ftp.nisc.sri.com: netinfo/interest-groups                [14 June 1993]

Welcome to the "List of lists."  This is a listing of special interest
group mailing lists available on the Internet.  This file is available via
anonymous ftp on ftp.nisc.sri.com in netinfo/interest-groups.  A compressed
version is available in netinfo/interest-groups.Z.  It may also be obtained
through e-mail by sending a message to mail-server@nisc.sri.com with "send
netinfo/interest-groups" in the body of the message.

A hardcopy, indexed version of this list is available from Prentice Hall
under the title "Internet: Mailing Lists".  The ISBN number for this book
is 0-13-327941-3.  It is available in many bookstores, and may be ordered
directly from Prentice Hall by calling 515-284-6751.

To submit updates for the description of an existing mailing-lists or to
add a new listing, send a message to interest-groups-request@nisc.sri.com.
Listings should include the following:

        List Address:
        Description:
        Archive location and availability:
        How to join:
        Coordinator/Owner:

New versions of this list are typically issued on a quarterly basis.

PLEASE NOTE: The general convention is that for administrivia about a list
(like getting added or deleted, asking about archive files, etc.)  you
write to list-REQUEST@host (e.g., 386USERS-REQUEST@UDEL.EDU).  This gets
you to the Coordinator, rather than to the membership of the entire mailing
list.  Please look carefully at the entry for each list you are interested
in, to see if a -REQUEST address has been provided.

SRI tries keep entries current.  However, since information is provided by
the list maintainers, some entries may be out of date.
--------------------------------------------------------------------------

386USERS@UDEL.EDU

      A moderated list for Intel 80386 topics, including hardware and
      software questions, reviews, rumors, etc.  Open to owners, users,
      prospective users, and the merely curious.

      Archives are available via an electronic mail server.  Details about
      its use can be obtained by sending a request to
      386USERS-REQUEST@UDEL.EDU.  All requests to be added to or deleted
      from this list, problems, questions, etc., should be sent to
      386USERS-REQUEST@UDEL.EDU.

          List Maintainer: James Galvin  <galvin@UDEL.EDU>
          List Moderator:  Bill Davidsen <davidsen@CRDOS1.UUCP>

3COM-L%NUSVM.BITNET@CUNYVM.CUNY.EDU (Internet)
      3COM-L on LISTSERV@NUSVM.BITNET

      This mailing list is to discuss 3Com products, such as 3+ Network,
      3+Open LAN Manager, 3+Open TCP, 3+/3+Open Mail, NDIS, MultiConnect
      Repeater, LanScanner, 3Com Ethernet Cards etc.

