The promotion date is 5 January 1988, and the day after the promotion, a hard copy was available in the library.

Kind regards,

John Engels
Eindhoven University of Technology

Description of question / problem: I would like to know when the thesis "Design of error-control coding schemes for three problems of noisy information transmission, storage and processing" by Willibrordus Johannes van Gils, at <https://research.tue.nl/en/publications/design-of-error-control-coding-schemes-for-three-problems-of-nois> was first publicly available for viewing or check out at the library? I know that it was published in 1988, but what I need to know is when it was first available for viewing at the library. Thanks.
