

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re *Inter Partes* Review of:)
U.S. Patent No. 8,155,342)
Issued: April 10, 2012)
Application No.: 11/475,847)
Filing Date: June 27, 2006)

For: **Multimedia Device Integration System**

FILED VIA E2E

**DECLARATION OF DR. JOHN M. STRAWN IN SUPPORT OF
PETITION FOR *INTER PARTES* REVIEW
OF U.S. PATENT NO. 8,155,342**

TABLE OF CONTENTS

Table of Contents	i
I. INTRODUCTION.....	6
II. QUALIFICATIONS	6
III. SUMMARY OF MATERIALS REVIEWED AND CONSIDERED.....	10
IV. SUMMARY OF MY OPINIONS.....	12
V. UNDERSTANDING OF LEGAL PRINCIPLES RELEVANT TO OBVIOUSNESS	13
VI. LEVEL OF SKILL IN THE ART AND PERSPECTIVE APPLIED IN THIS DECLARATION	15
VII. THE '342 PATENT	16
A. Overview.....	16
B. Prosecution History Of The '342 Patent.....	17
C. Date When Wireless Communication With A Portable Device Added.....	17
VIII. CLAIM CONSTRUCTION	19
A. “integration subsystem”.....	19
B. “car audio/video system”	20
C. “device presence signal”	20
IX. THE PRIOR ART AND BACKGROUND EVIDENCE.....	21
A. Prior Art Relied Upon For Obviousness Combinations.....	21
1. Simonds (Ex. 1005).....	21
2. Ekstrom (Ex. 1006)	24
3. MOST Specification (Ex. 1007).....	29
X. THE CHALLENGED CLAIMS OF THE '342 PATENT ARE OBVIOUS	35
A. Overview of Challenged Claims.....	35
B. Overview of the Combination	39

1.	The MOST Specification describes obtaining and transmitting information for display and instructing and sending commands to a portable device.....	39
2.	Ekstrom describes formatting data and commands for wireless transmission and receiving audio generated by the portable device for playing on the car audio/video system.	42
C.	Motivation to Combine.....	44
1.	Reasons for implementing the display of information and control of the portable device by the car audio/video system as described by the MOST Specification.....	50
2.	Reasons for implementing the formatting of commands and data and playing of audio generated on the portable device on the car audio/video system as described by Ekstrom.....	54
D.	Independent Claims 49 and 73	57
1.	49[a] and 73[a] Preamble: “A multimedia device integration system, comprising”	57
2.	49[b] and 73[b]: “an integration subsystem in communication with a car audio/video system”	61
a.	49[b(i)] and 73[b(i)] “an integration subsystem”: connecting one or more portable devices or inputs to the car audio/video system via an interface	64
b.	49[b(ii)] and 73[b(ii)] “an integration subsystem”: processing and handling signals, audio, and/or video information	67
c.	49[b(iii)] and 73[b(iii)] “an integration subsystem”: allowing a user to control the one or more portable devices via the car audio/video system	69
d.	49[b(iv)] and 73[b(iv)] “an integration subsystem”: displaying data from the one or more portable devices on the car audio/video system	71
3.	49[c] and 73[c] “a first wireless interface in communication with said integration subsystem, said first wireless interface establishing a wireless communication link with a second wireless interface in communication with a portable device external to the car audio/video system”	74

4.	49[d(i)] and 73[d(i)] “wherein said integration subsystem obtains, using said wireless communication link, information about an audio file [stored on / received by] the portable device”	83
5.	49[d(ii)] and 73[d(ii)] “[said integration subsystem] transmits the information to the car audio/video system for subsequent display of the information on a display of the car audio/video system”	86
6.	49[d(iii)] and 73[d(iii)] “[said integration subsystem] instructs the portable device to play the audio file in response to a user selecting the audio file using controls of the car audio/video system”	89
7.	49[d(iv)] and 73[d(iv)] “[said integration subsystem] receives audio generated by the portable device over said wireless communication link for playing on the car audio/video system.”	94
E.	Independent Claim 97	97
1.	97[a] “A multimedia device integration system, comprising:”	97
2.	97[b] “first and second wireless interfaces establishing a wireless communication link between a car audio/video system and a portable device external to the car audio/video system;”	97
3.	97[c] “an integration subsystem in communication with said wireless communication link,”	98
4.	97[d] “wherein said integration subsystem channels audio generated by the portable device to the car audio/video system using the wireless communication link for subsequent playing of the audio on the car audio/video system, the audio corresponding to an audio file played by the portable device, and”	99
5.	97[e(i)] “wherein said integration subsystem receives a control command issued by a user through one or more controls of the car audio/video system in a format incompatible with the portable device,”	100
6.	97[e(ii)] “processes the control command into a formatted command compatible with the portable device, and”	106
7.	97[e(iii)] “dispatches the formatted command to the portable device for execution thereby.”	108

Strawn Declaration in Support of
Petition for *Inter Partes* Review of USP 8,155,342

F.	Independent Claim 120.....	110
1.	120[a] “A multimedia device integration system, comprising:”	111
2.	120[b] “first and second wireless interfaces establishing a wireless communication link between a car audio/video system and a portable device external to the car audio/video system;”	111
3.	120[c] “an integration subsystem in communication with said wireless communication link,”	111
4.	120[d] “wherein said integration subsystem instructs the portable device to play an audio file in response to a user selecting the audio file using controls of the car audio/video system,”	111
5.	120[e] “wherein said integration subsystem channels audio generated by the portable device to the car audio/video system using the wireless communication link for subsequent playing of the audio on the car audio/video system, the audio corresponding to an audio file played by the portable device, and”	112
6.	120[f(i)] “wherein said integration subsystem receives data generated by the portable device in a format incompatible with the car audio/video system,”	112
7.	120[f(ii)] “processes the data into formatted data compatible with the car audio/video system, and”	115
8.	120[f(iii)] “transmits the processed data to the car audio/video system for subsequent display of the processed data on a display of the car audio/video system.”	116
G.	Integration Subsystem Dependent Claims.....	116
1.	Claims 53 and 77	116
2.	Claims 54, 70, and 78	117
3.	Claims 66 and 94	119
4.	Claim 113	121
H.	Device Presence Signal Dependent Claims (56, 83, and 106)	123
I.	After-Market Device Dependent Claims	130
1.	Claims 62, 86, and 109	130
2.	Claims 63, 87, and 110	130
3.	Claims 64, 88, and 111	131
J.	File Type Dependent Claims	131
1.	Claims 71 and 95	131

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
