

<i>BLUETOOTH</i> ® DOC	Date / Year-Month-Day 2015-12-15	Approved Adopted	Revision v1.3.1	Document No FTP_SPEC
Prepared By BARB	E-mail Address <a href="mailto:barb-main@bluetooth.org">barb-main@bluetooth.org</a>			N.B.

## FILE TRANSFER PROFILE

### Abstract:

This application profile defines the requirements for *Bluetooth*® devices necessary for the support of the File Transfer usage model. The requirements are expressed in terms of end-user services, and by defining the features and procedures that are required for interoperability between Bluetooth devices in the File Transfer usage model.

## Revision History

Revision	Date	Description
Version 1.1	22 February 2001	First record for this revision history.
D12r00	15 August 2005	Reformatted document and converted source document to Microsoft Word.
D12r01	13 September 2005	Editorial updates
D12r02	31 October 2005	Editorial updates
D12r03	10 November 2005	Editorial updates
D12r04	30 November 2005	Editorial updates
D12r05	20 March 2006	Input reviewer's comments
D12r06	11 July 2007	Change must to shall, updated disclaimer,
D12r07	01 Oct 2007	Update CR
D12r07	10 July 2009	Initial version implementing functionality in OBEX Application Enhancements D1PD
D12r08	16 July 2009	Moved L2CAP AMP text into informative appendix; other changes from WG feedback.
D12r09	23 July 2009	Updated contributors list and incorporated additional changes from WG
D12r10	24 July 2009	Changed text describing optional use or action commands based on WG input. Incorporated changes for errata 2496. Minor formatting edits.
D12r11	20 August 2009	Editorial changes based on WG input and fixed incorrect values in tables. Removed section on SDP PDUs and other edit to conform with same changes in OPP spec.
D12r12	21 August 2009	Minor edits, Added SESSION to OBEX operation table. Added new section to provide a blanket statement about OBEX response codes.
D12r13	17 December 2009	Incorporated changes post BARB review of OPP spec
D12r14	11 January 2010	Edit pass to fix typos
D12r15	17 January 2010	Cleanup for BARB review
D12r169	16 February 2010	Incorporated BARB comments
D12r17	19 February 2010	Incorporated additional BARB comments
D2r18	19 February 2010	Fixed formatting error, spelling mistakes and consistency in terminology
D2r19	11 March 2010	Incorporated additional BARB comments
D2r20	3 June 2010	Incorporated OBEX WG comments and added/corrected some references and formatting.
D2r21	7 June 2010	Add comments from BS OPP review in Appendix
D2r22	18 June 2010	Include BARB review comments
V12r00	26 August 2010	Adopted by the Bluetooth SIG Board of Directors
D13r00	23 January 2012	ESR05: E3944, Table 5.1
D13r01	26 March 2012	Address reviewers' (KK, TB, TH) comments; Change Connect operation->CONNECT operation
D13r02	30 April 2012	Default Value version number change to 0x0103 Value changed from 1.2 to 0x0103
V13	24 July 2012	Adopted by the Bluetooth SIG Board of Directors
d131	19 November 2015	ESR09 (integrated E4143 and E5557)
v131	15 December 2015	Adopted by the Bluetooth SIG BoD

**DISCLAIMER AND COPYRIGHT NOTICE**

This disclaimer applies to all draft specifications and final specifications adopted by the Bluetooth SIG Board of Directors (both of which are hereinafter referred to herein as a Bluetooth "Specification"). Your use of this Specification in any way is subject to your compliance with all conditions of such use, and your acceptance of all disclaimers and limitations as to such use, contained in this Specification. Any user of this Specification is advised to seek appropriate legal, engineering or other professional advice regarding the use, interpretation or effect of this Specification on any matters discussed in this Specification.

Use of Bluetooth Specifications and any related intellectual property is governed by the Promoters Membership Agreement among the Promoter Members and Bluetooth SIG (the "Promoters Agreement"), certain membership agreements between Bluetooth SIG and its Adopter and Associate Members, including, but not limited to, the Membership Application, the Bluetooth Patent/Copyright License Agreement and the Bluetooth Trademark License Agreement (collectively, the "Membership Agreements") and the Bluetooth Specification Early Adopters Agreements (1.2 Early Adopters Agreements) among Early Adopter members of the unincorporated Bluetooth SIG and the Promoter Members (the "Early Adopters Agreement"). Certain rights and obligations of the Promoter Members under the Early Adopters Agreements have been assigned to Bluetooth SIG by the Promoter Members.

Use of the Specification by anyone who is not a member of Bluetooth SIG or a party to an Early Adopters Agreement (each such person or party, a "Member") is prohibited. The use of any portion of a Bluetooth Specification may involve the use of intellectual property rights ("IPR"), including pending or issued patents, or copyrights or other rights. Bluetooth SIG has made no search or investigation for such rights and disclaims any undertaking or duty to do so. The legal rights and obligations of each Member are governed by the applicable Membership Agreements, Early Adopters Agreement or Promoters Agreement. No license, express or implied, by estoppel or otherwise, to any intellectual property rights are granted herein.

