expressions in Patients with Dilated Cardiomyopathy, 2032
 Effects of Long-Term β -Blocker Therapy on Ischemic Cardiac Events in Kawasaki Disease, 1839
 Esmolol Administered During CPR Improves Resuscitation, 1858
 Gene Expression Profile for Energy Production in Failing Human Hearts and its Modulation by β -Blocker Therapy, 2033
 Genetic Predictors and Reverse Remodeling of Dilated Cardiomyopathy in Muscular Dystrophy, 1744
 Hyperdynamic Response to β -adrenergic Stimulation in Patients with Angina-Like Chest Pain and Normal Coronary Arteries, 2402

Impact of Statin Therapy on Mortality in CHF Patients According to β -Blocker Use: Results of CIBIS II, 2031
 Impact on Mortality of Plasma NT-proBNP in Chronic Heart Failure in Patients Treated with β -blockers: Results from COMET, 2789
 Impaired Focal Adhesion Signaling Early in the Course of Volume Overload-Induced Cardiac Hypertrophy after Mitral Regurgitation in the Dog: Effect of β_1 -adrenergic receptor blockade, 100
 Improvement in Left Ventricular Ejection Fraction After β -Blockers is an Independent Predictor of Survival in Patients with Stable Congestive Heart Failure, 2593
 Initiation of Carvedilol before ACE-Inhibitor Therapy for the Treatment of Heart Failure: Impact on Plasma NT-proBNP, 2262
 Introduction of β -blocker Causes an Initial Increase in Plasma Brain Natriuretic Peptide and N-Terminal Brain Natriuretic Peptide Levels in Patients with Stable Systolic Heart Failure, 2788
 Long-Term Efficacy of Medical Treatment in Patients with Hypertrophic Obstructive Cardiomyopathy: Role of Combined Therapy with β -Blocker and Class I Antiarrhythmic Drug, 2791
 Long-Term Therapy with Ranolazine Prevents Progressive Left Ventricular Dysfunction and Remodeling in Dogs with Chronic Heart Failure, 3147
 Metoprolol Succinate Enhances and Carvedilol Attenuates the LV and Systemic Hemodynamic Responses to the Adrenergic Agonist, Norepinephrine, in Dilated Cardiomyopathy, 2790
 p38-MAPK Signaling Pathway Plays an Important Role in the Acute Negative Inotropic Effect of β -Blockers in Human Ventricular Myocytes, 431
 Predictors of Successful Rhythm Control Treatment in Patients with Persistent Atrial Fibrillation without Heart Failure: Data of the VERDICT Trial, 3428
 Prospective Evaluation of the Impact of Advanced Age on Tolerability of Carvedilol in Patients with CHF: The COLA II Study, 2027
 Rapid Titration of Carvedilol in Patients with CHF: A Randomized Trial of Automated Telemedicine Versus Frequent Outpatient Clinic Visits, 2966
 Reversal of Altered Expression of β_1 - and β_2 -Adrenergic Receptors in Pacing-Induced Heart Failure with β_2 -Adrenergic Receptor Blockade, 1262
 Should β -Blocker Therapy be Reduced or Withdrawn in Patients with Worsening Heart Failure? Insights from COMET, 2026
 Stimulating Autoantibodies Directed against the Cardiac β_1 -adrenergic Receptor Predict Increased Mortality in Dilated Cardiomyopathy, 2583
 The Arg389Gly β_1 -adrenoceptor Gene Polymorphism Determines Contractile Response to Catecholamines and Responsiveness to β -blockers in Humans, 953
 The Combined Use of β -Blockade and a Calcium Sensitizer Inotrope to Facilitate Cardiac Resuscitation, 2491
 What is Impact of Prophylactic Postoperative Beta-Blockade on Post-Cardiothoracic Surgery Length of Stay and Atrial Fibrillation?, 3268

Bi-ventricular pacing

Assessment of Systolic Asynchrony by Tissue Synchronization Imaging is a Useful Tool to Predict Responders of Cardiac Resynchronization Therapy, 2025
 Assessment of the Effect of Cardiac Resynchronization Therapy on Intra-Ventricular Mechanical Asynchrony by Regional Volumetric Changes: A New Method Using 3-Dimensional Echocardiography, 3123
 Biventricular Pacing, Coronary Blood Flow and Serum Adhesion Molecules, 3252
 Cardiac Resynchronisation Therapy Improves Overall Cardiac Pump Function During Peak Exercise But Not At Rest, 2503
 Cardiac Resynchronization Therapy Acutely Improves Indicators of Cardiac Function During Peak Exercise: A Randomized Controlled Trial, 3359
 Cardiac Resynchronization Therapy as Bridge to or Alternative for Heart Transplantation in Patients with End-stage Heart Failure, 2272
 Development of Underlying AV Block in Patients with Long-Term Cardiac Resynchronization Therapy, 3336
 Echocardiographically Detected Intraventricular Asynchrony: a Poor Intermethod Agreement, 3308
 Effect of Cardiac Resynchronization Therapy on Sleep-Disordered Breathing in Patients with Systolic Heart Failure, 1898
 Effect of Cardiac Resynchronization Therapy on the Left Ventricular Torsional Deformation in Patients with Dilated Cardiomyopathy, 3251
 Effect of High Voltage Stimulation on Left Ventricular Torsional Deformation in Patients with Dilated Cardiomyopathy, 3250
 Effect of Sequential Biventricular Pacing on Interventricular Asynchrony, 3351
 Enhanced Pressure-Generating Capacity Is a Primary Manifestation of Improved Function Of Failing Hearts, 520
 Identification of the Optimal Left Ventricular Pacing Site in Biventricular Cardiac Resynchronization, 2022
 Impact of Conventional Versus Biventricular Pacing on Hemodynamics and Tissue Doppler Imaging Indices of Resynchronization in Postoperative Children with Right Ventricular Conduction Delay, 3517
 Left Ventricular Stimulation Alone Significantly Increased Ejection Fraction at 1-Year Follow Up: Final Results from the BELIEVE Multicenter

Randomized Study, 2017
 Long Term Survival in Patients Treated With Cardiac Resynchronization Therapy: the InSync Italian Registry, 2016
 Nonuniform Workload and Remodeling of the Left Ventricle, Induced by Left Bundle Branch Block, is Reversed by Biventricular Pacing, 2269
 Pressure-Volume Plane Analysis to Determine Optimal Ventricular Pacing Lead Position in Patients With Normal QRS Duration, 2815
 Reverse Remodeling in a Novel Rabbit Model of Myocardial Infarction and Biventricular Pacing, 1894
 The Effect of Biventricular Pacing on Distal Left Anterior Descending Flow Reserve by Transthoracic Doppler Echo, 2270
 Usefulness of Radial Tissue Strain Imaging to Predict Acute Response and Quantify Improvement of Mechanical Dyssynchrony to Cardiac Resynchronization Therapy, 2943
 Ventricular Systolic Mechanics and Synchrony Improve with Biventricular Pacing in Critical Pulmonary Stenosis, 145

Binding sites

Detection of VCAM-1 Expression on Activated Endothelial Cells by Magnetic Resonance Immunohistochemistry (MRIhc) Using Targeted Iron Oxide Nanoparticles, 3174
 Distinctive Transcriptional Cascades of Notch Receptor Signaling in Vascular Smooth Muscle Cells (VSMC): Implications for Differential Growth Regulation by Notch1 vs Notch 2, 1383
 Integrin Activation and Clustering Mechanisms Elucidated with Echistatin, A Model Multisite Ligand, 347

