Intelligent Networking Between PCs and Macs

PC MACLAN For Windows 95

Item Name: PC MACLAN For Windows 95
Item Number: [unreadable]
Description: For Windows 95
Platforms/Version Available: Windows 95

To add an item to your Shopping Basket, click on the platform.

One Powerful Networking Resource

PC MACLAN for Windows 95 is the only software product that provides networking between Windows 95 and Mac OS. Its 32-bit server technology allows users to share files, printers, drives bi-directionally.

How PC MACLAN Works

PC MACLAN installs AppleShare client and server functions on the Windows 95 machine, giving the PC and Mac user unmatched cross-platform sharing capabilities.

As a File and Print Client...

Windows 95 PCs simply view and access Macintosh direct-attached drives, AppleTalk printers and other network resources by appropriate icons in the Network Neighborhood browser. PCs read Mac files in their original long file name format.

As a File and Print Server...

PCs share their files, drives, disks (including CD-ROM) and PostScript printers with Macs through the familiar Macintosh File Sharing protocol.

Attention Web Artists and Designers....Up for an exhibition?

Digital Frontiers is looking for great art - maybe yours - to illustrate the color reduction capabilities of HVS (tm) Color. Please email us your website address and we'll visit, peruse and possibly choose something for our gallery! We would be most pleased to offer you a copy of HVS Color in exchange for art we find suitable.

HVS Color is a ground breaking plugin for Adobe Photoshop that allows you to convert 24-bit images to 8-bit in quality. Its patented psychovisual algorithm models the way the human visual system perceives and masks colors. The results are truly stunning. HVS Color has realistic photographic images as GIF files. All the advantages are less than a third the size! And because HVS Color achieves true color dithering, your GIF files will compress up to 70% better, making it a great time for your web pages. HVS Color also adds more sophisticated capabilities to HVS WebFocus -- together, they make an unbeatable development toolkit!