      To subscribe, send the following command to one of the addresses
      above:
```

        Archives of 3COM-L discussions can be listed by sending the command
        INDEX 3COM-L to LISTSERV@NUSVM.BITNET

        Owner: Chandra Liem <CCECL@NUSVM.BITNET>

3D@BFMNY0.UU.NET
        3D%BFMNY0@UUNET.UU.NET

        An unmoderated list for discussing 3-D (Stereo) photography. Topics
        include tips, techniques, reviews, general information, war stories,
        and event announcements. Open to everyone interested in 3-D,
        including photographers, collectors, and those who want to know more
        about 3-D.

        No formal archive facility is in place for 3D yet but all submissions
        will be archived privately and something may be set up later.

        All requests to be added to or deleted from this list, problems,
        questions, etc., should be sent to 3D-REQUEST@BFMNY0.UU.NET.

        Coordinator: Tom Neff <3D-REQUEST@BFMNY0.UU.NET>
        <tneff%bfmny0@UUNET.UU.NET>

4DOS on ListServ@IndyCMS
        ListServ@IndyCMS.IUPUI.Edu

        4DOS (4DOS command interpreter) is dedicated to discussion of the 4DOS
        command interpreter, or "DOS Shell," produced by JP Software Inc. 4DOS
        (the list) is completely independent of 4DOS (the command interpreter)
        and JP Software Inc (the manufacturer).

        To subscribe to 4DOS send the following command SUB 4DOS yourfirstname
        yourlastname in the BODY or mail (or an interactive command on BITNET)
        to LISTSERV@INDYCMS.BITNET or LISTSERV@INDYCMS.IUPUI.EDU.

        4DOS is owned and coordinated by an interested user (John B Harlan).

            List owner/coordinator: John B Harlan
                                     IJBH200@IndyVAX
                                     IJBH200@IndyVAX.IUPUI.Edu

78-L@cornellc.cit.cornell.edu

        78-L is a discussion group devoted to music and recordings of the
        pre-LP era. The list is open to collectors and lovers of all kinds of
        music of this era, such as early jazz and blues, big bands, show
        music, vaudeville, classical, etc., as well as spoken word and other
        historical recordings. We also welcome discussion of recording
        history, discography, the collectors' market, and vintage phonographs.
        The group is not slanted toward any particular type of music or
        collector interest. Whether you're into cylinders or discs, vintage
        jazz or big bands, cranking up a victrola or playing your records
        through modern stereo equipment, we welcome your participation and
        hope that we can learn from each other and broaden our musical tastes.
        The common element is that what we listen to was recorded at (or near)
        78 rpm.

        The list is open and unmoderated. To subscribe, send mail to
        listserv@cornell.edu with the following text: 'SUB 78-L <your name>'.

        If you have any questions about 78-L, contact the owner.

90210@ferkel.ucsb.edu   [Last Update 8/92]

    Purpose: Discussion of the Fox TV show, Beverly Hills, 90210.

    Contact: 90210-request@ferkel.ucsb.edu (Jim Lick)

9370-L%HEARN.BITNET@MITVMA.MIT.EDU

    Discussion of topics specific to the IBM 9370 family and the VM/IS
    packaging system, and the special opportunities/problems of those
    products.

    To subscribe send the following command to LISTSERV@HEARN (non-BitNet
    users send mail to LISTSERV%HEARN.BITNET@MITVMA.MIT.EDU with the
    command in the message body): SUBSCRIBE 9370-L Your_Full_Name where
    Your_Full_Name is your real name, not your userid. To unsubscribe,
    send: UNSUBSCRIBE 9370-L

    Coordinator: Rob van Hoboken <RCOPROB%HDETUD1@MITVMA.MIT.EDU>

9NOV89-L@DBOTUI11.BITNET   [Last Update 28-January-92]

    Mailing list for whoever may attach a meaning to the date of 9.11.1989
    (or 89-11-09, or 11/9/89). Unfortunately the people living in the
    German Democratic Republic will not be able to participate in this
    discussion, because they are not (yet?) on this network. The list
    name reflects the most important event in the recent German history,
    but it can't and shouldn't be seen isolated from what happened, and is
    now happening, in Poland, the USSR, and Hungary before. And yes, dear
    Joe Techno, all this will influence even such important things as our
    networks.

    To subscribe, send a message to LISTSERV@DBOTUI11 (BitNet) or
    LISTSERV%DBOTUI11.BITNET@VM1.NODAK.EDU (Internet) with the following
    command in the body (text) of the message: SUB 9NOV89-L
    your_full_name where "your_full_name" is your real name, not your
    login Id. (Example: SUB 9NOV89-L Jane Doe)

    Coordinator: Gerard Gschwind (GSCHWIND@DBOTUI11.bitnet)

A.Rice@HAMPVMS.BITNET (BITNET)

    A list has been created for the discussion of the works of Anne Rice.
    The address is A.Rice@HAMPVMS.BITNET.

    To subscribe, send a request to ngustas@HAMPVMS.BITNET.

    Coordinator: GABRIELLE DE LIONCOURT
    <NGUSTAS%HAMPVMS.BITNET@VM1.NoDak.EDU>

AAI@ST-LOUIS-EMH2.ARMY.MIL

    Digest for discussion of the Automated AUTODIN Interface system. The
    AAI system is a series of programs that interface a data processing
    installation (DPI) with an AUTODIN switching center. This digest will
    provide information to the user community and other personnel
    interested in the developments/enhancements and implementation
    thereof.

    The AAI-Digests (and past AAI-Digest files contained in the Archive
    directory) are organized by Volume # and Issue #. Information was
    informally disseminated prior to the initiation of the AAI digest, and
    those newsletters stored in the aai account Archive directory can be

```
        All requests to be added to or deleted from this list, problems,
        questions, etc., should be sent to AAI@ST-LOUIS-EMH2.ARMY.MIL.

        Coordinator: Jo Ann M. Bohnenstiehl <jb1742@ST-LOUIS-EMH2.ARMY.MIL>
        Carol McDonald <carolmc@ST-LOUIS-EMH2.ARMY.MIL>

  AAVLD-L on LISTSERV@UCDCVDLS.BITNET                    [Last Update 9/92]

        This list has been created to provide a forum for discussion between
        veterinary diagnostic laboratories and members of the AAVLD.  Topics
        such as test standardization, fees, diagnostic information assistance,
        animal health surveillance, reports on conferences and symposia are
        especially welcomed.  Discussions related to specific cases should be
        approached within the limits of diagnostic medicine and restrict
        discussions of therapy or treatments.  The latter is discussed on
        another list, VETMED-L@UGA.BITNET

        The list will be limited to members of the AAVLD.

