COMPLAINT FOR PATENT INFRINGEMENT

Plaintiff Inventergy, Inc. (“Inventergy”) files this Complaint against HTC Corporation and HTC America, Inc. (collectively “Defendant” or “HTC”). Inventergy alleges as follows:

NATURE OF THE ACTION

1. Inventergy brings this patent infringement action to protect its intellectual property and stop Defendant from continuing its wrongful and unlicensed use of Inventergy’s patented technologies within and in conjunction with Defendant’s mobile phones, phablets, and tablets, among other devices.
2. Inventergy is an investment and licensing company that helps industry leaders protect their most valuable intellectual property. Inventergy has been repeatedly recognized for its ability to create value through its strategic insight into the development, creation, and management of intellectual property.

3. Inventergy owns a robust patent portfolio comprising hundreds of patents embodying decades of innovation, investment and effort by numerous companies, inventors, and engineers. Inventergy encourages innovation through proper channels by licensing its intellectual property within the marketplace, but enforces its patent rights when necessary to protect its own investment, along with the hard work of the inventors of that intellectual property, from unauthorized use.

4. Inventergy's patent portfolio includes patents related to mobile telecommunications and wireless technology, including, but not limited to EDGE/3G/LTE user devices and base stations.

5. Defendant provides certain products and services, including but not limited to its mobile phones, and tablets, among other devices. Products sold by Defendant include, but are not limited to, the devices listed in Appendix A. Defendant's products and related services make use of Inventergy's patented technology and infringe the following United States patents ("the Asserted Patents"):

- a. U.S. Patent No. 6,466,563 ("the '563 Patent"), titled "CDMA Mobile Station and CDMA Transmission Method" (Exhibit A attached hereto);
- b. U.S. Patent No. 6,611,676 ("the '676 Patent"), titled "Radio Communication Apparatus and Transmission Rate Control Method" (Exhibit B attached hereto);
- c. U.S. Patent No. 7,206,587 ("the '587 Patent"), titled "Communication Terminal Apparatus, Base Station Apparatus, and Radio Communication Method" (Exhibit C attached hereto);

- d. U.S. Patent No. 7,760,815 (“the ‘815 Patent”), titled “Apparatus and Method for Transmission/Reception” (Exhibit D attached hereto);
- e. U.S. Patent No. 7,764,711 (“the ‘711 Patent”), titled “CDMA Transmission Apparatus and CDMA Transmission Method” (Exhibit E attached hereto);
- f. U.S. Patent No. 7,848,439 (“the ‘439 Patent”), titled “Communication Apparatus, Communication System, and Communication Method” (Exhibit F attached hereto); and
- g. U.S. Patent No. 6,760,590 (“the ‘590 Patent”), titled “Communication Terminal Apparatus, Base Station Apparatus, and Radio Communication Method” (Exhibit G attached hereto).

6. Accordingly, Inventergy seeks damages in an amount adequate to compensate them for Defendant’s infringement, including trebled damages based on Defendant’s willful infringement of the Asserted Patents, a permanent injunction barring Defendant from continuing to infringe the Asserted Patents, and Inventergy’s attorneys’ fees and costs associated with this action.
