[Show Chapters](#) [Hide Chapters](#)

Part 1: Introduction

Part 2: Perspectives

Part 3: General Themes

Part 4: Cancer

Part 5: Chromosomes

Part 6: Diagnostic Approaches

Part 7: Carbohydrates

Part 8: Amino Acids

77: Hyperphenylalaninemia:
Phenylalanine Hydroxylase Deficiency

77S1: Homeostasis, Complexity, and
Monogenic Phenotypes: The View from
Phenylketonuria

77S2: Structural Studies of
Phenylalanine Hydroxylase Enzyme

77S3: The Population Genetics of PAH

78: Disorders of Tetrahydrobiopterin and
Related Biogenic Amines

79: Hypertyrosinemia

80: Disorders of Histidine Metabolism

81: Disorders of Proline and
Hydroxyproline Metabolism

82: Prolidase Deficiency

83: The Hyperornithinemias

84: Guanidinoacetate Methyltransferase
Deficiency

85: Urea Cycle Enzymes

85S: Glutaminase and Glutamine
Synthetase: Biochemistry,
Pharmacology and Mendelian Disorder

86: Errors of Lysine Metabolism

86.1: Pyridoxine-Dependent Epilepsy
Due to α -Aminoadipic Semialdehyde
Dehydrogenase (Antiquitin) Deficiency

86S: Further Characterization of the
Lysine Catabolic Pathway

87: Maple Syrup Urine Disease
(Branched-Chain Ketoaciduria)

88: Disorders of Transsulfuration

88.1: Trimethylaminuria and Deficiency

of Flavin-Containing Monooxygenase
Type 3 (FMO3)

89: Sarcosinemia

90: Nonketotic Hyperglycinemia

90.1: Serine deficiency disorders

91: Acknowledgments: Disorders of β -
and γ -Amino Acids in Free and Peptide-
Linked Forms

The authors have drawn substantively
from the earlier version of this chapter
(MMBID 7th Edition, Vol 1, Chapter 38,
pp. 1349–1368) and gratefully
acknowledge the significant contribution
of the preceding primary author, Dr.
Charles R. Scriver.

Part 9: Organic Acids

Part 10: Disorders of Mitochondrial
Function

Part 11: Purines and Pyrimidines

Part 12: Lipids

Part 13: Porphyrins

Part 14: Metals

Part 15: Peroxisomes

Lysosomal Disorders

Part 17: Vitamins

Part 18: Hormones

Part 19: Blood

Part 20: Immune and Defense
Systems

Membrane Transport Disorders

Part 22: Connective Tissue

Part 23: Cardiovascular System

Part 24: Kidney

Part 25: Muscle

Part 26: Lung

Part 27: Skin

Part 28: Neurogenetics

Part 29: Eye

Part 30: Multisystem Inborn Errors
of Development

Part 31: The Genetics of Complex
Disease
