Contents

Part I	Introduction to Networking Concepts 3
Chapter 1	Introduction to PC Networking 5
	A Brief History of PC Networking 5 The First Communications Networks 6 Disadvantages of Standalone Systems 10 What Is a Network, Anyway? 11 Why Network Computers? 11 Benefits of Getting Connected 12 The Birth of the Internet 13 The Cost of Technology: More and More for Less and Less 1
	PC Networking Today 16 Home Computing 16 Web Presence and E-commerce 16 High-Performance Business Solutions 16 Online Learning 17
	Tomorrow's Networks 17 "Smart" Appliances and Homes 17 Phoning Home 18 The Wired Workplace 19 Schools of the Future 20 Networking Health Care 20 Technology and the Law 21 Intergalactic Networking? 21
	A Brief Overview of Networking Terminology 21 Concept-Related Terminology 22 Network Hardware-Related Terminology 22 Software-Related Terminology 23 Design and Topology Terminology 24 Measurement-Related Terminology 24
	What This Book Covers and What It Doesn't 25
	Networking Certifications 26 Vendor-Specific Certifications 26 Non-Vendor-Specific Certifications 26 This Book and Certification 27

Summary 27 Further Reading 28 Review Questions 28 Chapter 2 Categorizing Networks 33 Categorizing Networks by Physical Scope 33 Characteristics of a LAN 34 Characteristics of a MAN 35 Characteristics of a WAN 37 Categorizing Networks by Administrative Method 38 Servers and Clients 39 Characteristics of Peer-to-Peer Networks 44 Characteristics of Server-Based Networks 47 Categorizing Networks by NOS 49 Windows Networks 50 NetWare Networks 50 UNIX Networks 50 Hybrid Networks 51 Categorizing Networks by Protocol 52 NetBEUI Networks 52 IPX/SPX Networks 52 TCP/IP Networks 53 Other LAN Protocols Used in Networks 53 Categorizing Networks by Topology 54 Linear Bus Networks 55 Ring Networks 56 Star Bus Networks 57 Mesh Networks 59 Hybrid Topologies 60 Categorizing Networks by Architecture 61 Ethernet Networks 62 Token Ring Networks 67 AppleTalk Networks 68 ARCnet Networks 68 Summary 70 Further Reading 70

Review Questions 71

Chapter 3 Networking Concepts, Models, and Standards 75 Computer Communication Concepts 75 The Language of the Machine 76 Common Numbering Systems 76 Using Packets 80 A Layered Communication Process 82 Networking Models 84 The Purpose of Models 84 The OSI Model 85 The DoD Model 97 Vendor-Specific Models 99 Networking Standards and Specifications 99 Why Standardize? 100 Standards-Setting Bodies 100 Summary 104 Further Reading 104 Review Questions 105 Chapter 4 Networking Communications Methods 109 Signaling Methods and Characteristics 109 Analog and Digital 109 Baseband and Broadband 112 Multiplexing 113 Asynchronous and Synchronous Transmission 115 Simplex, Half-Duplex, and Full-Duplex Transmission 116 Signaling and Communications Problems 118 Electromagnetic Interference 119 Radio Frequency Interference 119 Crosstalk 119 Attenuation 120 Bandwidth Capacity Issues 121 Media Access Methods 121 CSMA/CD 122 CSMA/CA 123 Token Passing 123 Demand Priority 125 Summary 126 Further Reading 126 Review Questions 127

DOCKET

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
