24 hours of eye allergy itch relief in one drop with PAZEO® Solution

PAZEO® Solution is the only FDA-approved prescription eye drop proven to show 24 hours of eye allergy itch relief in one drop¹

In clinical studies, once-daily PAZEO® Solution showed improved eye allergy itch relief at 24 hours (though not shortly after a drop was put in) compared to once-daily PATADAY® (olopatadine hydrochloride ophthalmic solution) 0.2%, the #1 prescribed allergy eye drop^{1,2*}

Ask your doctor if once-daily PAZEO® Solution is right for you.
