P R O C E E D I N G S

- - -

JUDGE ARBES: Hello, everyone. This is Judge Arbes of the Patent Trial & Appeal Board. I have with me on the line Judge Chagnon and Judge Haapala.

This is a conference call in Case IPR2017-01843.

We have counsel for Petitioner on the line?

MR. CAVANAUGH: Yes, Your Honor. This is Dave Cavanaugh for the Petitioner and with me is Michael Smith.

JUDGE ARBES: Okay. And counsel for Patent Owner?

MR. HRYCYSZYN: Yes, Your Honor.

Jerry Hrycyszyn for Patent Owner on the call along with Rich Giunta and Josh Miller.

I'd also like to alert the Board to the fact that we have a court reporter on the call as well.

JUDGE ARBES: Sure. Thank you.

And please file a copy of the transcript as soon as you can after the call today.

MR. HRYCYSZYN: We will do that, Your

1 Honor.

2 JUDGE ARBES: Okay. I believe the call
3 today was requested by Patent Owner to discuss two
4 matters.

5 So, Patent Owner, would you like to go first?
6 And why don't we take the first one first.

7 MR. HRYCYSZYN: Thank you, Your Honor.

8 This is Jerry Hrycyszyn on behalf of the
9 Patent Owner.

10 So with respect to the Board's recent order,
11 Paper 40, we are requesting that the Board allow the
12 Patent Owner to file with its four-page sur-reply a
13 four-page declaration from our expert along with
14 supporting evidence.

15 Doctor Glew explained to us that Petitioner's
16 proposed interpretation of Misra at 6:54-58 is not
17 enabled because there is no way of making the
18 structure Petitioner identified in the reply. Doctor
19 Glew also explained that Petitioner's reading of Misra
20 is incorrect and that Misra does not teach making
21 spacer 23 out of silicon oxide. Silicon nitride would
22 still cover the entire side surfaces of the gate, even
23 in the embodiment that the Petitioner now relies on in
24 its reply.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
