Primary Examiner—John P. Darling

[57] **ABSTRACT**

A resilient parking seat for the leader device of a single reel tape cartridge is provided which works in combination with a tape supply reel lock having discrete, evenly-spaced locking positions. The parking seat includes a cradle assembly, which is shaped to receive the leader device. The cradle assembly, mounted in a recess within a tape access port in the cartridge housing, is linearly slidable between two limiting positions along a path that is approximately coincident with that of the tape as it enters or exits the cartridge housing. The cradle assembly is biased with at least one biasing spring in a tape exiting direction, so that when the tape is completely rewound into the cartridge, the leader device enters the access port, makes contact with the cradle assembly, causing the cradle assembly to slide within the recess and compress the biasing spring(s). Compression of the biasing spring(s) is maintained by a rewind mechanism of a tape drive as the reel lock is engaged. Linear travel of the cradle assembly is sufficient to overcome any slack that might ordinarily be introduced into the tape by disengaging the cartridge from the rewind mechanism. The resilient parking seat also reduces the shock forces to which the tape is subjected as the leader device slams into the parking seat at the end of a rewind operation. A large portion of the momentum of the spinning supply reel loaded with the rewound tape and of the leader device is absorbed by compressing the biasing spring(s), momentum which would otherwise be absorbed by stretching the tape.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
