PART I	INSTANT MESSAGING PRIMER	1
I AK I I	INSTANT WESSAUTING PROVING A A A A A A A A A A A A A A A A A A A	

1	Int	roduction to IM concepts 3
	1.1	Background on messaging 4
		A brief history of Jabber 11 • Goals of the Jabber project 12
	1.2	What is Jabber? 13
		Jabber's XML-based data formats 14 • Jabber's simple
		architecture 18 • Jabber's four core concepts 21
	1.3	Benefits of the Jabber protocols 27
	1.4	Drawbacks of the Jabber protocols 28
	1.5	Conclusion 29

	Jabber technical fundamentals 31
	2.1 The Jabber messaging model 32
	Benefits 35 • Drawbacks 36 • Relying on distributed
	servers 38 • How Jabber packet routing works 39
	Step-by-step: a message's path through Jabber 44
	2.2 The core Jabber protocols 45
	Message: Delivering data 45 • Presence: updating user
	online status 45 • Info/Query: handling everything else 45
	2.3 Jabber session example 47
	2.4 Conclusions 56
PART II F	ROTOCOLS, CODE, AND ADVANCED IM 57
	Rolodols, dobl, hard harmald him
7	
3	IM concepts and Jabber protocols 59
	3.1 A basic Java Jabber server 60
	Goals for our server 60 • Our server software 61
	The basic server design 62
	3.2 The session pool maintains client connections 63
	The Session class represents a connection 64
	The SessionIndex class provides session lookup 66
	3.3 XML parsing subsystem 69
	Representing Jabber packets 69 • The PacketQueue class as
	server focal point 77 • SAX parsing in Java 80
	3.4 Packet handling and server threads 87
	Packet handling in QueueThread 90 • Parsing XML in the
	ProcessThread 95 • The main application Server class 97
	3.5 Testing the server 98
	3.6 Conclusion 100

4	The Jabber 1	nessage protocols 101
	4.1 Messag	ing is the heart of IM 102
	4.2 The me	essage protocol 103
	Norm	nal messages 104 • Chat messages 105
	Grou	pchat messages 106 • Headline messages 108
	Error	messages 109 • Out-of-band messages 110 • Reality check:
		nessage, many user interfaces 112
	0 0	ober client 113
		s 114 • The client design 115 • The client
		l 116 • Using the client model 123 • Results 131
	4.4 Conclu	sions 132
5	The presence	e protocols 133
	•	d for presence 134
	5.2 The pres	sence protocol 134
	5.3 Adding	groupchat support 138
	Grou	pchat protocols 138 • Server modifications 144
	Clien	t modifications 157
	5.4 Shortco	omings of our server and basic groupchat 161
	5.5 Conclu	sions 162
6	Info/Query	and client registration 163
U	6.1 Info/Q	uery: the catch-all protocol 164
	The I	[Q protocol 165 ■ IQ extensions 167
	6.2 Registra	ation creates and manages accounts 169
	User	accounts 170 • The register protocol 171
	6.3 The Jak	ober server modifications 175
	Addi	ng user accounts 175 • Adding registration support 183
	6.4 Conclu	sions 186

DOCKET

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