Biology, developmental

A Prominent Large High-Density Lipoprotein Enriched in Apolipoprotein C-I Promotes Apoptosis In Vitro And Is a Biochemical Marker In Vivo for a Novel Group of Low Birth Weight Infants, 562
 Crucial Role of the Sonic Hedgehog Pathway During Regeneration of the Skeletal Muscle, 208
 Differential Effects of Orally Administered Apolipoprotein A1 Mimetic Peptide on Evolving versus Established Atherosclerosis in Apo E Null Mice, 1581
 Excitation-Contraction Coupling in Human Embryonic Stem Cell-Derived Cardiomyocytes Differs from Adult Ventricular Myocytes, 1280
 FOG-2 Regulates Endothelial to Mesenchymal Transformation in Developing Heart Valves, 446
 Hypoxia-dependent Remodeling of the Embryonic Cardiac OFT and Susceptibility to Environmental Teratogens via Oxidant Stress, 444
 Involvement of COX-2 in VEGF-Induced Angiogenesis via P38 and JNK Pathway in Endothelial Cells, 1071
 Minimally Oxidized LDL Induced ERK1/2 Activation via Homodimerization of Lox-1 in the Cell Membrane, 947
 Myocardial Expression of GATA-4 is Required for Myocardial Proliferation and Formation of the Right Ventricle, 270
 Optical Mapping of Bypass Tracts in Mice with AV Canal-Targeted Deletion of ALK3, 474
 Pleiotropic Effects of Leukotriene B₄ Receptor BLT1 on Early Atherogenesis, 842
 Use of Mice with Smooth Muscle-targeted Expression of Cre Recombinase to Investigate Transforming Growth Factor- β Signaling in Vascular Development and Disease, 890
 VEGF Isoforms Differently Contribute to Development of Blood Vessels and Blood Cells in *Xenopus*, 148
 Zebrafish (*Danio rerio*) model of Barth Syndrome, 215

Blood cells

Arterial Seeding with Autologous Progenitor-Derived Outgrowth Endothelial Cells Improves Vasoreactivity and Reduces Neointimal Formation in a Rabbit Balloon Injury Model, 697
 Chlamydia pneumoniae in Peripheral Blood Cells is Associated With Multivessel Coronary Artery Disease, 1697
 Electron Spin Resonance Investigation on Modulatory Effects of Aerobic Physical Exercise on Membrane Microviscosity in Essential Hypertension, 3824
 Evolution of a Functionally Active Translational Machinery in an Anucleate Cell: Transfer of Translational Components to Proplatelet Granules and Membranes During Thrombopoiesis and Redistribution of the Translational Apparatus to mRNA-Rich Areas during Platelet Activation, 345
 Magnetic Resonance Imaging using Steady-State Free Precession Detects Blood Oxygen Level-Dependent Changes in Microcirculation, 3171
 Plasminogen Activator Inhibitor (PAI)-1 from Bone Marrow-Derived Cells Contributes to Neointima Formation after Injury in Mice, 387
 The Origin of Bone Marrow-Derived Cardiomyocytes is Nonhematopoietic: Possible Contribution of Mesenchymal Stem Cells, 324
 VEGF Isoforms Differently Contribute to Development of Blood Vessels and Blood Cells in *Xenopus*, 148

Blood coagulation

A Novel Mouse Model of Myxomatous Valvular Degeneration, 214
 Activated Factor XII Predicts Troponin-T Positive Cardiac Events at 30 Days Follow-Up after Hospitalization with Acute Chest Pain, 2123

Addition Of Vasopressin To Epinephrine Does Not Increase Diastolic Blood Pressure During Cardiopulmonary Resuscitation In Human Cardiac Arrest, 1643

An Impedance Threshold Device Improves Short-Term Outcomes Following Out-of-Hospital Cardiac Arrest, 1957

An Impedance Threshold Device Significantly Increases Invasively Measured Arterial Pressures during Standard Cardiopulmonary Resuscitation in Out-of-Hospital Cardiac Arrest, 1956

Aortic Flush for Rapid Induction of Cerebral Hypothermia during Normovolemic Cardiac Arrest in Swine, 1630

Appropriate Implantable Cardioverter-Defibrillator Shocks Are Not a Surrogate for Sudden Cardiac Death in Patients with Nonischemic Cardiomyopathy, 2901

Are Rhythm Reanalyses, Stacked Shocks, And Postdefibrillation Pulse Checks Justified?, 2130

Are we Providing CPR According to the Guidelines in In-Hospital Cardiac Arrest?, 2148

Assessment of Agonal Breathing Improves Detection of Cardiac Arrest, 2147

Biphasic Defibrillation Waveform Combined with AED-Imposed "Hands-Off" Intervals Significantly Affects Outcome Following Prolonged Cardiac Arrest, 1958

Bystander-Initiated Cardiopulmonary Resuscitation Sustains Ventricular Fibrillation in Out-of-Hospital Cardiac Arrests: Report Based on a Large-Scale Population-Based Study in Osaka, Japan, 2144

Cariporide Decreases the Depth of Chest Compression Required to Maximize Forward Blood Flow, 2488

Cariporide Minimizes Adverse Myocardial Effects of Epinephrine During Resuscitation from Ventricular Fibrillation, 2487

Caspase-3 Activation In Murine Myocardium Correlates With Arrest Duration, 1637

Cause-Specific Mortality of Dialysis Patients after Coronary Revascularization: Why Don't Dialysis Patients Have Better Survival after Coronary Intervention?, 2323

Clinical Evaluation of an Inspiratory Impedance Threshold Device During Standard Cardiopulmonary Resuscitation , 1951

Comparison of Implantable Cardioverter-Defibrillator Therapy in Primary vs. Secondary Prevention of Sudden Cardiac Death in Young Patients, 2337

Comparison of Nifekalant and Lidocaine for Shock-resistant Ventricular Fibrillation, 1642

Efficacy and Safety of a Novel Endovascular Cooling Device after Cardiac Arrest: A Case-Control Study, 2137

First Time Assessment of Whole Blood RNA Expression Immediately after Successful Cardiopulmonary Resuscitation, 2129

First Ventricular Fibrillation Event in Patients With Brugada Syndrome treated With an Implantable Cardioverter-Defibrillator, 2906

In-Hospital Pediatric Ventricular Fibrillation: Results from the National Registry of CPR, 2135

Inhibition of the Initial Burst of Reactive Oxygen Species (ROS) under Conditions of Hypoxic and Hyperoxic Reperfusion in the Globally Ischemic Heart , 1859

Initial Oxygen Concentration Modulates the Reactive Oxygen Species Burst in the Heart at the Onset of Reperfusion, 1635

Mechanism by which Levosimendan Improves Outcome of CPR, 2485

Mechanisms for Generating Improved Hemodynamics with a Novel Chest Compression Device during Cardiopulmonary Resuscitation, 1638

Mitochondrial Structural and Functional Integrity after Neonatal Cardioplegic Arrest: Mitochondrial K_{ATP} Channel Openers and Apoptosis , 3405

NSE and S-100 Protein as Early Predictors for Neurological Outcome after Cardiac Arrest, 2132

Predictors of Appropriate Implantable Cardioverter Defibrillator Therapy in the Multi-Center Unsustained Tachycardia Trial, 2358

Prehospital Resuscitation Complicating Acute Myocardial Infarction: Benefits of Early Reperfusion Therapy. Results from the MITRA-Plus Study. 1620

Prompt Right Ventricular Overdistention during Untreated Ventricular Fibrillation Does Not Result in Left Ventricular Volume Loss, 1636

Quality of CPR Performance after Out-of-Hospital Cardiac Arrest in Three Ambulance Services is Related to Intubation, 2139

Rapid Noninvasive External Cooling to Induce Resuscitative Hypothermia in Swine, 1633

Reappraisal of Diagnostic Criteria for Brugada Syndrome in a Large Cohort of Patients with Molecular Diagnosis, 3206

Resuscitative Hypothermia after Invasive Cardiac Resuscitation in Patients with Failed Standard Cardiopulmonary Resuscitation, 1640

