Rudra, CSM, CSPO

Solution Owner at Slalom Consulting

November 14, 2010, Monika worked with Jonathan in the same group

attention to details, while concurrently keeping a refreshing and guiding perspective on a project's overview. I have been grateful for Monika's energy, and for the sensitivity she displays in dealing with all subjects and individuals. Moreover, she is a quick study, and is able quickly and effectively to grasp issues and details of technology, as well as development strategies.

I have often been impressed with how well-prepared Monika is for discussions and meetings, how adaptable (in spite of her frustrations) to changing schedules and requirements, and how efficient she is in summarising a situation.

I would be honoured and privileged to work with Monika again.
