NARCAN® (naloxone HCl) NASAL SPRAY 4mg

FOR EMERGENCY TREATMENT OF OPIOID OVERDOSE

Please see Indication and Important Safety Information below.

- ✓ 4 mg nasal dose in single spray
- ✓ Ready-to-use
- ✓ Needle-free

Full Prescribing Information | Quick Start Guide | Group Purchasers | Press Materials

Commercial Availability

NARCAN® (naloxone HCl) Nasal Spray 4 mg is scheduled to become commercially available early 2016.

For more information on NARCAN® Nasal Spray call 844-4-NARCAN (844-462-7226) or email customerservice@adaptpharma.com

Indications and Important Safety Information

INDICATIONS

NARCAN® (naloxone hydrochloride) Nasal Spray is an opioid antagonist indicated for the emergency treatment of known or suspected opioid overdose, as manifested by respiratory and/or central nervous system depression.

NARCAN® Nasal Spray is intended for immediate administration as emergency therapy in settings where opioids may be present.

NARCAN® Nasal Spray is not a substitute for emergency medical care.

IMPORTANT SAFETY INFORMATION

NARCAN® Nasal Spray is contraindicated in patients known to be hypersensitive to naloxone hydrochloride.

Seek emergency medical assistance immediately after initial use, keeping the patient under continued surveillance.

Risk of Recurrent Respiratory and CNS Depression: Due to the duration of action of naloxone relative to the opioid, keep the patient under continued surveillance and administer repeat doses of naloxone using a new nasal spray with each dose, as necessary, while awaiting emergency medical assistance.

Risk of Limited Efficacy with Partial Agonists or Mixed Agonists/Antagonists: Reversal of respiratory depression caused by partial agonists or mixed agonists/antagonists, such as buprenorphine and pentazocine, may be incomplete. Larger or repeat doses may be required.

Precipitation of Severe Opioid Withdrawal: Use in patients who are opioid dependent may precipitate opioid withdrawal and acute withdrawal syndrome. In neonates, opioid withdrawal may be life-threatening if not recognized and properly treated. Monitor for development of opioid withdrawal.

Risk of Cardiovascular (CV) Effects: Abrupt postoperative reversal of opioid depression may result in adverse CV effects. These events have primarily occurred in patients who had pre-existing CV disorders or received other drugs that may have similar adverse CV effects. Monitor these patients closely in an appropriate healthcare setting after use of naloxone hydrochloride.

The following adverse reactions were observed in a NARCAN Nasal Spray clinical study: increased blood pressure, musculoskeletal pain, headache, nasal dryness, nasal edema, nasal congestion, and nasal inflammation.

See Instructions for Use and full prescribing information in the use of this product.

To report SUSPECTED ADVERSE REACTIONS, contact Adapt Pharma, Inc. at 1-844-4NARCAN (1-844-462-7226) or FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.

Privacy Statement

Adapt Pharma, Inc. respects the privacy of visitors to our websites, and as a result, we have developed this Online Privacy Statement. We may update this Statement from time to time.

Scope

This Privacy Statement applies only to the operation of websites that directly link to this statement when you click on "Privacy Statement" in the website footer.

CONSENT TO PROCESSING IN THE UNITED STATES AND ELSEWHERE. This site is owned and operated by Adapt Pharma in the United States, but the information you provide may be accessible to our affiliates, vendors and suppliers in other countries. By using this site, you consent to the collection, storage and processing of your information in the United States and in any country to which we may transfer your information in the course of our business operations.

Information Routinely Collected by Our Website Technology

Web Log Data via analytics cookies. Our webserver will routinely gather web log data, sometimes from cookies on your computer, when you visit one of our websites. The webserver automatically recognizes non-personal information such as the date and time you visited our site, the pages you visited, the website you came from, the type of browser and operating system you are using, and the domain name and address of your Internet service provider. IP Address. We record the Internet Protocol "IP" address of your computer when you visit our site. Without more information, the IP address does not identify you personally, but it is what allows us to maintain communications with your computer as you move about our site and perform other site analytics. Cookies and Other Technologies. We also collect information about your use of our site through technology such as cookies and web beacons. A "web beacon" is a piece of code on our site that enables us to monitor things like user activity and site traffic. A "cookie" is a unique numeric code that we transfer to your computer so that we can keep track of your interests and preferences and recognize you as a return visitor to our site. We use cookies without directly identifiable personal information to bring you content and features likely to be of interest to you, based on your previous activities on our site.

