

UNITED STATES PATENT AND TRADEMARK OFFICE

BEFORE THE PATENT TRIAL AND APPEAL BOARD

NEPTUNE GENERICS, LLC
Petitioner,

v.

CORCEPT THERAPEUTICS, INC.
Patent Owner.

Case IPR2018-01494
Patent No. 8,921,348 B2

**NEPTUNE GENERICS, LLC'S MOTION TO SUBMIT
LABELED EXHIBITS AND CORRECT EXHIBIT 1008**

I. RELIEF REQUESTED

Petitioner Neptune Generics, LLC hereby requests entry of attached labeled Exhibits 1001-1034 to replace Exhibits 1001-1034 filed with the original Petition for *Inter Partes* Review filed in this case on August 2, 2018. The Board may, in its own judgment, after correction, expunge the Exhibits filed with the original Petition.

II. STATEMENT OF FACTS AND REASONS FOR THIS MOTION

Petitioner electronically filed the original Petition in this case on August 2, 2018, along with Exhibits 1001-1034. The original Exhibits were inadvertently improperly labeled in accordance with 37 C.F.R. § 42.63(d). In addition, the electronically-filed version of Exhibit 1008 was inadvertently misfiled – it was, in fact, a duplicate of Exhibit 1007, and not Exhibit 1008.

On August 23, 2018, the Board issued Paper No. 3 in this case, according to the Petition the filing date of August 2, 2018, but also stating that “the Petitioner must label each exhibit and correctly file Exhibit 1008. After correction, each exhibit filed August 2, 2018, will be expunged.” Paper No. 3 at 2. “Petitioner must correct the defect(s) within FIVE BUSINESS DAYS from this notice. Failure to correct the defect(s) may result in an order to show cause as to why the Board should institute the trial.” *Id.*

Accordingly, Petitioner now timely files this motion along with the correct and properly labeled Exhibits 1001-1034 in response to the Board’s direction. The Table of Exhibits from the original Petition is reproduced below. Petitioner respectfully requests that the Board grant this motion and enter attached Exhibits 1001-1034 into the record.

Date: August 28, 2018

Respectfully Submitted,

By: /Kenneth M. Goldman/

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
