5. From 1972 until 1974, I was a Postdoctoral Fellow at the University of California, Berkeley in the Departments of Chemistry and Physics. From 1975 until 1982, I was an Assistant Professor at Wellesley College in the Department of

Chemistry. From 1982 until the present, I have held the following positions in the Department of Pharmaceutical Chemistry at the University of California, San Francisco: Visiting Assistant Professor (1982–1985); Assistant Professor In Residence (1985–1990); Associate Professor In Residence (1990–1995); Professor in Residence (1995–2011); and Professor In Residence Emeritus (2011–Present). 8. My research interests over my career have related to the development of organic synthetic methodologies and separation techniques for the preparation of bioactive boron molecules specifically targeted to biological systems, e.g. cancer cells, atherosclerotic plaques, and viral and parasitic vectors, and the application of

methods to assess the toxicology and gross and subcellular biodistribution of these molecules. To date, my research has resulted in over 65 publications in books and peer reviewed journals; and over 30 invited presentations.
