Education

A.B., Princeton University

Aaron Trippe is a Manager at Stroz Friedberg, an Aon Company, specializing in intellectual property litigation. During his five years at the company, he has worked on a diverse set of matters, including patent, trade secret, and software copyright litigation. Aaron has submitted written and oral testimony in the course of his work.

Aaron has worked on matters involving a diverse set of technologies, including mobile devices, digital rights management, enterprise communication, financial middleware, gaming software, network traffic analysis, microprocessors, and RF transmitters. He has extensive programming experience in Python and C, and has analyzed code in languages as diverse as Objective C, assembly, Javascript, Rust, and Verilog. His work has encompassed infringement and invalidity charting, claim construction analysis, prior art searching, code analysis, and reverse engineering.

Aaron holds a Bachelor's degree in Computer Science and a minor in Neuroscience from Princeton University. Prior to joining Stroz Friedberg (and Elysium Digital, before its acquisition by Stroz Friedberg in 2015), he worked in the lab of Dr. Naomi Leonard developing a system for multi-camera motion tracking and worked as a Web Applications Developer for Princeton University's Undergraduate Student Government. His undergraduate research, under Dr. Ken Norman, involved constructing and simulating neural network systems. While at Princeton, Aaron was elected to the Scientific Research Society, Sigma Xi.