Single Rescuer Cardiopulmonary Resuscitation: Can Anyone Perform to the Guidelines 2000 Recommendations?, 1954

Single-Shock Compared to Three-Shock Defibrillation Protocol Significantly Improves Outcome Following Prolonged Cardiac Arrest, 1952

Slowing Minute Ventilation by Increasing the Compression-To-Ventilation Ratio from 15:2 to 15:1 Decreases Intrathoracic and Intracranial Pressures and Increases Vital Organ Perfusion Pressures and End-Tidal CO₂ in Pigs in Cardiac Arrest, 1953

Survival after Levosimendan Compared to Dobutamine, 2486

The Combined Use of β -Blockade and a Calcium Sensitizer Inotrope to Facilitate Cardiac Resuscitation, 2491

The Effect of Chest Compression Alone During Bystander-Initiated Cardiopulmonary Resuscitation, 2145

The Natural History of Individuals with the Brugada Syndrome, 2348

The Quik-Combo[®] Defibrillator Electrode Decreases the Time to Defibrillation: A Crossover Comparative Study, 1960

Ventricular Fibrillation is Not Provoked by Chest Compressions During Post-Shock Organized Rhythms in Out-of-hospital Cardiac Arrest, 2136

Ventricular Fibrillation Waveform Characteristics Can Guide Therapy in Cardiac Arrest, 1959

Cardiac markers

Activated Factor XII Predicts Troponin-T Positive Cardiac Events at 30 Days Follow-Up after Hospitalization with Acute Chest Pain, 2123

B-type Natriuretic Peptide and Clinical, Functional, and Hemodynamic Parameters in Pre-Capillary Pulmonary Hypertension, 1756

Baseline ANP and BNP do Not Predict Subsequent Symptomatic Benefit from Cardiac Resynchronization Therapy in the Multicenter InSync Randomized Clinical Evaluation (MIRACLE) Trial, 2018

Cd117+/Sca-1+ Cells from Adult Hearts Have Similar Proliferation and Differentiation Potential as Bone Marrow Stem Cells, 322

Effect of Initial Troponin Status on Outcomes after Treatment with Inotropes vs Vasodilators for Acutely Decompensated Heart Failure: An ADHERE[®] Registry Analysis, 1745

Evaluation Of B-type Natriuretic Peptide (BNP) Levels In Normal And Preeclamptic Women, 3153

GATA-4 Plays an Important Role in Bone Marrow Stem Cell Transdifferentiation into Myocytes, 1339

Heart Failure With Elevated Troponin and Creatinine is Associated with Increased Morbidity and Mortality: An ADHERE[®] Registry Analysis, 2773

Heart-Type Fatty Acid Binding Protein Predicts the Prognosis of Patients with Aortic Valve Diseases, 3282

Ischemia Modified Albumin for the Assessment of Patients Presenting to the Emergency Department with Acute Chest Pain but Normal or Nondiagnostic 12-lead Electrocardiograms and Negative Cardiac Troponin T, 2119

Ischemia Modified Albumin Levels in Patients with Peripheral Vascular Disease and Exercise Induced Skeletal Muscle Ischemia, 1778

Lack of an Association Between C-Reactive Protein and Subclinical Atherosclerosis: The Dallas Heart Study, 3654

N-Terminal Pro Brain Natriuretic Peptide Predicts Long-Term Mortality in Stable Coronary Heart Disease, 1950

N-Terminal Pro-B Type Natriuretic Peptide - An Accurate Plasma Biomarker In Detecting Diastolic Dysfunction, 2963

NT-pro-BNP cannot be Used in the Diagnosis of Heart Failure or Volume Overload in Patients with End-Stage Renal Failure, 95

NT-proBNP Combined with Troponin T for the Prediction of Short-Term Mortality in Decompensated Acute CHF: A ProBNP Investigation of Dyspnea in the Emergency Department (PRIDE) Substudy, 2430

NT-proBNP is Superior to BNP in the Detection of Left Ventricular Systolic Dysfunction in the Community, 1755

Plasma Levels of the Soluble fms-like Tyrosine Kinase 1 (VEGF receptor 1) Modulate the Prognostic Impact of Placental Growth Factor in Patients Post Myocardial Infarction, 1942

Positive Troponin in Diabetic Ketoacidosis without Acute Coronary Syndrome Predicts Poor Outcome, 1948

Prognostic Significance of Heart Fatty Acid Binding Protein in Patients with Non-ST-Elevation Acute Coronary Syndrome: Results of Follow-up For One Year, 2677

Prognostic Value of Combination of Cardiac Troponin T and B-Type Natriuretic Peptide in Outpatients on Chronic Hemodialysis: 5-Year Outcome Analysis, 2193

Prognostic Value of Elevated Circulating Levels of Heart-Type Fatty Acid Binding Protein in Heart Failure Patients with Preserved Left Ventricular Systolic Function, 3470

Prognostic Value of N-Terminal Pro-BNP versus BNP after Initiation of Treatment in Patients with Chronic Heart Failure, 1763

Prorenin-Induced Gene Transcription in Cardiomyocytes, 1223

Rarity of High CRP in the Absence of CHD Risk Factors: Evidence against Widespread CRP Screening, 3759

Relations of C-Reactive Protein to Inflammatory Conditions in Men and Women: Implications for Cardiovascular Disease Risk Prediction, 3761

Renal Function and Ejection Fraction Are the Best Mortality Predictors in Non-ST-Elevation Chest Pain Patients, 1615

Risk Stratification using a Combination of Heart-type Fatty Acid Binding Protein and Brain Natriuretic Peptide in Patients Hospitalized for Congestive Heart Failure, 1754

Role of N-Terminal ProBNP in Risk Assessment and Management of Pulmonary Embolism, 2434

Smoking, Inflammation, and Thrombosis in Non-ST Elevation Acute Coronary Syndromes, 3443

The Eigenvalue Model as an Electrical Marker in the Prediction of Acute Myocardial Infarction in Measured and Derived Electrocardiograms, 3095

Usefulness of Cardiac Troponin T-Guided Treatment in Patients with Chronic Heart Failure, 2243

What Are the Optimal Cut-points for NT-proBNP Use in the Emergency Department? A ProBNP Investigation of Dyspnea in the Emergency Department (PRIDE) Substudy, 2429

Cardiac output

Amplification of Discrepancies Between Catheter-Tip and Tissue Heating in Pulmonary Vein Ablation: Impact of AF and PV blood flow, 2533

Cardiac Output Computation from Live Three-Dimensional Doppler Echocardiography Derived Data: An in Vivo Animal Study, 3197

Cardiac Output Computation Using Raw Scanline Data from Live Three-Dimensional Doppler Echocardiography: An Animal Study, 2653

Cardiac Resynchronization Therapy Improves Overall Cardiac Pump Function During Peak Exercise But Not At Rest, 2503

Cool-Shock I Study: Mild Hypothermia as positive Intervention in Cardiogenic Shock, 1639

Evolution of the Wide Area Circumferential Ablation for AF: Impact of the Learning Curve on Procedure and Radiation Times in Acute and Chronic Success, 2529

Inhibition of Apoptosis by PR39 Improves Myocardial Ischemia Injury, 199

Selective Inhibition of p38 α Mitogen-Activated Protein Kinase Improves Cardiac Function and Reduces Myocardial Apoptosis after L-NAME/Angiotensin II-induced Myocardial Injury, 25

Ventricular Systolic Mechanics and Synchrony Improve with Biventricular Pacing in Critical Pulmonary Stenosis, 145

Cardiac tamponade

Cardiac Tamponade in the Fibrinolytic Era: Analysis of Over 100,000 ST-Segment Myocardial Infarction Patients, 2682

Cardiac volume

A Two-year Exercise Program in CHD Patients Improved Physical Performance without Inducing Left Ventricular Remodeling, 3825

