1 JUDGE BISK: Good morning. This is
2 Judge Bisk, and I have Judges Quinn and Chang on
3 the line with me.

4 Can we do a roll call for who is on
5 the line, starting with the patent owner?

6 MR. DONAHUE: Hi, Your Honor. This
7 is Greg Donahue for patent owner, Papst
8 Licensing.

9 JUDGE BISK: Okay. Thank you.

10 And then let's do -- let's go with
11 ZTE. Is ZTE on the phone? We don't have any
12 representative for ZTE, who is the current -- I
13 believe the only petitioner left in 2017-00415.

14 MR. DONAHUE: That's right, Your
15 Honor. This is Greg Donahue, for patent owner,
16 speaking. That's the only one left. I think I
17 remember seeing an e-mail suggesting they don't
18 have a dog in this fight and they may not have
19 anyone that attends. I'm not sure.

20 JUDGE BISK: Okay. I noticed that
21 the motion to terminate as to ZTE came in
22 yesterday, is that correct, for the 415 case?

23 MR. DONAHUE: Yes, Your Honor. I
24 believe it came in for two cases, including the
25 415.

1 JUDGE BISK: Before we move on to
2 the other parties that are on the line, can I
3 ask you a question? I have a couple lingering
4 questions about the ZTE settlement.

5 One question I have is there's
6 another case, 2017-00713, involving ZTE and the
7 same claim for the same patent, or substantive
8 claims at least, but I haven't seen any motion
9 to terminate or request for a motion to
10 terminate in that case. So can you just update
11 me on what is going on with that case?

12 MR. DONAHUE: Your Honor, I'm glad
13 that you brought that to my attention. There
14 should be a request to terminate that. There's
15 a different law firm that's handling that IPR.
16 I will alert them immediately that they need to
17 contact the Board and notify them of their
18 desire to file a motion to terminate and also
19 get permission from the Board to do so.

20 JUDGE BISK: Okay. Thank you.
21 That's kind of what we were figuring. I just
22 wanted to make sure.

23 And while we're talking about those
24 cases, that set of cases, there's one more case,
25 IPR2017-00714. That's the same patent as

1 2017-00443. It looks like that case is going to
2 continue, the 714 case. I believe Samsung is
3 still a petitioner in that case.

4 MR. DONAHUE: Your Honor, this is,
5 again, Greg Donahue for patent owner. I believe
6 that one, unlike the case that we may be talking
7 about here, Olympus and Samsung both joined that
8 proceeding --

9 JUDGE BISK: Okay.

10 MR. DONAHUE: -- in a timely
11 fashion, and, therefore, because Samsung has not
12 settled that one, I think that one is
13 continuing.

14 MS. BEYER: Your Honor, this is
15 Carrie Beyer on behalf of the Samsung
16 petitioner. He's correct. Samsung filed a
17 motion for joinder and was joined into
18 IPR2017-00714, and that one is continuing.

19 JUDGE BISK: Okay. Thank you.

20 We have on our schedule that there's
21 a hearing in February, so I think the only --
22 well, 714 is the only one that has right now a
23 request for oral hearing in that case. Is that
24 true, that we still want to have an oral hearing
25 in that case?

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
