

Don't get left in the dust with your old NAS

Alacritech continues to license its patented accelerator technology, but is no longer manufacturing the ANX series of NFS accelerators. ANX customers will continue to receive strong support through a special team which has been put in place to assure that support contracts are fully met.

For assistance, please call:

For service and support (484) 593-0225.

For questions related to accounting matters 408-268-8656

For questions about licensing or other administrative matters 408-867-3809
