Curriculum Vitae John M. Strawn, Ph.D. (contact information on last page)

Professional Profile

Several decades of involvement in software, digital audio, digital music, digital signal processing, and processor architecture. Successful independent software consultant in high-level languages and assembly language. Seasoned testifying expert with litigation experience (patent, copyright, trade secret, class action), skilled at explaining complex ideas to attorneys and juries. Stanford Ph.D. Former Fulbright Scholar. Prolific author. Experienced manager with long-range research and development experience. Facile with foreign languages and working with people from outside the USA. My online resume (http://www.s-systems-inc.com/resume) has links relating to items listed here.

Professional Experience

- From: 1992 S Systems, Inc.
- To: Present Larkspur, CA

DOCKE.

Position: Owner and Full-time Consultant

Duties: Full-time independent consultant:

- **Programming** hand-crafted audio and music software for signal processing, written in C, C++, JAVA, and especially assembly language for digital signal processing chips. Consulting on processor architecture and networking. See Consulting Assignments, below.
- Testifying Expert witness in patent and copyright litigation relating to software and source code, digital devices, processor architecture, media, compression, signal processing and client/server interactions. See Expert Witness section, below.

| From: To: | 1987 1991 Position: Duties: | Yamaha Music Technologies USA Larkspur, CA 1989-1991: President; 1987-1989: Vice President Helped establish and manage a nine-person Ph.Dlevel research group, including site search, architectural design, construction, move-in, and hiring. Conducted original research on electronic musical instruments, software, micromachining, networking, and recent technological developments. Extensive experience designing scientific, engineering, and musical object-oriented applications, especially C++ (UNIX). Research on Yamaha's Vocaloid started in this group. Patent listed below. |
|--------------|--------------------------------------|--|
| From: | 1986 | S Systems |
| To: | 1988 | Larkspur, CA |
| | Position: | Owner and Full-time Consultant |

Duties: This was my first stint as a consultant. See Consulting Assignments, below.

CV of John Strawn, Ph.D., p. 1, Revised 4/18/2018

From: 1985 Lucasfilm/Droid Works

To:

DOCKE

1986 San Rafael, CA

Position: Programmer

Duties: Full-time programming experience as an employee, designing signalprocessing modules and writing (96-bit VLIW) microcode for the ASP/SoundDroid developed by James A. Moorer. Experience in audio and video post-production. Extensive work in C (Unix). Another six months full-time experience writing tightly packed assembly code for the TI TMS32010 signal processor, especially for a two-channel hard-disk audio record playback unit that played without bugs on the exhibit floor of the National Association of Broadcasters convention, 1986.

From: 1976 Stanford University

To: 1985 Stanford, CA

Position: Doctoral Student

- Duties: Nine years programming experience developing code in high-level languages (Algol, Fortran, SAIL) and PDP-10 assembly language for musical and audio signal processing applications during doctoral thesis work. My Ph.D. dissertation (*Modeling Musical Transitions*, 1985) involved original published research in spline fitting and pattern recognition, a 30,000-line two- and three-dimensional graphical editor for waveforms and spectra, implementation (with John Gordon) of the short-time Fourier transform, device drivers, and libraries for graphic user interfaces. Also part-time consulting work:
 - SRI International (FORTRAN for mechanical engineering).
 - Mattel Electronics (music in consumer electronic toys).
 - IntelliGenetics (ALGOL-like code for biotechnology).
 - Digital Keyboards (product specification and complete manuals for GDS and Synergy Synthesizers).

From:1972RevoxTo:1972Long Island, New YorkPosition:Summer internDuties:Solder cables, write German- and Dutch-English translations, manufacture
PC boards, assemble hardware.

CV of John Strawn, Ph.D., p. 2, Revised 4/18/2018

Education and Training

| Year | College/University | Degree |
|---------------|---------------------------|--|
| 1985 | Stanford | Ph.D., CCRMA. Advisor: John Chowning. Graduate course work in music, computer and processor architecture, high-level and assembly-language programming, digital audio, digital signal processing, acoustics, psychoacoustics, and digital hardware. Dissertation on analysis of music instruments with the short-time Fourier transform. Software development experience listed elsewhere in this resume. |
| 1975- | IBM Thomas Watson | Grant to study electronic music, Tokyo, Japan, 1976. |
| 1976 | Foundation | Live performances on piano and Roland System 700 analog synthesizer. Also travel through Turkey, Iran, Afghanistan, Pakistan, India, Thailand, and Hong Kong. |
| 1973- | Technical University, | Fulbright Scholar. Graduate-level coursework in |
| 1975 | Berlin | music theory/history, audio engineering, electronics, information theory, cybernetics, Japanese; all coursework in German. Extensive recording studio and live concert sound reinforcement experience. PDP-11 and PDP-8 assembly and machine language. Travel throughout Europe. |
| 1968- 1973 | Oberlin | B. Mus, double degree in organ performance and music theory. Exchange semester, University of Hamburg, Germany, 1971, course work in German literature and psychology. Experience with analog synthesizers and digital music synthesis, BASIC, FORTRAN, MUSIC V on an IBM 360. |

Expertise

- Testifying expert witness (including expert reports, deposition).
- Software analysis for litigation including patent, copyright, trade secret, software theft.
- Implement/optimize signal processing algorithms: Fourier transform (FFT), discrete cosine transform (DCT), DTMF, speech synthesis.
- Port/optimize audio compression algorithms: AC-3, MP-3, AAC.
- Implement audio algorithms: reverberator, pitch shifter, sample rate converter, compressor, filter, flanger, 3-d audio (Dolby surround), dither.
- Implement music synthesis (additive, physical modeling, wavetable, FM).
- Create bug-free software from academic signal processing research.
- Work in floating- and fixed-point math.
- Assembler, object-oriented, C, C++, HTML, XML, Javascript, SQL.
- Extensive experience optimizing code in assembler
- PC, Mac, Unix.

