

Alacritech Inc.'s Patent Initial Disclosures For I
Exhibit 2

UNITED STATES PATENT NO. 7,673,072

INFRINGEMENT CHART FOR CLAIMS 1-5, 7

'072 Patent Claim² (P.R. 3-1(a))	Accused Instrumentalities And Where Found³ (P.R. 3-1(c))
[072.1] A method comprising: ⁴	Intel's Accused Instrumentalities: (i) any version of its controller, card, or adapter products capable of providing the claimed functionality in combination with an associated server or computer system, including Intel 82540EP Gigabit Ethernet Controller; Intel 82541ER Gigabit Ethernet Controller; Intel 82541PI Gigabit Ethernet Controller; Intel 82544EI Gigabit Ethernet Controller; Intel 82545EM Gigabit Ethernet Controller; Intel 82546GB Gigabit Ethernet Controller; Intel 82546GB Gigabit Ethernet Controller; Intel 82572EI Gigabit Ethernet Controller; Intel 82574L Gigabit Ethernet Controller; Intel 82575EB Gigabit Ethernet Controller; Intel 82576NS Gigabit Ethernet Controller; Intel 82580DB Gigabit Ethernet Controller; Intel 82583V Gigabit Ethernet Controller; Intel 82597E Gigabit Ethernet Controller; Intel 82599EB 10 Gigabit Ethernet Controller; Intel 82599ES 10 Gigabit Ethernet Controller; Intel Ethernet Controller I210-CS; Intel Ethernet Controller I210-IS; Intel Ethernet Controller I350-AM2; Intel Ethernet Controller I350-AM2;

¹ The infringement contentions provided herein are based on information obtained to date and may not be exhaustive. Alacritech's inventor(s) may supplement and/or amend these disclosures to identify additional Asserted Claims (P.R. 3-1(a)), to identify additional Accused Instrumentalities (P.R. 3-1(c)), to identify additional Asserted Claim is found in each Accused Instrumentality (P.R. 3-1(c)), including on the basis of discovery obtained from Intel and from other sources.

² All infringement contentions set forth herein for any independent patent claims are hereby incorporated by reference into the infringement contentions for the independent claims, as if fully set forth therein.

³ The Accused Instrumentalities and associated exhibits discussed and/or cited for any claim herein are representative in all material respects. Although various servers may have immaterial differences in their hardware, firmware, and/or software configuration, the cited references are representative of servers that implement the claimed functionality.

⁴ Alacritech's inclusion of any claim preamble in this claim chart should not be interpreted as an admission that the preamble is limiting infringement to the recited limitations. The inclusion of a claim preamble in this chart is merely for descriptive purposes and is not limiting or not limiting on a claim-by-claim basis.

Exhibit 2

'072 Patent Claim ² (P.R. 3-1(a))	Accused Instrumentalities And Where (P.R. 3-1(b))
	 <p>PowerEdge C6320</p> <p>With up to 44 cores per node, dynamic drive assignment, dual-port Intel 82559ES 10GbE LOM, and embedded systems management automation with the iDRAC8 with Lifecycle Controller, the C6320 is a scale-out modular compute workhorse.</p> <p>In connection with infringing LSO functionality, the host computer establishes a connection by creating a context (e.g., a set of information about the connection) that is used for the connection. For example, the host computer operating system includes a protocol stack for the connection, including creating a context that includes protocol header information for the connection. The network controller in a pseudo header (also called a prototype header) for the connection. In Windows Vista and Windows Server 2008, BATES ALA00009427-29, the network controller architecture that establishes a TCP connection, including creating a context for the connection.</p>

PRO/1000 PF Dual Port Server Adapter with Intel 82571 Controller (ALA00000268-ALA00000271; ALA00009427-29); Intel PRO/1000 PF Dual Port Server Adapter with Intel 82571 Controller (ALA00000272-ALA00000275; ALA00009727-ALA00009776); Intel PRO/1000 PF Dual Port Server Adapter with Intel 82571 Controller (ALA06777820-ALA06777823; ALA00009727-ALA00009776); Intel X710/I350 Dual GbE and Dual GbE Server Adapter with Intel X710/i350 Controllers (ALA00005443-ALA00005448; ALA00005882-ALA00007532; ALA06775366-ALA06775377); Intel X710/I350 Dual GbE and Dual GbE Server Adapter with Intel X710/i350 Controllers (ALA06776369-ALA06776370; ALA00005882-ALA00007532; ALA06775366-ALA06775377); Intel X710/I350 Dual GbE and Dual GbE Server Adapter with Intel X710/i350 Controllers (ALA06776369-ALA06776370; ALA00005882-ALA00007532; ALA06775366-ALA06775377); Intel X710/I350 Dual GbE and Dual GbE Server Adapter with Intel X710/i350 Controllers (ALA06776369-ALA06776370; ALA00005882-ALA00007532; ALA06775366-ALA06775377).

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