How We Use Your Information

Web log, IP Address and other information routinely collected by our webservers in connection with your visit to this website will be used to better understand your needs and general user traffic patterns, and to improve our websites and services. We may enhance or merge this information with other data we may have about you as well as with data obtained from third parties for the same purposes. We retain IP addresses and also may use your IP address to personalize content provided on the website. Information routinely collected may also be stored in databases owned and maintained by Adapt Pharma or its agents, contractors, and business partners. Adapt Pharma retains all rights to these databases and the information contained in them.

Web Beacons. Our websites may use web beacons (sometimes called single-pixel GIFS) to generate web log information. Cookies. Our webservers can detect whether you have cookies on your computer. It is possible that a cookie may contain information that could be deemed identifiable. We may use the data we obtain through the use of cookies to customize your site experience by anticipating the information and services that may be of interest to you. We also analyze the information collected with cookie technology to help us improve the functioning of our site by monitoring traffic in popular areas and to modify the services and information we provide to meet customer demand. We use the information we collect through the use of cookies for our business purposes, including operation of our site, as well as research and product analyses to help us better market our products. Third-Party Cookies and Advertising. We may partner with third-party ad networks to manage our advertising on other sites. Our ad network partners use cookies and web beacons to collect non-personally identifiable information about your activities on this and other websites to provide you targeted advertising based upon your interests. If you would like to opt-out of or manage cookies used for targeted advertising, you may do so by following the options provided by the Network Advertising Initiative at: http://www.networkadvertising.org/choices/ and the Digital Advertising Alliance at: http://www.aboutads.info/choices/. Please note that opting out of receiving targeted ads will not prevent you from being served advertisements generally. Digital Analytics. Our webserver will install a cookie on your machine in order to aid the accuracy of our data analytics program. While a profile can be built from a user's surfing habits through the use of this cookie, the cookie itself contains no personal information. We use these profiles to establish common web browsing of our users, such as links that have been clicked or documents accessed, which helps us to maintain and enhance the service we provide. This cookie will remain on your computer indefinitely, even after you leave our site.

Sharing Your Information

We may share the information we collect through this website with our employees, agents, contractors or partners in connection with services that these individuals or entities perform for or with us. These agents, contractors or partners are restricted from using these data in any way other than to perform these services. Adapt Pharma expects our employees and partners to maintain the trust placed in us by those who provide us with information by using reasonable administrative, technical and physical safeguards. Adapt Pharma reserves the right to share information to respond to duly authorized information requests of governmental authorities or where required by law. In some circumstances, such as where national, state or company security is at issue, Adapt Pharma reserves the right to share our entire database with appropriate governmental authorities. We may also provide information to a third party in connection with the sale, assignment or other transfer of the business of this website to which the information relates. In which case, we will require any such buyer to agree to treat information in accordance with this Privacy Statement.

Social Media Plugins

Our websites may use social media plugins to enable you to easily share information with others. When you visit our websites, the operator of the social media plugin that is on our website can place a cookie on your computer, enabling that operator to recognize individuals on their website who have previously visited our sites. If you are logged into the social media website while browsing on our website, social media plugins may allow that social media website to receive directly identifiable information about you that shows you have visited our website. Social media plugins also allow the social media website to share information about your activities on our website with other users of their social media website. Adapt Pharma does not control any of the content from social media plugins. For more information about social plugins from social media websites, you should refer to those sites' privacy and data sharing statements.

Do Not Track

Some web browsers may transmit "do-not-track" signals to websites with which the browser communicates. Adapt Pharma webservers do not currently respond to these signals.

Children

This site is not intended for or designed to attract individuals under the age of 18.
