DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 4 and 7 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 2, 10 and 11 of U.S. Patent No. 8,128,243 in view of Davis US 3,826,563.

Claims 1, 4, 7 of the instant application are broader in scope than those of claims 1, 2, 10 and 11 of US 8,128,243 and therefore teach the invention except for the bracket. Davis teaches a bracket (14, Fig. 1) fixedly secured to a motor vehicle. It would have been obvious to one having ordinary skill in the art at the time the invention was made to utilize the bracket as taught by Davis in combination with US 8,128,243 in order to securely fasten the mirror to the vehicle.

Claims 1, 4 and 7 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 and 4 of U.S. Patent No. US 7,934,843 in view of Davis US 3,826,563.

Claims 1, 4, 7 of the instant application are broader in scope than those of claims 1 and 4 of US 7,934,843 and therefore teach the invention except for the bracket. Davis teaches a bracket (14, Fig. 1) fixedly secured to a motor vehicle. Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 4, 5, 7, 8, 10 and 11 are rejected under 35 U.S.C. 102(e) as being anticipated by Lynam et al US 2002/0072026.

The applied reference has a common inventor with the instant application.

Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

In regard to claims 1, 4 and 7, Lynam discloses (see Figs. 2, 5, 6, 8) an exterior rearview mirror assembly for a motor vehicle, said exterior rearview mirror assembly comprising: a bracket (38) fixedly secured to the motor vehicle; a mirror casing (40) secured to said bracket, said mirror casing defining a primary opening; a primary mirror (50) disposed within said primary opening for providing a view rearward of the motor vehicle through a primary field of view, said primary mirror defining a primary plane; a