Extent of Scar but Not Viability Predicts Global Left Ventricular Remodeling in Nonrevascularized Patients, 494

Prompt Right Ventricular Overdistention during Untreated Ventricular Fibrillation Does Not Result in Left Ventricular Volume Loss, 1636

Cardiomyopathies

Genetic Analysis of Apical Hypertrophic Cardiomyopathy, 2579

β -Adrenergic Receptor (β -AR) Subtypes Have Opposing Effects On Survival And Cardiac Function in MLP Cardiomyopathy, 939

First Experience with Transcatheter Ablation of Septum Hypertrophy with Microspheres in Patients with Hypertrophic Obstructive Cardiomyopathy, 3540

A Dominant-negative Mutation of δ -sarcoglycan Causes Cardiac Disease by Sequestering the Sarcoglycan Complex in the Nucleus, 1387

A Novel Mutation in Phospholamban Causes a Mixed Hypertrophic and Dilated Cardiomyopathy Phenotype with Autosomal Dominant Inheritance, 54

A Splicing Mutation in the GlcNAc-1-Phosphotransferase Gene Results in an Adult-Onset Form of Muclolipidosis III Associated with Cardiomyopathy, 1257

Active Metabolite of GLP-1 Mediates Increased Myocardial Glucose Uptake and Improves Hemodynamics in Dilated Cardiomyopathy, 3148

Acute and Reversible Left Ventricular Dysfunction Provoked by Psychological Stress (Tako-tsubo Syndrome) in U.S. Women: A Novel Cardiomyopathy, 2807

ADVANCEMENT, The National Registry to Advance Heart HealthSM: Tall Stature Increases the Risk of Atrial Fibrillation (AF) in Patients with Impaired Left Ventricular Function (LVD), 3099

Altered Protein-Protein Interactions of a Causative Agent for Desmin-Related Cardiomyopathy, 34

Amyloid Heart Disease Mimicking Hypertrophic Cardiomyopathy: Emerging Clinical Implications of Genetic Testing, 40

An Impaired Myocardial Deformation Can Be Detected Late After Low Anthracycline Dose Using Strain and Strain Rate Imaging, 1731

Angiotensin II Type 1a Receptor Mediates Adriamycin-Induced Cardiotoxicity, 967

Antiviral Interferon Therapy in DCM Patients with Viral Persistence, 3348

Arrhythmias and Sudden Cardiac Death in Children with Dilated Cardiomyopathy, 3516

Arrhythmogenic Right Ventricular Dysplasia: A United States Experience, 2351

Autoantibodies by Immunoabsorption from Patients with DCM Induce Cytotoxic, Apoptotic, and Chronotropic Effects on Cultured Cardiomyocytes, 631

Biopsy-proven Myocarditis: Prognostic Relevance of Clinical and Etiopathogenetic Features at Diagnosis, 3360

Biventricular Assist Device(BIVAD) Utilization for Patients with Morbid Congestive Heart Failure (MCHF): A Justifiable Strategy, 2713

Blockade of Matrix Metalloproteinase (MMP)-2 Exacerbates Myocardial Inflammation and Dysfunction in Tumor Necrosis Factor (TNF)- α -induced Cardiomyopathy, 2949

Body Surface Mapping - A Useful Additional Diagnostic Tool in Arrhythmogenic Right Ventricular Dysplasia, 2158

Bone Marrow Cell Transplantation to the Myocardium is Safe and Potentially Effective in Patients with Advanced Heart Failure due to Chagas' Cardiomyopathy, 1147

Ca²⁺-Sensitizing Effect of Familial Hypertrophic Cardiomyopathy-Linked Troponin T Mutation Reduces Contractile Reserve of Mouse Heart, 509

Cardiac Gene Transfer of Protein Phosphatase 1 Inhibitor-2 Restores Left Ventricular Function in Progressive Hamster Cardiomyopathy, 772

Cardiac Remodeling and Clinical Effects of Recombinant Human Acid α -Glucosidase Enzyme Replacement Therapy for Infantile Glycogen Storage Disease Type II, 2880

Cardiomyocyte-restricted Inactivation of Peroxisome Proliferator-activated Receptor δ Deletion Causes Lipotoxic Cardiomyopathy, 1551

Cardiomyopathy in the MHC-PPAR α Model of the Diabetic Heart Requires CD36, 1550

Cardiomyopathy Results in Reduced Endocardial Thrombomodulin Expression and Decreased Activated Protein C Activity, 834

Cardioprotective Effect of cis Element Decoy Oligonucleotides Against Nuclear Factor- κ B in an Experimental Model of Septic Myocardial Dysfunction, 303

Cell Cycle Re-entry of Cardiomyocytes in End-stage Heart Failure Patients Correlates with the Presence of Cardiac Progenitor Cells, 2090

Clinical Features and Prognosis of Cardiac Sarcoidosis Presenting as Hypertrophic Cardiomyopathy, 2422

Clinical Profile of Arrhythmogenic Right Ventricular Cardiomyopathy Caused by Desmoplakin Mutations (ARVD8), 1736

Combined Strategy of Myoblast Transplantation with Hepatocyte Growth Factor Gene Therapy Improves Cardiac Performance with Restoration of Impaired Heart in Dilated Cardiomyopathic Hamsters, 1448

Concordance of Left Ventricular Pacing Site to Region of Maximal Delay in Myocardial Velocities by Tissue Synchronization Imaging Predicts Left Ventricular Reverse Remodeling after Cardiac Resynchronization Therapy, 3353

Constitutively Active Cardiac Matrix Metalloprotease 2 Expression Drives Dysfunctional Ventricular Remodeling in Transgenic Mice, 1389

Coronary Venous Anatomy by Computed Tomography in Cardiac Resynchronization Therapy, 1783

Cost-Effectiveness Analysis of Preparticipation Screening Strategies for Prevention of Sudden Death in Young Competitive Athletes, 3213

Danon Disease Explains The Phenotype In A Family Originally Reported As XLCM, 2572

Decreased Glucose Utilization Leads to Glycogen Accumulation in the Hearts Overexpressing Mutant γ 2 AMPK Subunit, 1546

Deficiency for the G Protein-Coupled Receptor Mas Leads to Cardiomyopathy, Illustrating the Importance of Its Endogenous Ligand Angiotensin-(1-7) for Cardiac Function, 1090

Delayed Enhancement MRI Improves the Ability to Detect Cardiac Involvement in Patients with Sarcoidosis, 2995

Depressed Relative Lymphocyte Count is Associated with Death in Patients with Hypertrophic Cardiomyopathy, 2800

Detection of Myocardial Fibrosis, Edema And Hypoperfusion In Hypertrophic Cardiomyopathy By Magnetic Resonance Imaging, 2797

Differentiation of Athlete's Heart from Pathological Forms of Cardiac Hypertrophy by Means of Geometric Indices Derived from Cardiovascular Magnetic Resonance, 2664

DNA Damage And DNA Base Excision Repair In Human Myocardium With Congestive Heart Failure, 2095

Does β_2 -agonist Clenbuterol Help Maintain LV's Potential to Recover during Mechanical Unloading?, 2935

Does Delayed Contrast Enhancement in Hypertrophic Cardiomyopathy Represent Myocardial Fibrosis Only? Comparison of two markers of fibrosis using MRI and PET, 3053

Early Results of Extended Myectomy in Hypertrophic Obstructive Cardiomyopathy in the Era of Interventional Septal Ablation, 3290

Echo Insights Into Peripartum Cardiomyopathy In Haiti, 3295

Echocardiographic Middiastolic Wave in the Mitral Inflow Is Associated With Adverse Events in Hypertrophic Cardiomyopathy, 2230

Echocardiographic Natural History of Cardiac Fabry Disease: Disappearance of Basal Posterior Hypertrophy Precedes End-Stage Congestive Heart Failure, 2772

