Pursuant to the Patent Rule ("P.R.") 3-1 and 3-2, the Orders issued by this 1 Court on August 14, 2018, October 22, 2018, and December 12, 2018, and the 2 parties' Stipulation Regarding Amending Infringement and Invalidity Contentions, 3 Plaintiff Sleep Number Corporation ("Plaintiff" or "Sleep Number") hereby serves 4 its Amended Disclosure of Asserted Claims and Infringement Contentions and 5 accompanying disclosure against Defendant Sizewise, LLC ("Defendant" or 6 "Sizewise"). Plaintiff also hereby incorporates by reference its Amended Disclosure 7 of Asserted Claims and Infringement Contentions against Defendant American 8 9 National Manufacturing, Inc. ("ANM").

These contentions are based on information reasonably available to Plaintiff 10 at this time. Plaintiff's investigation of the facts relevant to this case is ongoing and 11 discovery is in its preliminary stages. Further, important information about many or 12 all of Defendant's products is not publicly available, including information relevant 13 to the patents-in-suit and these Infringement Contentions. Further, despite the fact 14 that Plaintiff served timely discovery requests, Defendant has failed to meaningfully 15 respond and has refused to produce documents in advance of Plaintiff serving its 16 infringement contentions, including documents that disclose all of Defendant's 17 products. Accordingly, Plaintiff reserves the right to modify and/or supplement 18 these disclosures as information becomes available from Defendant and non-parties, 19 including to identify additional accused products after Defendant has made a 20 fulsome document production. 21

Defendant directly infringes and/or has directly infringed (literally and/or 1 under the doctrine of equivalents) the patents-in-suit, by making, using, selling, 2 offering to sell, and/or importing the Accused Products into the United States. 3 Defendant indirectly infringes and/or has indirectly infringed the patents-in-suit by 4 inducing others to infringe, e.g., by providing manuals or instructions. Defendant is 5 further liable for indirect contributory infringement because it sells and/or has sold 6 air controllers that are and/or were especially made or adapted for use in 7 infringement of the patents-in-suit, which are and/or were not otherwise a staple 8 9 article or commodity of commerce suitable for substantial non-infringing uses, and which do and/or did constitute a material part of the invention and are and/or were 10 used in practicing a patented method. Plaintiff asserts the following claims of the 11 patents-in-suit in connection with the Accused Products identified below and in the 12 attached Exhibits A2, B2, C2: 13 • U.S. Patent No. 5,904,172 ("the '172 Patent"): Claims 2, 6, 12, 16, 20, 22, 14 and 24 (infringement through the expiration of the patent). 15

- U.S. Patent No. 8,769,747 ("the '747 Patent"): Claims 1-19.

Plaintiff expressly reserves the right to modify, amend and/or supplement the
foregoing in light of new information made available to Plaintiff from Defendant
and/or non-parties.
