Subject: Re: Question on WTS 231560 Reference:

Hello -

Wisconsin TechSearch would be able to provide a declaration of public availability for Brill's article in the 1998 DARPA Image Understanding Workshop after August 22nd, 2019. Rachel Watters, who prepares the declarations, is unavailable until then. The scanned file, WTS 213560, was filled from the print conference proceeding held in our campus storage facility.

Regards,
Karen Wagner
