2            (Proceedings begin at 11:00 a.m.)

3            JUDGE QUINN: So we're here for the oral argument in  
4 a series of cases filed by Samsung Electronics America Inc.  
5 against patents owned by Uniloc 2017 LLC.

6            And I'm not going to read all the patent numbers,  
7 but I'll read for the record the IPRs. As IPR2017-1797, 2017  
8 -- I just realized that this is an audio transcript, so let  
9 me redo that.

10           IPR2017-1797, IPR2017-1798, IPR2017-1799,  
11 IPR2017-1800, IPR2017-1801, IPR2017-1802.

12           Okay. We have allotted for each side to take one  
13 hour total of argument time. Both Petitioner and Patent  
14 Owner may reserve time for their respective rebuttals.

15           And before we start with allowing any exchange,  
16 let's talk about -- there are four instructions that I want  
17 to give to you all today.

18           First, there will be no speaking objections allowed.  
19 If you have an objection to subject matter raised by your  
20 opponent during argument, that objection can only be made  
21 during your own argument time, and also, objections will be  
22 held under advisement.

23           While on the topic of objections, the second

IPR2017-01800, IPR2017-01801, IPR2017-01802

1 instruction for you all today has to do with the filed  
2 objections -- the joint filing of objections to  
3 demonstratives. As we state in our hearing order,  
4 demonstratives --

5 Can you mute in Virginia? There. Thank you.

6 As we stated in our hearing order, demonstratives  
7 are not evidence but merely visual aids for use during your  
8 argument. We have reviewed the objections and have  
9 determined that we do not need to resolve any of those at  
10 this time. All objections will be held under advisement and  
11 will be resolved only to the extent necessary to decide the  
12 matter.

13 To the extent that either side deems that its filed  
14 objections are worthy of additional discussion, you may  
15 address those, but only during your argument time, we will  
16 not have additional argument time for objections.

17 Third instruction. Our hearing order at page 3  
18 specifically instructs the filing of demonstratives as a  
19 separate exhibit. We have noticed that petitioner filed all  
20 the demonstratives as a paper, not as an exhibit. After the  
21 hearing, we will be expunging all of Petitioner's  
22 demonstratives for failure to comply with our hearing order,  
23 but with authorization to refile the demonstratives as an

IPR2017-01800, IPR2017-01801, IPR2017-01802

1 exhibit.

2 Fourth and last instruction. The panel issued an  
3 order yesterday as a Conduct of the Proceedings Order under  
4 Rule 42.5, giving notice of the expectation that we want to hear  
5 from the parties regarding claim construction of the term  
6 "instant voice message" consistent with previous proceedings  
7 regarding the related patents.

8 So my question to everyone today is, did you receive  
9 that order and are you aware of our expectation?

10 MR. MODI: Yes, Your Honor, we are, on behalf of  
11 Petitioner.

12 JUDGE QUINN: Petitioner.

13 Patent Owner?

14 MR. MANGRUM: Patent Owner has received the  
15 communication and is ready to proceed, Your Honor.

16 JUDGE QUINN: All right. Any questions on those  
17 instructions?

18 MR. MODI: No, Your Honor.

19 MR. MANGRUM: None from Patent Owner, Your Honor.

20 JUDGE QUINN: Okay. All right. Let's start with  
21 Petitioner. How much time would you like for rebuttal?

22 MR. MODI: 20 minutes, Your Honor.

23 JUDGE QUINN: And do you know, Patent Owner, how
