

Apple, Inc. et al.,

v.

Uniloc 2017 LLC,

Case IPR2018-00361

U.S. Patent No. 6,216,158

Hearing Before Jennifer S. Bisk,

Miriam L. Quinn,

Charles J. Boudreau

April 11, 2019

Claim 1 of the '158 patent

1. A method of controlling a service on a network using a palm sized computer, the palm sized computer being coupled in communications with the network, the method comprising:

- accessing a description of the service from a directory of services, the description of the service including at least a reference to program code for controlling the service;**
- downloading the program code to the palm sized computer;**
- the palm sized computer executing at least a portion of the program code; and**
- sending control commands to the service from the palm sized computer in response to the executing, wherein the service controls an application that cannot be executed on the palm sized computer.**

Claim 8 of the '158 patent

8. A method of controlling a program on a network device from a palm sized computer, the computer is not capable of executing the program by itself, the network device and computer being coupled in communications via a network, the method comprising:

- accessing a directory of services, a service in the directory of services corresponding to the program, the description of the service including at least a reference to program code for controlling the service;**
- loading the program code;**
- issuing control commands to the network device using the program code, the control commands causing the network device to control the program.**

Claim 20 of the '158 patent

20. A system comprising:

means for accessing a description of a service, the description of the service including at least a reference to program code for controlling a service;

means for downloading the program code;

means for executing at least a portion of the program code; and

means for sending control commands to the service in response to the means for executing, wherein the service controls an application that cannot be executed on the means for executing.

Declaration of Named Inventor of '158 patent

PATENT
Attorney Docket No. 15886-318

COMBINED DECLARATION AND POWER OF ATTORNEY FOR UTILITY PATENT APPLICATION

As a below-named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name;

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled:

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Title 18, United States Code, §1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Full name of sole or
first inventor:

Wenjun Luo

Inventor's signature:

Date:

3/11/99
