AMENDMENT AND REPLY

This Amendment and Reply is in response to the non-final Office Action dated May 23, 2012.

Amendments to the Claims begin on page **A** of this paper.

A Listing of the Status of Claims and Support for the New Claims begins on page **2** of this paper.

Remarks begin on page **3** of this paper.

Amendments to the Claims

Pursuant to 37 CFR 1.530 (d)(2) and (f)(2), please add the following proposed new claims:

42. (New) The method of claim 1, wherein the plurality of attributes of the object includes at least one spatial attribute.

43. (New) The method of claim 1, wherein the plurality of attributes of the object includes a color of the object.

44. (New) The method of claim 1, wherein the plurality of attributes of the object includes a size of the object.

45. (New) The method of claim 1, wherein the plurality of attributes of the object includes at least one of a velocity and a speed of the object.

46. (New) The method of claim 1, wherein the plurality of attributes of the object includes a position of the object.

47. (New) The method of claim 1, wherein the plurality of attributes of the object includes a trajectory of the object.

48. (New) The method of claim 1, wherein the plurality of attributes of the object includes a classification of the object.

49. (New) The method of claim 1, wherein the plurality of attributes of the object includes a shape of the object.

50. (New) The method of claim 8, wherein the plurality of attributes includes at least one spatial attribute.

51. (New) The method of claim 8, wherein the plurality of attributes includes a color of the first or second object.

52. (New) The method of claim 8, wherein the plurality of attributes includes a size of the first or second object.

53. (New) The method of claim 8, wherein the plurality of attributes includes at least one of a velocity and a speed of the first or second object.

54. (New) The method of claim 8, wherein the plurality of attributes includes a position of the first or second object.

55. (New) The method of claim 8, wherein the plurality of attributes includes a trajectory of the first or second object.

56. (New) The method of claim 8, wherein the plurality of attributes includes a classification of the first or second object.

57. (New) The method of claim 8, wherein the plurality of attributes includes a shape of the first or second object.

58. (New) The video device of claim 9, wherein the plurality of attributes of the object includes at least one spatial attribute.

59. (New) The video device of claim 9, wherein the plurality of attributes of the object includes a color of the object.

60. (New) The video device of claim 9, wherein the plurality of attributes of the object includes a size of the object.

61. (New) The video device of claim 9, wherein the plurality of attributes of the object includes at least one of a velocity and a speed of the object.

62. (New) The video device of claim 9, wherein the plurality of attributes of the object includes a position of the object.

63. (New) The video device of claim 9, wherein the plurality of attributes of the object includes a trajectory of the object.

64. (New) The video device of claim 9, wherein the plurality of attributes of the object includes a classification of the object.

65. (New) The video device of claim 9, wherein the plurality of attributes of the object includes a shape of the object.

66. (New) The method of claim 20, wherein each of the plurality of attributes of the object is an observable characteristic of the object.

67. (New) The method of claim 66, wherein the plurality of attributes of the object includes at least one spatial attribute.

68. (New) The method of claim 66, wherein the plurality of attributes of the object includes a color of the object.

69. (New) The method of claim 66, wherein the plurality of attributes of the object includes a size of the object.

70. (New) The method of claim 66, wherein the plurality of attributes of the object includes at least one of a velocity and a speed of the object.

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.