        Archives of AAVLD-L and related files are stored in the AAVLD-L
        FILELIST.  To receive a list of files, send the command INDEX AAVLD-L
        to LISTSERV@UCDCVDLS.BITNET

        To subscribe to the list, send the following command to
        LISTSERV@UCDCVDLS via interactive message or in the BODY of e-mail:

        SUBSCRIBE AAVLD-L Your_Full_Name

        eg.  SUBSCRIBE AAVLD-L John Doe

           List Owner: Jim Case DVM,Ph.D (JCASE@UCDCVDLS.BITNET)
               James T. Case, Administrator        University of California
               Information Systems                 School of Veterinary Medicine
               California Veterinary Diagnostic    P.O. Box 1770
                 Laboratory System                 Davis, CA 95617
               jcase@ucdcvdls.bitnet               (916)752-4408

  ACADV%NDSUVM1.BITNET@VM1.NODAK.EDU

        ACADV is a private forum for those engaged in the delivery of academic
        advising services in higher education; it is primarily for
        professional advisors (those employed in the field of academic
        advising) and for faculty members who have academic advising
        responsibilities, rather than for computer support personnel.

        Individuals in the field of academic advising may subscribe to the
        forum by sending the following message to LISTSERV@NDSUVM1
        interactively:  SUB ACADV your_full_name where "your_full_name" is
        your real name, not your login Id.  (Example: SUB ACADV John R. Doe)
        Non-BitNet advisors can subscribe by sending the above command as the
        text/body of a message to LISTSERV%NDSUVM1.BITNET@VM1.NODAK.EDU.

        Monthly notebooks are maintained and may be retrieved by any member of
        the forum by sending the command:  INDEX ACADV

        Coordinator: Dr. Harold L. Caldwell
        <00HLCALDWELL%BSUVAX1.BITNET@VM1.NODAK.EDU>

  ACCESS-L on LISTSERV@INDYCMS.BITNET                    [Last Update 4/93]
        or LISTSERV@INDYCMS.IUPUI.EDU

        ACCESS-L is an open, unmoderated discussion list relating to
        Microsoft's Windows database product, ACCESS.  Virtually any topic
```

recognized by MICROSOFT, although MS professionals are certainly
welcome to subscribe and participate.

Archives of ACCESS-L mail items are kept in monthly files. You may
obtain a list of files in the archives by sending the command

INDEX ACCESS-L

in the BODY of e-mail to LISTSERV@INDYCMS on BITNET or to
LISTSERV@INDYCMS.IUPUI.EDU on the Internet.

To subscribe, send the following command in the BODY of mail to
LISTSERV@INDYCMS on BITNET or LISTSERV@INDYCMS.IUPUI.EDU on the
Internet:

SUB ACCESS-L yourfirstname yourlastname

For example:

SUB ACCESS-L Bill Gates

Owner: Nathan Brindle <NBRINDLE@INDYCMS.BITNET>
<NBRINDLE@INDYCMS.IUPUI.EDU>

Warning: There is another LISTSERV list of the same name on another
topic. Be sure to send your commands to the INDYCMS LISTSERV. mgh

ACSOFT-L%WUVMD.BITNET@CUNYVM.CUNY.EDU
      ACSOFT-L@WUVMD

This list is for discussing all aspects of academic software
development.

Some topics for discussion are:

    - Courseware   sources)
      development   - Design techniques
    - Research tool   - Faculty acceptance
      development   of courseware
    - Institutional   - Role played by
      policies regarding   development in the
      development & use   faculty reward
    - Development   system
      practices   - Support policies
    - Available resources   - Reviews
      (including grant

Types of academic software include:

    - Simulations   environments
    - Authoring techniques   - Interactive learning
    - Hypermedia   - Drills
    - Immersion learning

To subscribe send an interactive message or mail to LISTSERV@WUVMD
(LISTSRV%WUVMD.BITNET@CUNYVM.CUNY.EDU, for Internet users) containing
SUB ACSOFT-L FirstName LastName.

Please do NOT send these commands to the list address ACSOFT-L@WUVMD.
Doing so will cause your request to be broadcast to all subscribers
and will not cause your name to be added to the list.

Comments and questions should be directed to:

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.

fastcase®
Smarter legal research.
