Counsel,

It has come to Par's attention that in the process of finalizing Exhibit 1028 to Par's Reply to the Patent Owner Response to the Petition that was served on August 16, 2018 in IPR2017-01767 that a "μ" symbol in the document was corrupted.

Par contacted the Board to inquire if the Board would prefer Par to file Exhibit 1028 with the corrupted "μ" symbol corrected or to file the served version of the exhibit with a motion to file a corrected exhibit. The Board stated that it prefers that Par file a version of the Exhibit with the corrupted "μ" symbol corrected in lieu of engaging in motions practice.

A redlined version of Exhibit 1028 is attached that indicates where the corrupted "μ" symbol has been corrected. No substantive changes have been made to Exhibit 1028.

Regards,
David