Effects of β -Blocker on Myocardial Protein Expressions in Patients with Dilated Cardiomyopathy, 2032

Electrocardiographic Response to Enzyme Replacement Therapy for Infantile Pompe Disease, 3518

Elucidation of an Essential Role for Calpains in Cardiac Health, 940

Emerin-Deficient Cells Have Normal Nuclear Mechanics but Impaired Mechanotransduction, 209

Estimating the True Prevalence, Mortality and Morbidity of Peripartum Cardiomyopathy, 2435

Etiology-specific Outcome in Pediatric Hypertrophic Cardiomyopathy, 2417

Evaluation of Cardiac Magnetic Resonance Imaging in Patients Referred for Suspected Arrhythmogenic Right Ventricular Dysplasia, 3492

Exercise Training Prevents Cardiac Dysfunction And Altered Sarcoplasmic Calcium Reuptake In A Genetic Model Of Cardiomyopathy Induced By Sympathetic Hyperactivity, 2607

Exercise-Induced ST-Segment Elevation Indicates Severe LV Dysfunction and Predicts Future Cardiac Events in Patients with Nonischemic Dilated Cardiomyopathy, 2499

Follow-up of Patients with Hypertrophic Cardiomyopathy after ICD Implantation for Primary Prevention of Sudden Cardiac Death, 2909

French Brugada Syndrome Registry (COBRA): Design of the Survey, Preliminary Results Concerning Demographic, Clinical Data and Follow-Up, 3210

Functional Analysis of Mutations in the Muscle LIM Protein (MLP) Gene in Dilated Cardiomyopathy, 1092

Functional Comparison of Two Missense Mutations in Troponin C Identified in a Patient with Idiopathic Dilated Cardiomyopathy, 2954

Gender-related Differences in Cellular and Ventricular Structures in Japanese Patients With Dilated Cardiomyopathy, 2801

Gender-Specific Differences in the Response to Cardiac Resynchronization Therapy?, 2020

Gene Profiling Changes In Cytoskeletal Proteins During Clinical Recovery Following Left Ventricular Assist Device Support, 2939

Gene Therapy Provides Morphological and Functional Correction of Limb Girdle Muscular Dystrophy Type 2D, 50

Genetic Analyses Identify Common Mutations of a New Disease Gene in Patients with Arrhythmogenic Right Ventricular Cardiomyopathy, 1737

Genetic Disruption of Angiotensin II Type1a Receptor in Mice Attenuates Volume Overload Cardiomyopathy and Improves Survival in Chronic Aortic Regurgitation, 963

Genetic Predictors and Reverse Remodeling of Dilated Cardiomyopathy in Muscular Dystrophy, 1744

- Serial Increase in Plasma BNP Level is a Predictor of Heart Failure Death in Hypertrophic Cardiomyopathy, 2804
- Serum Matrix Metalloproteinase-3 as an Independent Predictor of Future Cardiac Events in Patients with Idiopathic Dilated Cardiomyopathy, 3142
- Short- and Long-Term Success of Substrate-Based Mapping and Ablation of Ventricular Tachycardia in Arrhythmogenic Right Ventricular Dysplasia, 1871
- Signs Of Systolic And Diastolic Heart Failure In Caveolin-1 Knockout Mice Establish A Crucial Role Of Caveolin-1 In Cardiac Performance, 23
- Spironolactone Improves Left Ventricular Chamber Stiffness and Diastolic Function Associated With Regression of Myocardial Fibrosis in Asymptomatic Patients With Dilated Cardiomyopathy, 2261
- Stimulating Autoantibodies Directed against the Cardiac β ₁-adrenergic Receptor Predict Increased Mortality in Dilated Cardiomyopathy, 2583

Strain Rate Can Accurately Predict a More Aggressive Cardiac Involvement in Asymptomatic Patients with Duchenne Muscular Dystrophy, 2562

Suboptimal Glycemic Control is Associated with Increased Risk of Ventricular Arrhythmias, 3240

Substantial Efficacy of Pulmonary Vein Isolation in Patients with Hypertrophic Cardiomyopathy, 2163

Superior Quality of Life in Patients with Non-Ischemic Dilated Cardiomyopathy and Implantable Cardioverter-Defibrillators: Results from the Defibrillators in Non-Ischemic Cardiomyopathy Treatment Evaluation (DEFINITE) Study, 2904

Suppressor of Cytokine Signaling-3 Expression Inhibits an Interferon-Independent Susceptibility Factor for Coxsackievirus B3-Mediated Cardiomyopathy within the Cardiac Myocyte, 607

Sustained Correction of Glycogen Storage Disease Type II by Recombinant Adeno-Associated Virus Serotype 1 (AAV1) Vector-Mediated Gene Therapy, 765

Tako-Tsubo-Like Transient Left Ventricular Dysfunction: Prevalence and Clinical Findings in a Western Population, 3225

Targeted Expression of a Dominant-negative EGFR in the Heart Elicits an Essential Role of ErbB Signaling in Normal Cardiac Function, 741

Targeted Myocardial Expression of Soluble Fas Prevents the Development of Heart Failure in Mice with Cardiac-Specific Expression of Monocyte Chemoattractant Protein-1, 135

TGF β Inducible Early Gene-1 (TIEG1) and Hypertrophic Cardiomyopathy: Discovery and Characterization of a Novel Signaling Pathway, 1080

The Incremental Prognostic Significance Of Restrictive Filling Pattern In Hypertrophic Cardiomyopathy: A Doppler Echocardiographic Study, 2238

The Survival and Predictive Echocardiographic Variables of Orthotopic Heart Transplant with Long-Term Follow-up, 2768

Therapeutic Targeting of the Type 1 Phosphatase Activity in Murine Models of Cardiomyopathy, 96

Tissue Doppler Imaging can Discriminate Nonobstructive Hypertrophic Cardiomyopathy from Hypertensive Left Ventricular Hypertrophy with High Predictive Accuracy, 2566

Tissue Heterogeneity by Contrast-enhanced MRI as a Marker of Risk for Sudden Cardiac Death in Ischemic Cardiomyopathy, 2993

Transfer of Endothelial Progenitor Cells Attenuates Myocardial Dysfunction Induced Following Experimental Myocarditis, 99

TWEAK, a Novel Cytokine Determinant of Dilated Cardiomyopathy in Humans and Mice, 600

Utility of Echo-Doppler and BNP in Determining Hemodynamic Profile in Chronic Heart Failure Patients, 3302

Ventricular Assist Devices as Bridge to Recovery: Long-term Outcomes, 2931

Ventricular Tachycardia in Patients with Dilated Cardiomyopathy is Related to Coronary Microvascular Dysfunction, 2241

Visualization of Propagation of Electrical Currents in Patients with Complete Left Bundle-Branch Block Using a Novel Magnetocardiographic Method, 2899

What is the Relationship between Flow and Function in Diabetic Cardiomyopathy? A Quantitative Study Using Contrast Echo and Strain Rate Imaging, 2394

Xanthine Oxidase Inhibition Causes Reverse Remodeling in Rats with Dilated Cardiomyopathy, 101

Zebrafish (*Danio rerio*) model of Barth Syndrome, 215

Cardiomyoplasty

A Combined Cellular Cardiomyoplasty with Autologous Myoblast and Bone Marrow Cells Provides Alliance of Myogenesis and Angiogenesis for Ischemic Cardiomyopathy, 1557

A Novel Injectable Alginate Scaffold Promotes Angiogenesis and Preserves Left Ventricular Geometry and Function after Extensive Myocardial Infarction in Rat, 1334

Cardiac Side-Population Cells Exhibit Greater Cardiomyogenic Potential than Bone Marrow-Derived Stem Cells, 323

Clinical Outcomes of Surgical Ventricular Restoration: Data from the Society of Thoracic Surgeons' National Cardiac Database, 2933

