Counsel,

Counsel, the panel grants Petitioner's request to file motions to submit supplemental information under 37 C.F.R. 42.123(a) in IPR2018-00129, -00130, -00131, and -00132. The supplemental information includes a supplemental declaration from Dave Crocker and other additional evidence related to the public accessibility of the RFC references at issue in each of the proceedings. In the motions, Petitioner must indicate the panel granted the request via email, and also, after conferring with Patent Owner again, clarify whether Patent Owner does not oppose filing the motions, or rather, does not oppose the substance of the motions.

Your Honors,

Petitioner requests authorization to file motions to submit supplemental information under 37 C.F.R. 42.123(a) in IPR2018-00129, -00130, -00131, and -00132. The supplemental information includes a supplemental declaration from Dave Crocker, author of RFC 1692, and other additional evidence related to the public accessibility of the RFC references at issue in IPR2018-00129, -00130, -00131, and -00132. Patent Owner has indicated that it will not oppose the motions.

The parties are available for a conference call next week on Monday between 10:00 AM-2:00 PM ET, Tuesday after 10:00 AM ET, or at the Board's convenience.

Best regards,

Sam
