I understand we have some issue about

4 Dr. Schubert's testimony, is that --

MR. RIZZI: The issue is with the exhibits, your Honor, that we had moved in two days ago with regard to Dr. Schubert's testimony.

As you may recall, they made a motion to exclude those TAEUS reports which your Honor overruled. All of those reports are on our exhibit list. They were the subject of Professor Schubert's testimony.

He did not -- while he was on the stand he did not list out each and every one, and we think it would be a waste of time for him to have to read these into the record while he is on the stand, but they are apparently objecting to the fact that he didn't explicitly reference them during his testimony, as well as some other documents that he used to formulate his opinions as summarized in the analysis chart, which is now -- which they don't object to and which is part of the record.

We submit, your Honor, there should not be any basis for them to maintain any objection to any of the documents on this list.

MR. NIMROD: Your Honor, we understand the demonstrative -- the analysis chart you said could come in as a demonstrative and you would consider whether it could come in
