2 - - - - -

3 1:50 p.m.

4 JUDGE QUINN: Okay. Good afternoon, everybody. We are here for
5 the oral argument in Apple Inc. v Uniloc 2017, LLC, Case No.
6 IPR2018-00394 and Case No. IPR2018-00395, both concerning US Patent
7 No. 6,622,018. With me are judges Garth Baer, presiding over the court
8 hearing in a courtroom in Alexandria, and Judge Charles Boudreau,
9 presiding from the courtroom in the Silicon Valley office. Yours truly, here
10 in Dallas, Texas. Do we have, let's see, we have 40 minutes for each side,
11 and Petitioner, you have the opportunity to reserve time for rebuttal and so
12 will the Patent Owner.

13 Before we start I'd like to give some instructions. We have noticed,
14 there was an email filed letting us know of objections to demonstratives,
15 those were Patent Owner's objections to Petitioner's demonstratives slides 12
16 and 17, if I'm correct.

17 MR. MANGRUM: That's correct, Your Honor.

18 JUDGE QUINN: Okay. Those objections will be overruled since the
19 demonstratives are not really in evidence today. To the extent that you want
20 to address the substantive issue of those slides you may do so during your
21 argument time. No speaking objections will be allowed from either party. Do
22 you have any questions about that?

23 MR. MANGRUM: None for Patent Owner, Your Honor.

24 JUDGE QUINN: Okay. The other issue here, the court reporter is

1 present in the Alexandria courtroom, so please speak clearly, address
2 exhibits by number, and to the extent that you always need to look for the
3 mic to speak, please do so, so that they can have an accurate record. Also,
4 my colleagues can't see the slides but we have copies of them, but we cannot
5 see or show what you show on the wall here. All right, please state
6 appearances for the record. Who do we have for Petitioner today?

7 MR. EHMKE: My name is Andrew Ehmke, I am the B

8 COURT REPORTER: I can't hear him.

9 JUDGE BAER: Counselor, I think your microphone is muted.

10 MR. EHMKE: Is that better now? Does that work?

11 JUDGE BAER: Yes, thank you.

12 MR. EHMKE: Again, my name is Andy Ehmke, and for the court
13 reporter I'll spell that. It is E-H-M-K-E. I am lead counsel on behalf of
14 Petitioner. With me today is Scott Jarratt, Bethany Hrischuk, and that's
15 spelled H-R-I-S-C-H-U-K, as well as in-house counsel for Apple, Mr. Mark
16 Breverman, B-R-E-V-E-R-M-A-N. Mr. Jarratt will be presenting on behalf
17 of Petitioner today.

18 JUDGE QUINN: Thank you. Before you, I guess I'll deal with you
19 later. Who's on the record for Patent Owner today.

20 MR. MANGRUM: Good afternoon, Your Honors. Brett Mangrum,
21 last name spelled M-A-N-G-R-U-M. I'm with the Etheridge Law Group.
22 With me is Ryan Loveless, also of the Etheridge Law Group. I will be
23 speaking on behalf of Patent Owner today.

24 JUDGE QUINN: Thank you. In case you were wondering, we are

Case IPR2018-00394 (Patent 6,622,018)

Case IPR2018-00395 (Patent 6,622,018)

1 giving the court reporter the demonstratives over there, so you don't have to
2 worry about getting copies to anyone here today. Petitioner, are you ready to
3 proceed?

4 MR. JARRATT: Yes, Your Honor.

5 JUDGE QUINN: Okay. How much time would you like to reserve
6 for rebuttal?

7 MR. JARRATT: 10 minutes, please. And I will not be projecting,
8 because the, not the correct hookup.

9 JUDGE QUINN: It's not the correct hookup?

10 MR. JARRATT: I use HDMI, and --

11 JUDGE QUINN: And we are outdated if we don't have HDMI?
12 Okay. We'll deal with that.

13 MR. JARRATT: I'll be sure to announce the slide number as I go
14 through them.

15 JUDGE QUINN: Yes. We'll have them on our screens, that's
16 actually very effective. All right, when you're ready to proceed.

17 MR. JARRATT: Good afternoon, Your Honors. Like Andy said, my
18 name's Scott Jarratt, also counselor for Petitioner Apple. Let's start with slide
19 2.

20 The subject of this proceeding is the '018 patent, which you see on
21 the left. The two primary references are Ben-Ze'ev and Leichiner, shown in
22 the middle and on the right side. All three describe the same thing. They
23 describe a universal remote controller that's adaptable in that it can detect
24 devices in the area and then display those detected devices on the screen as

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