Combined Strategy of Myoblast Transplantation with Hepatocyte Growth Factor Gene Therapy Improves Cardiac Performance with Restoration of Impaired Heart in Dilated Cardiomyopathic Hamsters, 1448

Comprehensive Screening of Human Desmin (DES) Gene in Dilated Cardiomyopathy, 2576

Directed Differentiation of Adult Human Bone Marrow Stem Cells into Lineage-Defined Cardiac Muscle-Like Cells, 445

Longitudinal Myocardial Strain and Strain Rate Changes Six Months after Intracoronary Autologous Bone Marrow Stem Cell Infusion, 2564

Myocardial Infarct Repair with a Tissue-Engineered Extracellular Matrix Scaffold, 1882

Skeletal Myoblast Genetically Modulated To Express Angiopoietin-1 Improves Neovascularization in Myocardial Infarction, 1881

Cardioplegia

Apoptosis Inhibition Effectively Protects Myocardium During Cardioplegic Arrest by High-Energy Phosphate Preservation, 21

Aprotinin Preserves Coronary Endothelial Cellular Junctions and Reduces Myocardial Edema After Regional Ischemia and Cardioplegic Arrest, 2374

Bradykinin Preconditioning Improves the Profile of Bad Phosphorylation and Caspase-3 Activation after Cardioplegic Arrest, 1708

Cardiac Apoptosis Inhibition is an Effective New Strategy to Improve Myocardial Protection, 2369

Molecular Indices of Apoptosis after Intermittent Blood and Crystalloid Cardioplegia, 3483

The Role of the Mitochondrial K_{ATP} Channel in Myocyte Osmotic Stress, 2367

Cardiopulmonary development

Efficient Identification of Mouse Models of Human Congenital Cardiopulmonary Malformations Using High-Throughput Magnetic Resonance Imaging, 441

Hypoplastic Left Heart Shows Spatial Clustering in Industrial Regions, 2877

Interaction of Gata4 and Gata6 with Tbx5 is Critical for Normal Cardiac Development, 279

Loss of Connexin 43 in the Cardiac Neural Crest Results in Outflow Tract Anomalies, 274

Modification of Stage 1 Palliation Following Fetal Aortic Valvuloplasty, 2888

Myocardial Rescue of Congenital Cardiomyopathy in Mice with Whole Bone Marrow Injection and No Donor-derived Engraftment, 1204

Cardiopulmonary resuscitation

δ -Opioid Receptor Agonist Reduces the Severity of Postresuscitation Myocardial Dysfunction, 2493

A Comparison of Effectiveness of Resuscitation after Electrically and Ischemically Induced Cardiac Arrest, 1631

A Randomized Comparison Study Of Vasopressin And Epinephrine For Prolonged Cardiopulmonary Resuscitation., 1641

Addition of Police and Public Access Defibrillation to a Preexisting First Responder AED Program: the Lag Between Deployment and Systematic Use, 2141

Addition Of Vasopressin To Epinephrine Does Not Increase Diastolic Blood Pressure During Cardiopulmonary Resuscitation In Human Cardiac Arrest, 1643

An Impedance Threshold Device Improves Short-Term Outcomes Following Out-of-Hospital Cardiac Arrest, 1957

An Impedance Threshold Device Significantly Increases Invasively Measured Arterial Pressures during Standard Cardiopulmonary Resuscitation in Out-of-Hospital Cardiac Arrest, 1956

Aortic Flush for Rapid Induction of Cerebral Hypothermia during Normovolemic Cardiac Arrest in Swine, 1630

Are Rhythm Reanalyses, Stacked Shocks, And Postdefibrillation Pulse Checks Justified?, 2130

Are we Providing CPR According to the Guidelines in In-Hospital Cardiac Arrest?, 2148

Assessment of Agonal Breathing Improves Detection of Cardiac Arrest, 2147

Brief, Self-Directed CPR Training for Lay Responders Is as Effective as Traditional Instruction, 1955

Bystander-Initiated Cardiopulmonary Resuscitation Sustains Ventricular Fibrillation in Out-of-Hospital Cardiac Arrests: Report Based on a Large-Scale Population-Based Study in Osaka, Japan, 2144

Cariporide Decreases the Depth of Chest Compression Required to Maximize Forward Blood Flow, 2488

Cariporide Minimizes Adverse Myocardial Effects of Epinephrine During Resuscitation from Ventricular Fibrillation, 2487

Caspase-3 Activation In Murine Myocardium Correlates With Arrest Duration, 1637

Clinical Evaluation of an Inspiratory Impedance Threshold Device During Standard Cardiopulmonary Resuscitation, 1951

Comparison of Nifekalant and Lidocaine for Shock-resistant Ventricular Fibrillation, 1642

Effects of Cariporide on Myocardial Energy Metabolism during Resuscitation from VF, 2489

Esmolol Administered During CPR Improves Resuscitation, 1858

Fast Fourier Transformation of The Impedance Cardiogram Recorded Through Two Defibrillator Pads is a Powerful Determinant of Cardiac Arrest in the Porcine Model, 1634

First Time Assessment of Whole Blood RNA Expression Immediately after Successful Cardiopulmonary Resuscitation, 2129

Hypothermia Improves Defibrillation Success and Resuscitation Outcome From Ventricular Fibrillation, 1191

Improved Survival after Out-of-Hospital Cardiac Arrest in Austria through a Nationwide Public Access Defibrillation Program, 2146

Levosimendan for Management of CPR, 2484

Levosimendan Improves Postresuscitation Myocardial Function in a Porcine Model of Cardiac Arrest and Resuscitation, 1856

Mechanism by which Levosimendan Improves Outcome of CPR, 2485

NSE and S-100 Protein as Early Predictors for Neurological Outcome after Cardiac Arrest, 2132

[Na⁺]_i Modulates Synergism Between Na⁺/Ca²⁺ Exchanger and L-type Ca²⁺ Currents in Cardiac Excitation-Contraction Coupling, 616
 Activation of Small G-protein RhoA Is Essential for Branching Morphogenesis in Endothelial Cell through Rho-kinase Independent Pathway, 1232
 Altered Protein-Protein Interactions of a Causative Agent for Desmin-Related Cardiomyopathy, 34
 Anticoagulant Heparan Sulfate Mediates Endothelial Endocytosis of Antithrombin, 836
 Bach1 is a Key Repressor of Heme Oxygenase-1 and Regulates Cell Proliferation, 1325
 Blockade of Receptor for AGE (RAGE) Delays Cardiac Allograft Rejection in Murine Model by Suppression of Inflammation and Apoptosis, 657
 Bone Marrow Stem Cells Contribute to Cardiac Side Population Stem Cells After Myocardial Infarction, 2376
 Ca²⁺/calmodulin-Dependent Protein Kinase II Activates ASK1 and NF-κB to Induce Cardiomyocyte Hypertrophy, 755
 Cardiac Side-Population Cells Exhibit Greater Cardiomyogenic Potential than Bone Marrow-Derived Stem Cells, 323
 Circulating Endothelial Progenitor cells are Increased in Patients with Left Ventricular Dysfunction and Elevated Levels of Brain Natriuretic Peptide, 1899
 Conditional Cardiac Knockout of the Calcium Channel Ca_v1.2 Gene Reveals an Essential Role in Adult Mouse Sinus Node Automaticity, 722
 Conditional Overexpression of a Constitutively Active Integrin Results in Rapid Increases in Calreticulin Expression, Severe Contractile Dysfunction, and Impaired Cell-cell Electrical Coupling, 639
 Constitutive Protein Kinase A Activation Generates Rhythmic Ca²⁺ Oscillations in Rabbit Sinoatrial Nodal Cells That Modulate Intrinsic, Spontaneous Beating, 398

