	JOINT CLAIM CONSTRUCTION & PREHEARING STATEMENT	CASE NOS: 3:18-CV-02243-JD, 3:18-CV-02245-JD

Pursuant to Patent Local Rule 4-3, Plaintiff Firstface Co., Ltd. ("Firstface"), Defendants Samsung Electronics Co., Ltd. and Samsung Electronics America, Inc. (collectively, "Samsung"), and Defendant Apple Inc. ("Apple") file this Joint Claim Construction and Prehearing Statement for U.S. Patent No. 8,831,557, U.S. Patent No. 9,633,373, and U.S. Patent No. 9,779,419.

### Construction of Terms on Which the Parties Agree [Patent L.R. 4-3(a)]

The parties have conferred but have not agreed on the constructions for any terms. The parties will notify the Court if they reach any agreement(s) after the date of this filing.

#### II. Each Party's Proposed Construction of Each Disputed Term [Patent L.R. 4-3(b)]

Exhibit A to this Joint Statement provides an identification of the terms, phrases, and clauses of the '557 patent, '373 patent, and '419 patent upon which the parties do not agree, each party's proposed constructions, the identification of intrinsic evidence that supports each party's proposed constructions, and the identification of any extrinsic evidence known to each party upon which it intends to rely, either to support its proposed construction(s), or to oppose any other party's proposed construction(s), including, but not limited to, as permitted by law, dictionary definitions, citations to learned treatises and prior art, and testimony of percipient and expert witnesses, in accordance with Patent L.R. 4-3(b). To the extent a party cites intrinsic or extrinsic evidence in support of its proposed construction for a disputed claim term, the other parties may also rely on the same intrinsic or extrinsic evidence for that disputed claim term.

#### III. Most Significant and Dispositive Terms [Patent L.R. 4-3(c)]

In accordance with the Court's Standing Order for Claim Construction in Patent Cases Before Judge James Donato, the parties have already narrowed the number of disputed terms, phrases, and clauses to less than ten. The parties propose briefing nine groups of disputed terms, some of which are unique to Firstface and Apple given the two additional patents asserted against Apple. The parties believe that all of these terms are significant to resolving the cases against Apple and Samsung.

<sup>&</sup>lt;sup>1</sup> The '557 patent is asserted against Apple and Samsung. The '373 patent and '419 patent are asserted only against Apple. The '557 patent, '373 patent, and '419 patent are attached as Exhibits B, C, and D, respectively.

### IV. Claim Construction Briefing

The parties understand that the Court's Standing Order for Claim Construction allows them to file 20-page opening and opposition briefs and a 10-page reply brief in each case. In order to streamline the briefing and facilitate the Court's review, the parties propose a slight modification to the Court's order. Instead of submitting 100 total pages of briefing, the parties propose submitting a total of 75 pages of joint briefing (30-page opening and opposition briefs and a 15-page reply brief). The parties propose that Firstface file a single 30-page opening brief and a single 15-page reply brief addressing all claim terms, and Apple and Samsung jointly file a 30-page opposition brief in which they jointly address any terms disputed in both cases and separately address any additional disputed terms unique to that defendant. The parties are filing a stipulated request to joint briefing.

## V. Length of Time for Claim Construction Hearing [Patent L.R. 4-3(d)]

The tutorial is currently scheduled for April 18, 2019, at 11 a.m. The parties anticipate requiring no more than 45 minutes per side, and no more than 90 minutes total.

The claim construction hearing is currently scheduled for May 2, 2019, at 11 a.m. The parties anticipate requiring no more than 90 minutes per side, and three hours total.

# VI. Witnesses To Be Called At Claim Construction Hearing [Patent L.R. 4-3(e)]

Firstface does not expect to call any live witnesses during the claim construction hearing.

Firstface may rely on declarations or deposition testimony from expert witnesses in its claim construction briefing. In particular, Mr. Nigel Jones may offer declaration or deposition testimony to explain the meaning of claim terms in the context of the subject matter disclosed in the patents-in-suit, describe the state of the technology related to the claimed inventions of the patents-in-suit, and explain how a person of ordinary skill would interpret claim terms at the time of the invention. Mr. Jones may also offer declaration or deposition testimony to rebut any of Defendants' claim constructions.

Apple does not expect to call any live witnesses during the claim construction hearing. Apple may rely on declarations or deposition testimony from Jason Nieh or George Edwards in its claim construction briefing. In particular, Mr. Nieh or Mr. Edwards may offer declaration or deposition testimony to explain the meaning of claim terms in the context of the subject matter disclosed in the

patents-in-suit, describe the state of the technology related to the claimed inventions of the patents-insuit, and explain how a person of ordinary skill would interpret claim terms at the time of the invention.

Samsung does not expect to call any live witnesses during the claim construction hearing. Samsung may rely on declarations or deposition testimony from Jason Nieh in its claim construction briefing. In particular, Dr. Nieh may offer declaration or deposition testimony to explain the meaning of claim terms in the context of the subject matter disclosed in the patents-in-suit, describe the state of the technology related to the claimed inventions of the patents-in-suit, and explain how a person of ordinary skill would interpret claim terms at the time of the invention.

#### VII. Requested Factual Findings [Patent L.R. 4-3(f)]

The parties do not request that the Court make any factual findings related to claim construction.

# DOCKET

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

# **Real-Time Litigation Alerts**

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## **Advanced Docket Research**

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

# **Analytics At Your Fingertips**

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

#### API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

#### **LAW FIRMS**

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

#### **FINANCIAL INSTITUTIONS**

Litigation and bankruptcy checks for companies and debtors.

### **E-DISCOVERY AND LEGAL VENDORS**

Sync your system to PACER to automate legal marketing.
