

UNITED STATES PATENT AND TRADEMARK OFFICE

BEFORE THE PATENT TRIAL AND APPEAL BOARD

**SEOUL SEMICONDUCTOR CO., LTD., and
SEOUL SEMICONDUCTOR, INC.**

Petitioners

v.

DOCUMENT SECURITY SYSTEMS, INC.

Patent Owner

Case No. IPR2018-00333
U.S. Patent No. 7,256,486

NOTICE OF CORRECTED EXHIBIT 1002

On Friday June 1, 2018, Petitioners contacted the Board to request a conference call to seek leave to correct a clerical error in the pagination of the file history (Exhibit 1002) submitted in IPR2018-00333. The Patent Owner did not oppose Petitioners' request.

By email dated June 5, 2018, the Board authorized Petitioners to file a corrected Exhibit 1002. In the Board's email, it also requested a brief summary of the corrections, the reason the corrections were necessary, and a certification that no

substantive changes are being made. The correction relates to the order of pages in Exhibit 1002 as I originally filed it, which was different from the order of the file history version downloaded from PAIR as used to create the citations. Although the citations in the originally filed Petition could be correlated to the proper portions of the file history based on the referenced dates, review of the Petition will be simplified by the correct page numbers.

I certify that no substantive changes are being made.

Dated: June 5, 2018

Respectfully submitted,

Holland & Knight LLP

/s/ Michael B. Eisenberg
