VI. Conclusion	72

I, Mingshao Zhang, declare as follows:

1. I have been asked to provide a declaration regarding certain aspects of U.S. Patent No. 6,809,490 (“the ‘490 Patent”) addressed below, which I understand is the subject of the present *inter partes* review proceeding.

I. BACKGROUND AND EXPERIENCE

2. I am over the age of 18 and am competent to offer this Declaration. I have personal knowledge, or have developed knowledge of these technologies based upon education, training, or experience, of the matters set forth herein.

A. General Work Experience and Professional Background

3. I currently act as an assistant professor at Southern Illinois University Edwardsville. I have a very broad and deep understanding of robotics technologies as it relates to design, mechanisms, sensing, control as well as electronics and software systems utilized in mobile robots. I have taught many undergraduate classes including Engineering Problem Solving and Sensors and Actuators. As such I am very well versed with complete system design and with all their components such as motors, drivetrains, power-systems, user-interfaces, wireless communication systems, sensors, controls (hardware and software), electronics and microprocessors, and have an appreciation of the history of development in the field of robotics since its nascent years. All this experience is covered in my curriculum

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