Any use of the Specification not in compliance with the terms of the applicable Membership Agreements, Early Adopters Agreement or Promoters Agreement is prohibited and any such prohibited use may result in (i) termination of the applicable Membership Agreements or Early Adopters Agreement and (ii) liability claims by Bluetooth SIG or any of its Members for patent, copyright and/or trademark infringement claims permitted by the applicable agreement or by applicable law.

THE SPECIFICATION IS PROVIDED "AS IS" WITH NO WARRANTIES WHATSOEVER, INCLUDING ANY WARRANTY OF MERCHANTABILITY, NONINFRINGEMENT, FITNESS FOR ANY PARTICULAR PURPOSE, SATISFACTORY QUALITY, OR REASONABLE SKILL OR CARE, OR ANY WARRANTY ARISING OUT OF ANY COURSE OF DEALING, USAGE, TRADE PRACTICE, PROPOSAL, SPECIFICATION OR SAMPLE.

Each Member hereby acknowledges that products equipped with the Bluetooth wireless technology ("Bluetooth Products") may be subject to various regulatory controls under the laws and regulations applicable to products using wireless non licensed spectrum of various governments worldwide. Such laws and regulatory controls may govern, among other things, the combination, operation, use, implementation and distribution of Bluetooth Products. Examples of such laws and regulatory controls include, but are not limited to, airline regulatory controls, telecommunications regulations, technology transfer controls and health and safety regulations. Each Member is solely responsible for the compliance by their Bluetooth Products with any such laws and regulations and for obtaining any and all required authorizations, permits, or licenses for their Bluetooth Products related to such regulations within the applicable jurisdictions. Each Member acknowledges that nothing in the Specification provides any information or assistance in connection with securing such compliance, authorizations or licenses. NOTHING IN THE SPECIFICATION CREATES ANY WARRANTIES, EITHER EXPRESS OR IMPLIED, REGARDING SUCH LAWS OR REGULATIONS.

ALL LIABILITY, INCLUDING LIABILITY FOR INFRINGEMENT OF ANY INTELLECTUAL PROPERTY RIGHTS OR FOR NONCOMPLIANCE WITH LAWS, RELATING TO USE OF THE SPECIFICATION IS EXPRESSLY DISCLAIMED. To the extent not prohibited by law, in no event will Bluetooth SIG or its Members or their affiliates be liable for any damages, including without limitation, lost revenue, profits, data or programs, or business interruption, or for special, indirect, consequential, incidental or punitive damages, however caused and regardless of the theory of liability, arising out of or related to any furnishing, practicing, modifying, use or the performance or implementation of the contents of this Specification, even if Bluetooth SIG or its Members or their affiliates have been advised of the possibility of such damages. BY USE OF THE SPECIFICATION, EACH MEMBER EXPRESSLY WAIVES ANY CLAIM AGAINST BLUETOOTH SIG AND ITS MEMBERS OR THEIR AFFILIATES RELATED TO USE OF THE SPECIFICATION.

If this Specification is an intermediate draft, it is for comment only. No products should be designed based on it except solely to verify the prototyping specification at SIG sponsored IOP events and it does not represent any commitment to release or implement any portion of the intermediate draft, which may be withdrawn, modified, or replaced at any time in the adopted Specification.

Bluetooth SIG reserves the right to adopt any changes or alterations to the Specification it deems necessary or appropriate.

Ltd., Intel Corporation, Microsoft Corporation, Apple Inc., Nokia Corporation and Toshiba Corporation. Other third-party brands and names are the property of their respective owners.**

## Document Terminology

The Bluetooth SIG has adopted portions of the IEEE Standards Style Manual, which dictates use of the words “shall,” “should,” “may,” and “can,” in the development of documentation, as follows:

- The word shall is used to indicate mandatory requirements strictly to be followed in order to conform to the standard and from which no deviation is permitted (shall equals is required to).
- The use of the word must is deprecated and shall not be used when stating mandatory requirements; must is used only to describe unavoidable situations.
- The use of the word will is deprecated and shall not be used when stating mandatory requirements; will is only used in statements of fact.
- The word should is used to indicate that among several possibilities one is recommended as particularly suitable, without mentioning or excluding others; or that a certain course of action is preferred but not necessarily required; or that (in the negative form) a certain course of action is deprecated but not prohibited (should equals is recommended that).
- The word may is used to indicate a course of action permissible within the limits of the standard (may equals is permitted).
- The word can is used for statements of possibility and capability, whether material, physical, or causal (can equals is able to)

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
