Welcome and Opening Remarks

DR. LURIE: Good morning, everybody. My name is Peter Lurie. I'm a senior advisor here in the Office of Policy and Planning here at FDA, the Office of the Commissioner. And I'm pleased to welcome you this morning to our meeting on the Role of Naloxone in Opioid Overdose Fatality Prevention.

We put on a lot of meetings here at FDA. I think this one is cut from a different cloth. And I think for all of us, it is a very exciting opportunity for us to engage in conversation with you about this interesting and important topic.

This meeting is put on collectively by the FDA, by the National Institute of Drug Abuse, by the Centers for Disease Control and Prevention, and by the Office of the Assistant Secretary for Health in the Department of Health and Human Services.

The problem before us, as everybody in this audience knows, is an enormous one. We have enormous increase in the use of opioid analgesics,