DOCKE

CV of John Strawn, Ph.D., p. 3, Revised 4/18/2018

- DSP architectures: Motorola 56000, 56300, and 56800 families; TI TMS320C10 and TMS320C54 family; Code Composer Studio; Analog Devices 21xx family and TigerSharc; VLIW; custom processors; I learn new architectures quickly.
- Embedded processors: Hitachi SH-DSP, SH3-DSP, SH-4, and SH-5; ARM7/ARM9; configurable processors (Tensilica).
- Processor architecture.
- Debugging hardware prototypes.
- Audio networks, such as AES/EBU (IEC 60958), IEEE-1394/FireWire, AV/C, 61883, mLan, and others.
- File downloading.

DOCKE.

- Practical audio experience in live sound and in studios.
- Functionally bilingual in German; able to read French, Dutch; some Japanese

Expert Witness and Litigation Support Experience

Summary: 17 depositions to date, 3 times testimony at trial, 4 sets of IPR declarations. Patent litigation, ITC investigations, Inter Partes Reviews, USPTO declarations, class action litigation, trade secret litigation, copyright litigation involving software. Expert reports, declarations, prior art research and analysis, infringement analysis (*e.g.*, analyze devices, documents; source code analysis, source code comparison), claim charts, tutorials, Markman hearings. Technical areas include software and source code; computers, laptops, cell phones, mobile devices, handheld devices (*e.g.*, medical); processor architecture; user interfaces; media: audio, music, speech, video; compression (*e.g.*, MPEG, MP3); digital signal processing, mathematics, algorithms; file downloading, file streaming, client/server; protocols such as internet protocol (IP); video games. Links available online (http://www.s-systems-inc.com/hi-tech-litigation-expert-witness/).

| Date: | 2018 - present | DLA Piper |
|-------|-------------------|--|
| | Case: | MONKEYmedia v. Samsung, TXED-2-17-cv-00460. |
| | Project: | Several patents relating to playback of stored interactive multimedia. |
| | | Declaration and deposition for Markman. |
| Date: | 2017 - present | Latham Watkins |
| | Case: | Inter Partes review for Jaguar Land Rover. |
| | Project: | Patent owned by Blitzsafe related to car multimedia device integration. Research. Invalidity declaration re 40 petitioned claims. (IPR2018-00544). |
| Date: | 2017 - | Lilenfeld PC |
| Dute. | present | |
| | Case: | Atlantic Recording Corporation et al. v. <u>Spinrilla et al.</u> , GAND 1-17-cv-00431. |
| | Project: | Analyze Ruby source code for hip hop music web site. Evaluate methods for identifying sound recordings. Engaged by defendants accused of copyright infringement. Expert report, deposition. |

CV of John Strawn, Ph.D., p. 4, Revised 4/18/2018

| Date: | 2017 - present | Katten Muchin Rosenman |
|-------|--------------------|--|
| | Case: | Rogue Wave Software v. <u>BTI Systems and Juniper Networks</u> , NYSD-1-16-cv-07772. |
| | Project: | Analyze Java source code involving graphic user interfaces and remote control of Internet hardware. Compare versions of source code. Reconstruct source code from obfuscated deposit copy filed with US Copyright Office. Engaged by defendants accused of copyright infringement. Two expert reports . |
| Date: | 2017 Case: | Coberly Law; Paine Bickers Artemetrx, Specialty Drug Solutions, and Pharmaceutical Strategies Group, v. <u>Archimedes</u> et al.; Davidson County Chancery Court, Nashville, TN, Case No. 16-0913-II. |
| | Project: | Analyze SQL source code and databases involving pharmaceutical billing, engaged by defendants accused of misappropriation of trade secrets. |
| Date: | 2016 - 2017 | Fish, Richardson |
| | Case: Project: | Two Inter Partes Reviews for <u>Samsung.</u> Patent owned by Tivo related to real-time audio/video streaming, recording and playback, and DVR (set top box) architecture. Research. Invalidity declaration re 2 petitioned claims. (IPR2016-01524; IPR2016- 01712). Related district court case (TXED-2-15-cv-01503) settled 2 months after 2nd IPR was filed, and IPRs were terminated before institution. |
| Date: | 2016 - 2017 | Perkins Coie |
| | Case: Project: | Crest Audio v. <u>QSC Audio Products</u> , MSSD-3-12-cv-00755 Analysis relating to claim construction and non-infringement for two amplifier patents. |
| Date: | 2015 - 16 Case: | Denko, Coburn, Lauff Andrea v. <u>Intervenor Waves</u> (Israel) and <u>Respondent Dell</u> , ITC 337-TA- 949 |
| | Project: | Patents related to noise reduction, adaptive filtering, and echo cancellation for speech in laptops. Source code analysis (C, C++). Compare versions of source code. Expert report on non-infringement, two patents. Deposition. |
| Date: | 2014 - 16 Case: | Orrick Blue Spike v. Texas Instruments, TXED 6-12-cv-00499, for lead defendant <u>Audible Magic</u> . |
| | Project: | Patents related to automatic recognition of video and audio based on signal processing and human perception. Source code analysis (C, C++, |

DOCKET A L A R M

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
