STANDARD ECMA-196

**DATA INTERCHANGE ON 12,7 mm 36 TRACKS
MAGNETIC TAPE CARTRIDGES**

December 1993

Brief history

ECMA has produced a series of 14 ECMA Standards for cassettes and cartridges containing magnetic tapes of different widths and characteristics. Among them are the following Standards for 12,7 mm tape.

ECMA-120 (1993): Data Interchange on 12,7 mm 18-Track Magnetic Tape Cartridges

ECMA-152 (1993): Data Interchange on 12,7 mm 18-Track Magnetic Tape Cartridges - Extended Format

ECMA-182 (1992): Data Interchange on 12,7 mm 48-Track Magnetic Tape Cartridges - DLT 1 Format -

ECMA-197 (1993): Data Interchange on 12,7 mm 112-Track Magnetic Tape Cartridges - DLT 2 Format -

This ECMA Standard is related to further developments of cartridges containing 12,7 mm magnetic tape. It incorporates most of the requirements of Standard ECMA-152, together with extensions and modifications which specify the additional features that allow higher capacities to be achieved.

Two types of cartridge are defined within this Standard. For one of the types, the requirements for the case and the tape are identical with those in Standard ECMA-152. The second type conforms to different requirements which are defined in this Standard. This Standard also specifies a recording method and format for use with either type.

It is not intended that this Standard replaces Standard ECMA-152. Existing cartridges which conform to Standard ECMA-152 will continue to do so and will not conform to all the requirements of this Standard. Drives which write and read according to this Standard may have the ability to accept and read cartridges conforming to Standard ECMA-120 or ECMA-152.

Adopted as an ECMA Standard by the General Assembly of December 1993.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
