Table Of Contents

Table Of Contents **3**

Preface **8**
- Document Contributors 8
- Audience 8
- Purpose and Scope 8
  - High-Level Design 8
  - Tradeoff Analysis 9
  - Project Status Update 9
- Documentation Conventions 9
- Terminology 9

Requirements Update **11**
- Scoped Out Requirements 11
  - Playlist Functionality 11
  - WAV & AAC Content 11
  - Buffering To Disk 11
  - Adapter Control Interface 11
  - DHCP 11
  - Dynamic Component Download 11
- Requirements Clarifications 11
  - Scalability 11
  - QOS 12
  - File System Security 12
  - Back-End Service Providers 12
  - Version Information Embedded In Binaries 12
  - Media Server Installation Location 12
  - Sources of Content for Testing 12
  - Adapters Are Not Audio Sources 12
  - Media Server is not an Internet Proxy Server 12
  - Installation Requirements 12
  - Internationalization 13
  - Media Server Hardware 13
  - Adapter Hardware 13
  - Passing Keys To Decryption Interface Libraries 13

High-Level Design **14**
- Overview 14
  - How Juno Processes Requests For Content 14
- Components 15
  - Real Audio SDK 16

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.
