revision 1.8

date: 2003-07-19 15:54:28 -0500; author: davidc; state: dead; lines: +0 -0;

Remove the "demo" directory. This can no longer be built and is no longer our demo. The functionality has been duplicated in "packages/fulldemo".

-----

revision 1.7

date: 2001-11-09 21:11:00 -0600; author: guyc; state: Exp; lines: +2 -1;

Now pulls dll files directly from beads tree instead of from strings/lib. This should make it possible to use this Makefile on the release tree.

-----

revision 1.6
