Message:  Dissertation Gils.pdf (125 KB)

Dear Mr Heinisch,

Mrs. Bartsch had already forwarded me your request for reasons of competence. I am sorry that you had to ask again.

Unfortunately, we cannot send you a letter with the content suggested in the attachment to your e-mail.

The concerned dissertation was incorporated in our library more than 30 years back and we cannot guarantee that the rules of cataloging have not changed since then.

Also, since 1988 the catalog has been converted from a card index to an electronic index (OPAC).

However, I can send you the copy of concerned title record from our composite card index system, as an enclosure. Two categories are marked in red therein, which contain a date. Both are local categories that concern only our library. The category 4900 is thereby the date of our first issue.

I hope to have helped you.

Best regards,

On behalf of

Andreas Lütjen

Dear Mrs Bartsch,

I wanted to ensure that you have received my mail. If you have any further queries, I would be happy to call you. I would also be grateful if you could send me a letter with the content suggested in the attachment.

Thank you.
Best Regards,

Oliver Heinisch

Dear Mrs Bartsch,

As discussed on phone, I am sending you the draft of a letter with text, which an employee of TIB could sign if possible. The text can, of course, be modified as long as the core information is still included.

The signing person should have ideally

1. worked in the TIB in 1988 and should have been responsible for catalog and inventory management; or
2. should have knowledge about catalog and inventory management at that time. This could be for example an immediate successor of the person mentioned under 1. or
3. someone who can generally provide information on the inventory management and card index recording process of TIB, including the process at that time.

Of course, we will bear all costs associated with this query.

I thank you for your cooperation and support.

With Best Regards,

Oliver Heinisch

Sehr geehrter Herr Heinisch,

Frau Bartsch hatte Ihre Anfrage bereits zuständigkeithalber an mich weitergeleitet. Entschuldigen Sie bitte, dass Sie erneut nachfragen mussten.

Ein Schreiben mit dem im Anhang Ihrer E-Mail vorgeschlagenen Inhalt können wir Ihnen leider nicht zukommen lassen.

Die betreffende Dissertation wurde vor über 30 Jahren in unserer Bibliothek eingearbeitet und wir können nicht dafür garantieren, dass sich seitdem die Katalogisierungsregeln nicht geändert haben.

Auch wurde der Katalog seit 1988 zwischenzeitig vom Zettelkatalog auf einen elektronischen Katalog (OPAC) umgestellt.

Was ich Ihnen jedoch zusenden kann, ist die in der Anlage befindliche Kopie der betreffenden Titelaufnahme aus unserem Verbundkatalogisierungssystem. Darin sind zwei Kategorien in rot markiert, die ein Datum enthalten. Beides sind lokale Kategorien, die nur unsere Bibliothek betreffen. Die Kategorie 4900 ist dabei das Datum unserer Ersterfassung.

Ich hoffe, Ihnen damit weitergeholfen zu haben.

Mit freundlichen Grüßen

Im Auftrag

Andreas Lütjen

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