Discrepant Features of Cellular and Local Calcium Release in Cardiac Muscle Unmasked by β-Adrenergic Stimulation, 618
 Disruption of Synectin Gene Expression Stimulates Endothelial Cell Adhesion While Inhibiting FGF2-dependent Cell Growth, Migration, and Tube Branching, 1044
 Electrophysiological Properties of Pluripotent Human and Mouse Embryonic Stem Cells, 218
 Endothelial Function Correlates with Circulating Progenitor Cell's Ability of Differentiation: Initial Marker of Atherosclerosis in Young Healthy Men?, 156
 ERK Dual Phosphorylation is Negatively Regulated by Ischemic p38MAPK Activation in Adult Rabbit Cardiomyocytes, 133
 Erythropoietin Increases Endothelial Progenitor Cell Proliferation and Adhesiveness in an Akt-dependent Manner, 1200
 Evoked Ca²⁺ Sparks Exhibit Maximum Probability Under Physiological Conditions in Rabbit Ventricular Myocytes: What Mechanism Modulates the Ca²⁺ Transient?, 61
 Excitation-Contraction Coupling in Human Embryonic Stem Cell-Derived Cardiomyocytes Differs from Adult Ventricular Myocytes, 1280
 Fast Dynamics of Mitochondrial Ca²⁺ Uptake During Excitation-Contraction Coupling in Adult Cardiac Myocytes, 617
 Function and Expression of β₂-Subunit Isoforms of L-Type Calcium Channels in Human Heart, 1250
 Functional Comparison of Two Missense Mutations in Troponin C Identified in a Patient with Idiopathic Dilated Cardiomyopathy, 2954
 In Vivo Cardiac Protection of p21^{WAF1/Cip1/Sip1} Knockout Against Doxorubicin-Induced Cardiomyopathy, 902
 Increased Endogenous Reactive Oxygen Species Generation in Endothelial Progenitor Cells of Patients with Coronary Artery Disease Are Associated With Functional Impairment, 205
 Intracellular AMP Inhibits PKA to Attenuate β-Adrenergic Signaling: Evidence from Isolated Cardiac Cells and AMP Deaminase 3 Knockout Mice, 106
 Ischemic Preconditioning Protects Adult Rat Cardiomyocytes Against Necrosis but not Apoptosis via Activation of PKG, 644
 Lipid Raft Microdomain Integrity Is Essential For the Potassium Current Properties in Atrial Myocardium, 281
 Loss of Rapid Early Repolarization in Failing Myocytes Causes Dyssynchronous SR Ca Release and Contributes to Slow Rising Ca Transients, 933
 Magnitude-Dependent Regulation of Lung Endothelial Barrier by Cyclic Stretch: Role of Rho and Rac, 76
 Membrane Depolarizations Produced by Individual Local Ca²⁺ Releases are Elementary Events in Regulation of Sinoatrial Nodal Cell Beating Rate, 934
 Membrane Sealant Poloxamer 188 Corrects the Primary Defect Caused by Dystrophin Deficiency in Single Cardiac Myocytes from Mdx Mice, 640
 Murine Embryonic Stem Cells Differentiate Into Cardiac Pacemakers, 219
 Myocardial Ischemia/Reperfusion Impairs the Ubiquitin-Proteasome System: Role of Reactive Oxygen Species, 1138
 Nitric Oxide Prevents Mitochondrial Permeability Transition during Ischemia-Reperfusion: Implications for the Cardioprotective Effects of Late Preconditioning, 1130
 Overexpression of Pcsk9 Leads to the Formation of an LDLR-Pcsk9 Complex and Acceleration of LDLR Degradation, 1171
 QT-Prolongation and ST-Elevation in Neonatal Mice Lacking the C-Terminal Region of Connexin43, 720
 Reduced Sorcin Expression Results in Dilated Cardiomyopathy, 60
 Semaphorin4A Suppresses Angiogenesis via Binding to plexinD1, 1461
 Specific Roles for Connexins 43 and 40 in Atrial Propagation, 1527
 TGFβ1-induced Endothelial Cell Trans-differentiation Causes MMP9-Associated Calcification, 1179
 TGFβ-Induced Apoptosis via AP-1/SMAD Signaling in Adult Cardiac Myocytes, 266
 The Cardiac Myosin Activator, CK1122534, Increases Contractility in Adult Cardiac Myocytes but Does Not Affect the Calcium Transient or Depend on Second Messenger Signaling, 2256

Cells

A Combined Cellular Cardiomyoplasty with Autologous Myoblast and Bone Marrow Cells Provides Alliance of Myogenesis and Angiogenesis for Ischemic Cardiomyopathy, 1557
 A Novel and Simple Method for Manufacturing a Myocardial Cell Sheet Using Polymerized Fibrin-Coated Dishes, 476
 A Novel Gene Identified in the Atherosclerotic Plaques of ApoE-Deficient Mice Induces Apoptosis of Cultured Smooth Muscle Cells, 364
 A Novel Injectable Alginate Scaffold Promotes Angiogenesis and Preserves Left Ventricular Geometry and Function after Extensive Myocardial Infarction in Rat, 1334
 Administration of Control-Released Hepatocyte Growth Factor Enhances the Efficacy of Skeletal Myoblast Transplantation in Rat Infarcted Hearts by Greatly Increasing Both Quantity and Quality of the Graft, 1880
 Altered Protein-Protein Interactions of a Causative Agent for Desmin-Related Cardiomyopathy, 34

Hypertensive Rats, 294
 Overlapping Regions of Central Nervous System Damage and Impaired Neural Responses to Valsalva Maneuver in Heart Failure, 3422
 Telmisartan Reduces Oxidative Stress in the Brain with Sympathoinhibitory Effects in Stroke-Prone Spontaneously Hypertensive Rats, 1270

Cerebrovascular circulation
 Age and Exercise Training Alter Endothelial Phenotype in Cerebral Resistance Arteries, 2280
 Estrogen Receptor- α and - β Are Equally Involved in the Cerebral Vascular Endothelial Growth Factor/KDR/Nitric Oxide Pathway and Cerebral Angiogenesis in Female Mice, 666
 Forskolin Potentiates Cerebral Vasodilation in Heart Failure, 675
 Neuronal Damage in Diabetic Hypertensives Independent of Cerebral Microvascular Dysfunction, 3152
 Thrombin Induces Vascular Hypercontractility by Upregulating Protease-Activated Receptor-1 in Subarachnoid Hemorrhage, 1593
 Transcranial Doppler Detection of Microembolic Signals During Pulmonary Vein Antrum Isolation: Correlation with Microbubble Formation on Intracardiac Echocardiography, 2703

Cerebrovascular disorders
 Association of Inter-Atrial Shunts and Migraine Headaches: Impact of Transcatheter Closure, 3624
 Elevated Homocysteine Level is Independently Associated with Progression of Aortic Arch Atheroma, 2980
 Intensive and Moderate Lipid Lowering Strategies with Statins are Associated with a Similar Risk of Cerebrovascular Events in Patients with Acute Coronary Syndromes, 2978
 Neuronal Damage in Diabetic Hypertensives Independent of Cerebral Microvascular Dysfunction, 3152

Cholesterol screening
 Atherogenic HDL, VLDL Particle Sizes in Asian Indian Females Compared to Framingham Offspring Study Population, Assessed by Nuclear Magnetic Resonance Spectroscopy, 3738
 Essential Role of Definitive LDL-Cholesterol Reduction by Statin, but not Pleiotropic Effects, on Achievement of Plaque Stabilization in Patients with Coronary Artery Disease, 1775
 Forecasting the Population Benefits of Treating Hypertension (HTN) or Hypercholesterolemia (LIPID) For the Primary Prevention of Cardiovascular Disease: The Importance of Screening and Treating Diabetic Patients, 3548
 PCSK9 Mutations Found in Patients Diagnosed With Autosomal Dominant Hypercholesterolemia In The Netherlands, 560
 Plant Sterols in an Aqueous Suspension Effectively Reduce Cholesterol Absorption at a Very Low Dose, 3767
 Total Cholesterol, Statin Therapy, and Survival in Ischemic and Nonischemic Heart Failure: Results from the Val-HeFT, 2590

