Contents

Part I	Introduction to Networking Concepts	3
Chapter 1	Introduction to PC Networking	5
	A Brief History of PC Networking	5
	The First Communications Networks	6
	Disadvantages of Standalone Systems	10
	What Is a Network, Anyway?	11
	Why Network Computers?	11
	Benefits of Getting Connected	12
	The Birth of the Internet	13
	The Cost of Technology: More and More for Less and Less	15
	PC Networking Today	16
	Home Computing	16
	Web Presence and E-commerce	16
	High-Performance Business Solutions	16
	Online Learning	17
	Tomorrow's Networks	17
	"Smart" Appliances and Homes	17
	Phoning Home	18
	The Wired Workplace	19
	Schools of the Future	20
	Networking Health Care	20
	Technology and the Law	21
	Intergalactic Networking?	21
	A Brief Overview of Networking Terminology	21
	Concept-Related Terminology	22
	Network Hardware-Related Terminology	22
	Software-Related Terminology	23
	Design and Topology Terminology	24
	Measurement-Related Terminology	24
	What This Book Covers and What It Doesn't	25
	Networking Certifications	26
	Vendor-Specific Certifications	26
	Non-Vendor-Specific Certifications	26
	This Book and Certification	27

	Summary	27
	Further Reading	28
	Review Questions	28
Chapter 2	Categorizing Networks	33
	Categorizing Networks by Physical Scope	33
	Characteristics of a LAN	34
	Characteristics of a MAN	35
	Characteristics of a WAN	37
	Categorizing Networks by Administrative Method	38
	Servers and Clients	39
	Characteristics of Peer-to-Peer Networks	44
	Characteristics of Server-Based Networks	47
	Categorizing Networks by NOS	49
	Windows Networks	50
	NetWare Networks	50
	UNIX Networks	50
	Hybrid Networks	51
	Categorizing Networks by Protocol	52
	NetBEUI Networks	52
	IPX/SPX Networks	52
	TCP/IP Networks	53
	Other LAN Protocols Used in Networks	53
	Categorizing Networks by Topology	54
	Linear Bus Networks	55
	Ring Networks	56
	Star Bus Networks	57
	Mesh Networks	59
	Hybrid Topologies	60
	Categorizing Networks by Architecture	61
	Ethernet Networks	62
	Token Ring Networks	67
	AppleTalk Networks	68
	ARCnet Networks	68
	Summary	70
	Further Reading	70
	Review Questions	71

Chapter 3	Networking Concepts, Models, and Standards	75
	Computer Communication Concepts	75
	The Language of the Machine	76
	Common Numbering Systems	76
	Using Packets	80
	A Layered Communication Process	82
	Networking Models	84
	The Purpose of Models	84
	The OSI Model	85
	The DoD Model	97
	Vendor-Specific Models	99
	Networking Standards and Specifications	99
	Why Standardize?	100
	Standards-Setting Bodies	100
	Summary	104
	Further Reading	104
	Review Questions	105
Chapter 4	Networking Communications Methods	109
	Signaling Methods and Characteristics	109
	Analog and Digital	109
	Baseband and Broadband	112
	Multiplexing	113
	Asynchronous and Synchronous Transmission	115
	Simplex, Half-Duplex, and Full-Duplex Transmission	116
	Signaling and Communications Problems	118
	Electromagnetic Interference	119
	Radio Frequency Interference	119
	Crosstalk	119
	Attenuation	120
	Bandwidth Capacity Issues	121
	Media Access Methods	121
	CSMA/CD	122
	CSMA/CA	123
	Token Passing	123
	Demand Priority	125
	Summary	126
	Further Reading	126

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
