For over 25 years the Convergence Transportation Electronics Association (CTEA) has sponsored the premier automotive electronics conference in the world -- Convergence. This conference has continually brought together the leading technologists, engineers, and executives in the world. As Chairman for **Convergence 2000**, I am proud Delphi Automotive Systems is continuing that rich tradition.

The theme for **Convergence 2000** is Automotive Electronics: Delivering Technology's Promise. In my opinion, we have yet to deliver that promise. This conference will provide us the forum to answer: "What must we do as an industry to deliver? What are the major challenges we face as we carry out this formidable challenge? What are our social responsibilities? What are the implications of this infotonics revolution?"

From October 16 - 18, 2000, this conference will showcase three executive panels. Thirteen technical sessions will present at least 75 papers examining everything from smart sensing, mobile information and entertainment to trends, standards and even the "electronic cocoon." **Convergence 2000** will provide a thought-provoking, global forum for more than 6,000+ attendees to participate and learn. Additionally, this conference will *double the exhibit space* of the last conference to showcase over 140 state-of-the-art exhibits. Due to the continued growth and overwhelming interest, Convergence 2000 will **be held, for the first time ever, at Cobo Center in Detroit, Michigan.**

The Keynote speakers for Convergence 2000 are a virtual "who's who" in the electronics and automotive industries. Participants include leading CEOs: Scott McNealy of Sun Microsystems; Shoichiro Irimajiri of Sega Enterprises, Ltd.; Carly Fiorina of Hewlett Packard; and C. Michael Armstrong of AT&T; The conference banquet on Wednesday, October 18 will feature William Ford, Jr., Chairman of the Board of Ford Motor Company.

Electronics, technology and innovation exemplify Convergence. Please make plans now to attend **Convergence 2000: October 16 - 18, 2000 at Cobo Center, Detroit, Michigan.**

J.T. Battenberg III
Chairman, CEO, President
Delphi Automotive Systems and
Chairman, **Convergence 2000**

The Executive Committee for Convergence 2000 would like to thank our sponsors. Through the generous donations of the following companies, elementary students all over America have been introduced to science, engineering and electronics.

Convergence 2000 Sponsors

Gold Sponsors

[Ford Motor Company](#)
[General Motors Corporation](#)
[Motorola, Inc.](#)
[Toyota Motor Corporation](#)
[Visteon Corporation](#)
[Yazaki North America](#)

Back-Page Sponsor: [Visteon Corporation](#)

Moderated And Blue Ribbon Panels Sponsor: [Ford Motor Company](#)

(Monday Evening) Industry Reception Sponsor: [Visteon Corporation](#)

Student Program Sponsor: Convergence Transportation Electronics Association (Ctea)

Press Room Sponsor: [Delphi Automotive Systems](#)

[Sponsorships](#) are still available. All sponsorship monies are tax deductible. Convergence/CTEA is a non-profit industry association. All monies raised from the Convergence Conference are donated to the Convergence Education Foundation (CEF).
