Foreword .....	v
Introduction .....	vi
1 Scope.....	1
2 Normative references .....	1
3 Terms and definitions .....	2
4 Abbreviations .....	10
5 Fundamental requirements .....	11
6 Device description .....	11
6.1 Intended use .....	11
6.2 Design inputs .....	11
6.2.1 Operational specifications .....	11
6.2.2 Performance specifications .....	12
6.2.3 Packaging, labelling, and sterilization .....	13
6.3 Design outputs .....	13
6.3.1 General .....	13
6.3.2 Examples of components of some heart valve substitutes .....	13
6.4 Design transfer (manufacturing qualification) .....	14
6.5 Risk management .....	14
6.5.1 Hazard identification .....	14
6.5.2 Failure mode identification .....	14
6.5.3 Risk estimation .....	15
6.5.4 Risk evaluation .....	15
6.5.5 Risk control .....	15
6.5.6 Risk review .....	15
7 Verification testing and analysis/Design validation .....	15
7.1 General requirements .....	15
7.2 <i>In vitro</i> assessment.....	16
7.2.1 Test conditions, sample selection and reporting requirements .....	16
7.2.2 Material property assessment .....	16
7.2.3 Hydrodynamic performance assessment.....	17
7.2.4 Structural performance assessment.....	18
7.3 Preclinical <i>in vivo</i> evaluation .....	19
7.3.1 Overall requirements .....	19
7.3.2 Methods.....	20
7.3.3 Test report.....	20
7.4 Clinical investigation .....	21
7.4.1 Principle .....	21
7.4.2 General .....	21
7.4.3 Number of institutions.....	21
7.4.4 Number of patients .....	21
7.4.5 Duration of the study .....	22
7.4.6 Clinical data requirements .....	22
7.4.7 Clinical investigation report.....	24
Annex A (informative) Rationale for the provisions of this International Standard .....	26
Annex B (informative) Heart valve substitute hazards, associated failure modes and evaluation methods .....	29
Annex C (informative) Risk assessment guidelines .....	31

<b>Annex D (informative) Examples and definitions of some physical and material properties of heart valve substitutes and their components .....</b>	<b>38</b>
<b>Annex E (informative) Statistical procedures when using performance criteria .....</b>	<b>43</b>
<b>Annex F (informative) <i>In vitro</i> procedures for testing unstented or similar valves in compliant chambers .....</b>	<b>44</b>
<b>Annex G (informative) Preclinical <i>in vivo</i> tests.....</b>	<b>46</b>
<b>Annex H (informative) Echocardiographic protocol.....</b>	<b>49</b>
<b>Annex I (informative) Description of the heart valve substitute.....</b>	<b>52</b>
<b>Annex J (informative) Figures of examples of components of some heart valve substitutes .....</b>	<b>54</b>
<b>Annex K (informative) Examples of standards applicable to testing of materials and components of some heart valve substitutes.....</b>	<b>57</b>
<b>Annex L (informative) Guidelines for verification of hydrodynamic performance .....</b>	<b>63</b>
<b>Annex M (informative) Durability testing .....</b>	<b>69</b>
<b>Annex N (informative) Examples of design specific testing.....</b>	<b>71</b>
<b>Annex O (informative) Fatigue assessment .....</b>	<b>73</b>
<b>Annex P (normative) Packaging.....</b>	<b>77</b>
<b>Annex Q (normative) Labelling and instructions for use .....</b>	<b>78</b>
<b>Annex R (normative) Methods of evaluating clinical data.....</b>	<b>80</b>
<b>Annex S (normative) Sterilization .....</b>	<b>82</b>
<b>Bibliography.....</b>	<b>83</b>

## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

ISO 5840 was prepared by Technical Committee ISO/TC 150, *Implants for surgery*, Subcommittee SC 2, *Cardiovascular implants and extracorporeal systems*.

This fourth edition cancels and replaces the third edition (ISO 5840:1996), which has been technically revised to include risk management.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
