XV. ADDITIONAL REMARKS109

I, Dr. Paul S. Min of St. Louis, Missouri, declare that:

I. ASSIGNMENT

1. I have been retained as a technical expert by counsel on behalf of Google Inc. (“Google” or “Petitioner”). I understand that Google is requesting that the Patent Trial and Appeal Board (“PTAB” or “Board”) institute *inter partes* review (“IPR”) proceedings of U.S. Patent No. 8,995,433 (“the ’433 patent”) (Ex. 1001).

2. I have been asked to provide my independent analysis of the ’433 patent in light of the prior art publications cited below.

3. I am not, and never have been, an employee of Google. I received no compensation for this declaration beyond my normal hourly compensation based on my time actually spent analyzing the ’433 patent, the prior art publications cited below, and the issues related thereto, and I will not receive any added compensation based on the outcome of any IPR or other proceeding involving the ’433 patent.

II. QUALIFICATIONS

4. I earned a Bachelor of Science degree in Electrical Engineering in 1982, a Master of Science degree in Electrical Engineering in 1984, and a Ph.D. degree in Electrical Engineering in 1987, all from the University of Michigan in Ann Arbor. All of my degrees from the University of Michigan are with

distinction. In addition, I received several academic awards, including a best graduate student award and a best teaching assistant award, during my study at the University Michigan. I also received a best paper award in a major international symposium for the paper based on my Ph.D. thesis.

5. After obtaining my Ph.D., I worked at Bellcore (now Telcordia Technologies, Inc.) in New Jersey from August 1987 until August 1990, as a lead engineer in major projects for the Regional Bell Operating Companies. In these projects, I was responsible for developing and analyzing next generation technologies to be incorporated in Regional Bell Operating Companies' communication networks, including transmission and switching technologies based on wireless and optical media and a variety of service and application infrastructures.

6. In September 1990, I joined the faculty at Washington University in St. Louis. I was an Assistant Professor of Electrical Engineering until June 1996, and then was promoted to an Associate Professor of Electrical Engineering with tenure. Since July 2002, I have been an Associate Professor of Electrical and Systems Engineering at Washington University.

7. My research activities at Washington University have focused on multi-media, high-speed communication and computing, including high performance switches and routers used in the Internet and in various types of local

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