Cholesterol-lowering drugs
 Effects on Soluble CD40L and Adipocytokines after Therapy and Withdrawal of Atorvastatin in Patients with Hypercholesterolemia, 677
 3-Hydroxy-3-Methylglutaryl Coenzyme A Reductase Inhibitors Decrease Toll-Like Receptor 4 Expression and Downstream Signaling In Human CD14⁺ Monocytes, 1565
 A Common Haplotype within the CRP Gene Predicts Lower CRP Levels and Greater Change in CRP Levels in Response to Pravastatin Therapy, 2011
 A Nitric Oxide (NO)-Donating Derivative of Atorvastatin, NCX 6560, Displays Antithrombotic and Anti-Inflammatory Activity , 712
 Additive Beneficial Effects of Ramipril Combined with Simvastatin In the Treatment of Type II Diabetic Patients , 3744
 Alcohol Consumption and Safety of Lovastatin and Warfarin in the Post-CABG Trial, 3718
 Antiatherogenic and Antioxidant Effects of an Apolipoprotein Mimetic Peptide, 1167
 Antithrombotic and Anti-inflammatory Effects of Simvastatin Compared with Fenofibrate Following Three-day Therapy, 544
 Association of Intensive Lipid Lowering with Reductions in Target Vessel Revascularization (Clinical Restenosis) and Non-Target Vessel Revascularization (Lesion Progression): A PROVE IT TIMI 22 Substudy, 3222
 Atorvastatin Reduces Th1 Development in Patients with Acute Myocardial Infarction, 3223
 Atorvastatin Reverses Features of Plaque Instability Independent of Systemic Cholesterol, in a Murine Model of Unstable Atherosclerotic Plaque, 589
 Benefits of Atorvastatin in Subjects With Alzheimer's Disease, 3756
 Berberine is a Promising Novel Cholesterol-Lowering Drug Working Through a Unique Mechanism Distinct from Statins, 680
 Blockage of the ERK Signaling Pathway Abrogates the SCAP Ligand-induced Transcriptional Activation of the LDL Receptor Gene in Human Liver Cells, 1000
 Can LDL Be Too Low? A Safety Analysis of the Intensive Treatment Arm of PROVE IT - TIMI 22, 2340

Combination Therapy With Gemfibrozil, Niacin, and Cholestyramine Reduces the Prevalence of Metabolic Syndrome Above and Beyond Aggressive Lifestyle Modification and Dietary Restriction, 3785
 Does Intensive Statin Therapy Reduce Both Urgent and Elective Coronary Revascularization? Results from PROVE-IT TIMI 22, 3220
 Early [within 24 hours] Statin Administration in Patients Presenting with Acute Coronary Syndrome is Associated with Better Outcomes Compared to Delayed [after 24 hours] Administration, 2338
 Early Administration of Fluvastatin, But Not At the Onset of Ischemia, Attenuates Myocardial Ischemia-Reperfusion Injury through Nitric Oxide Pathway Rather Than Through Its Antioxidant Property, 982
 Early Statin Treatment in Patients with Acute Coronary Syndrome: Demonstration of Beneficial Effect on Atherosclerotic Lesions by Serial Volumetric IVUS Analysis during Half a Year after Coronary Event (The ESTABLISH study), 3219
 Effect of fenofibrate and ezetimibe on lipoprotein subclasses and LDL subclass pattern in patients with mixed hyperlipidemia, 679
 Effect of Plant Sterol-Enriched Diacylglycerol Oil on Serum Lipid Parameters in Patients on Pravastatin (10 mg/d), 3764
 Efficacy and Safety of Coadministered Fenofibrate and Ezetimibe in Patients with Mixed Hyperlipidemia, 556
 Efficacy of Statin Therapy in African-American Patients with Hypercholesterolemia: Results from the ARIES Trial, 3780
 Essential Role of Definitive LDL-Cholesterol Reduction by Statin, but not Pleiotropic Effects, on Achievement of Plaque Stabilization in Patients with Coronary Artery Disease, 1775
 Ethnic differences in prevalence, treatment, and control of dyslipidemia: Insights from the Multi-Ethnic Study of Atherosclerosis, 3778
 Graded Benefit of Atorvastatin Over Pravastatin Dependent Upon Baseline LDL, 3221
 Halving The Cost Of Coronary Heart Disease Prevention: Does Tablet Splitting Statins Have A Role?, 3812
 High-Dose Atorvastatin Associated with Worse Glycemic Control: A PROVE-IT TIMI 22 Substudy, 3848
 High-Dose but not Low-Dose Atorvastatin Improves Endothelial Function of Patients with Coronary Artery Disease: Functional Evidence for Pleiotropic Effects of Statins, 376
 High-Resolution Magnetic Resonance Imaging Of Human Atherosclerotic Carotid Lesions Before And After Six Months Of High-Dose Atorvastatin Therapy, 3177
 Identification of Genetic Risk Factors for Atherosclerosis and Drug Response Markers Using Clinical Trials of the Cholesterol-Lowering Drug Pravastatin, 2982
 Impact of Statin Therapy on Mortality in CHF Patients According to β -Blocker Use: Results of CIBIS II, 2031
 Increase in Circulating Levels of Adiponectin by Statin and Fibrate in Patients With Coronary Artery Disease, 682
 Increased Risk of Adverse Events with Gemfibrozil Relative to Fenofibrate, 3755
 Increases in HDL-Cholesterol are the Strongest Predictors of Risk Reduction in Lipid Intervention Trials, 3754
 Increasing Statin Dose is Associated With a Stepwise Decline in Long-Term All-Cause Mortality, 3783
 Inhibition of Sphingomyelin Synthesis Reduces Atherogenesis in ApoE Knockout Mice, 1002
 Intensive and Moderate Lipid Lowering Strategies with Statins are Associated with a Similar Risk of Cerebrovascular Events in Patients with Acute Coronary Syndromes, 2978
 Intensive Compared with Moderate Lipid Lowering Prevents Lumen Loss in Mildly Stenotic Coronary Lesions Undergoing Constrictive Remodeling. Serial IVUS Observations from the REVERSAL Trial, 2911
 Intensive Lipid-Lowering Therapy Does Not Halt the Progression Of Calcific Aortic Stenosis, 3284
 Interrelationships of LDL Cholesterol and hsCRP in the PROVE-IT Clinical Trial Comparing Intensive Versus Moderate Lipid-Lowering Strategies Among Patients with Acute Coronary Syndromes, 2342
 Lipid-Lowering Effect of HMG Co-A Reductase Inhibitors Compared with Cholestyramines on Vascular Endothelium in Hypercholesterolemic and Hypertensive Patients, 564
 Niacin Corrects Endothelial Dysfunction in Patients with Low HDL, without Affecting HDL , 161
 Occurrence of Postoperative Stroke in Patients Undergoing Coronary Bypass Grafting: Statins Are Protective, 2274
 Opportunity for Intervention to Achieve American Heart Association (AHA) Optimal Lipid Levels in High-Risk Women In a Managed Care Setting, 3708
 Paraoxonase 1 Gene Variant Influences Pravastatin Reduction of Coronary Heart Disease, 2010
 Pioglitazone Stimulates Apolipoprotein A-I Production without Affecting HDL Protein and Cholesterol Ester Removal in HepG2 Cells, 174
 Polymorphisms in Matrix Metalloproteinases Predict the Ability of Statins to Reduce Death or MI, 2009
 Population Implications of More Aggressive Low-Density Lipoprotein Cholesterol Treatment Goals in 'High-Risk' American Adults: NHANES 1999-2000, 3701
